! As you will appreciate at this time of year, our support team are extremely busy. We will endeavour to resolve all of your queries in a timely manner by both telephone and e-mail, determined by the urgency of your queries.

We understand how stressful End-Of-Financial-Year can be, that nerves may be frayed and tolerance may be in short supply at this time of year. Thank you sincerely for your co-operation and understanding at this busy time.

If we believe that your question is answered within this guide, then you will be directed to the relevant section to answer your question/s due to the substantial number of calls during the End-Of-Financial-Year period

1.1.4.1.1. Your Employees Transactions do not match their Year To Date Taxation Balances

If the totals on the **Employee Balances** (Year To Date), **Employee YTD Transactions** and **Allowance YTD Summary** reports are not identical,

1. Determine the reason (eg. Manually entered Balances, Manual adjustments already made to Balances, a pay run entered more than once).
2. If required, read **here** to manually adjust your Employees Year To Date Taxation Balances.

✱ If you previously followed Getting Started with e-PayDay® Legacy **here**, the employee may have Taxation Balances that were manually entered, but have never been processed as pay runs through e-PayDay®.**Manually entered Year to Date Taxation Balances will NOT be displayed in the Employee Transactions Report**

If the employee's balances differ by the exact amount of the previously entered opening balances, then the two reports are correct.

If opening balances were not entered, you may need to manually adjust the Employees Year To Date Taxation Balances by following **here**
