1. Release Notes for Mekorma 1.0.2.2

Mekorma 1.0.2.2 was released on February 8, 2023.

* If you are a new user, please go directly to: Introduction to Mekorma Electronic Signatures.

Follow the links below for detailed notes on:

- <u>New Features</u>
- Issues Fixed

Last modified: February 14, 2023

1.1. New Features

Release Notes for Mekorma 1.0.2.2 released February 8, 2022

Remit-To Address

Microsoft has rolled out a new feature that allows users to assign multiple remit-to addresses to a vendor. We have tied this functionality into our check printing process, allowing you to now select a specific remit-to address to print on your checks.

Last modified: February 14, 2023

1.2. Issues Fixed

Release Notes for Mekorma 1.0.2.2 released February 8, 2022

Signature Lines

You are now able to print a single signature on a check without a signature line below it.

Last modified: February 14, 2023

2. Introduction to Mekorma Electronic Signatures

Mekorma Electronic Signatures work in conjunction with Microsoft Dynamics 365 Business Central Payment Approval workflow to keep organizations from having to manually sign checks. It helps your company to change your check printing workflow from this:

Changing your workflow in this way has several advantages:

- 1. Your approvers (check signers) do not need to be physically present to sign as they can approve the payments remotely.
- 2. The approval workflow applies to all payments, so your electronic payments also get approved, not just your checks.
- 3. You free your executives from the labor of hand-signing payments.

For assistance with this user guide, review to <u>How to Use This Guide</u>.

Last modified: November 2, 2023

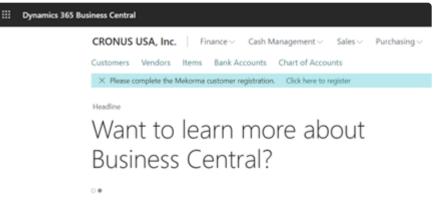

3. Registering Your Product

Mekorma Electronic Signatures for Microsoft Dynamics 365 Business Central is provided as a free product that requires registration. Registering your product is important for Mekorma to provide the best customer experience possible and to understand what features customers are requesting from us.

After installing Mekorma Electronic Signatures from Microsoft AppSource you will complete a brief set of steps that will get you on your way to using the product.

*	Registering Elect	ronic Signatures	is required ev	ven if you have pre	eviously
	registered.				

 To begin, click on the Click to Register hyperlink on the banner presented below Dynamics 365 Business Central menu options.

 Proceed to enter your company information on the Customer Registration page. Enter your company name, street address, city, state, zip code, country, and phone number. Please ensure this information matches the information you provided to Microsoft when registering your Dynamics 365 Business Central application.

Customer Registration	\mathcal{Z} \times
දරූ	
Company Name

	OK Cancel	

3. NOTE FOR MICROSOFT DYNAMICS GP CUSTOMERS: You will be asked if you have migrated from a Microsoft Dynamics GP System. If you are migrating from Microsoft Dynamics GP, please click Yes to enter your MSAN – Microsoft Account Number. This will aid the Mekorma Sales Operations team with linking your free Electronic Signatures product to your existing Mekorma account.

Did you migrate from an existing Microsoft Dynamics GP system?

Yes	No
-----	----

If you are a partner assisting your customer with the installation and registration process, please feel free to contact Mekorma Sales at <u>sales@mekorma.com</u> should you want to confirm this information prior to completing the registration.

4. Proceed to enter your contact information. Please enter the contact first name, last name, title, email address, and phone number. We ask that you enter the contact information of the person associated with the company being registered.

4. Prior to Configuring

This guide explains how to configure the signature portion of this solution. Please refer to <u>Business Central documentation</u> for configuration of the payment approval process or contact Mekorma Professional Services for assistance.

Prior to installing the electronic signature component there are several things that you should prepare:

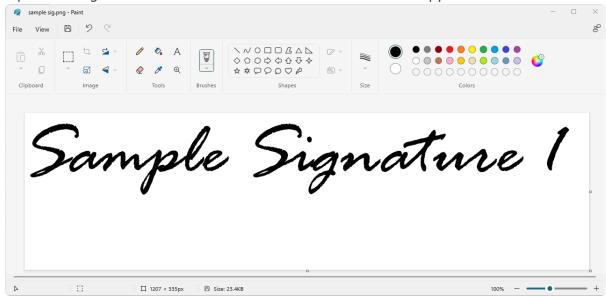

- Ask these questions of your CFO to understand how to set up Mekorma Electronic Signatures:
 - $\circ~$ For each Checking account, who are the signers on the account?
 - What amounts require 1 signature?
 - What amounts require 2 signatures?
 - Is there an amount above which you want a handwritten signature rather than an electronic signature?
 - $\circ~$ Is there an amount above which you want 2 handwritten signatures?
 - You can see how this information is used in the section <u>Setting up Signature</u> <u>Thresholds</u>
- Gather signatures from your approvers. The section <u>How to Create a Digital Signature</u> explains the guidelines for gathering and digitizing your signatures.

Last modified: February 13, 2023

5. How to Create a Digital Signature

Here are the step-by-step instructions, as recommended by Mekorma, to provide the digital signatures you want to print on your checks:

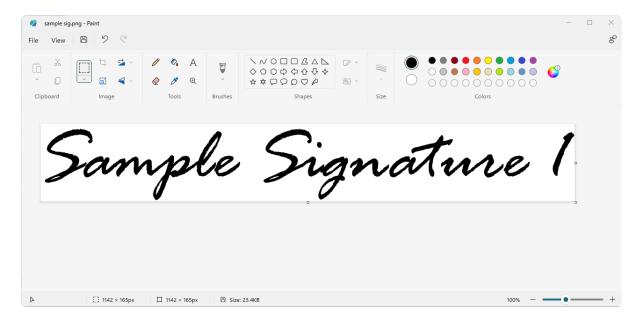

- 1. Print out our <u>Template for Gathering Signatures</u>.
- 2. Ask each check signer to reproduce their signature within a rectangle.
- 3. Use your scanner equipment to scan each signed sheet of paper into a computer.
- 4. Open the signatures one at a time in the Microsoft Paint application

5. With one of the signatures opened in Paint, click on the Select drop-down menu and choose Rectangular selection.

🧛 🛛 sample sig.png - Paint					- C	- · ·
File View 🖹 🦻 🤇						ę
 → →	V 🗸	∧ ○ □ □ Δ △ △ ○ ○ ○ ○ ○ ○ ◇ 本 □ ○ ○ ◇ ◇ Shapes	Size	Colors	C	
C Free-form						
Select all Ctrl+A						
Invert selection Transparent selection Image: Delete Delete Delete	sple	Sign	nati	ne	1	
	rple	Sign	nati	ne	1	

6. Draw the selection box around the signature as closely as possible and then click **Crop**. The cropped signature should look similar to the example below:

7. In the **Resize and Skew** window, click on **Resize** and choose the **Pixels** radio button. Be sure that the **Maintain aspect ratio** checkmark is selected. Adjust either the horizontal or vertical dimensions.

	11310113.				
🧛 sample sig.png - Paint				-	
File View 🖹 🈕	9				°
Clipboard Image	Gi ∨ P & A Gi ∨ Q P Q Tools	V V 0 □ △ △ V 0		Colors	
		×			
Re	Resize and Skew			1

He	Horizontal Vertical	0			
:	220 🖾 31			č	1
Sk	škew				
Hc	Horizontal Vertical				
(0° 0°				
	OK Canc	el			

A good choice for use in Microsoft Dynamics 365 Business Central is a signature file with approximate dimensions of 220×50 pixels.

- 8. Click on the File menu option, then select Save to save your signature as a JPEG (jpg) or 16 Color Bitmap (bmp) file. These file formats produce the best results for check printing.
- 9. Repeat the same procedure for all needed signatures, and store in a location accessible to an administrator for use within Microsoft Dynamics 365 Business Central.

6. Importing Signatures in Microsoft Dynamics 365 Business Central

The next step is to import your signatures into your Microsoft Dynamics 365 Business Central application so that Mekorma Electronic Signatures can use them.

Follow these steps to import a signature file:

1. Choose the Magnifier that opens the **Tell Me** feature icon and type *mek*. Select **Mekorma Signatures List** from the pages and tasks displayed.

File n	ame: CEO Ellen signature.png	-				Custom Fil	es (*.bmp;*.jpg;*.p

Please note that the Open dialog will only show bitmap (.BMP), JPEG (.jpg), or PNG (.png) files.

The signature file is now imported, and the signature record is automatically saved.

 Repeat the above steps for each signature you would like to import. Mekorma Electronic Signatures allow you to import an unlimited number of signatures to be used with your Microsoft Dynamics 365 Business Central application.

7. Setting Up Signature Thresholds

Signature Thresholds are used to set up signature rules based on your organization's policies. They ensure the correct signature appears on the check at print time, based on your rules. You can also control whether signature lines are printed or not depending on whether you are using one or two signatures and you can turn off lines entirely if you are using pre-preprinted checks.

Prior to setting up thresholds we recommend that you gather the following information:

- For each Checking account, who are the signers on the account?
- What amounts require 1 signature?
- What amounts require 2 signatures?
- Is there an amount above which you want a handwritten signature rather than an electronic signature?
- Is there an amount above which you want 2 handwritten signatures?

Here, we will use this example:

Question	Answer
For each Checking account, who are the signers on the account?	Dave, CFO Ellen, CEO
What amounts require 1 signature?	Check payments up to 50,000 only require Dave's signature
What amounts require 2 signatures?	Checks between 50,000.01 and 200,000 require both Dave's and Ellen's signature
Is there an amount above which you want a single handwritten signature rather than an electronic signature?	In this case, no
Is there an amount above which you want 2 handwritten signatures?	Yes, checks above 200,000 require 2 handwritten signatures

Follow these steps to setup a signature threshold:

1. Choose the Magnifier that opens the Tell Me feature icon and type *mek*. Select **Mekorma Thresholds List** from the pages and tasks being displayed.

		₽ ◘

2. In the Mekorma Thresholds List page, click on the New button to set up a new signature threshold.

Mekorma Thresholds List		
🔎 Search 🕂 New 🐺 Edit List 📋 Delete 🖻	Details More options	☞ 7 ≡ 0
Threshold ID ↑	Threshold Description	
	(There is nothing to show in this view)	Notes +
		(There is nothing to show in this view)

3. Begin by entering a Threshold ID and a Threshold Description, as shown below:

\leftarrow	Mekorma Thresholds List										✓ Saved 🗍 🗖 🦯
	, ○ Search	+ New	🐯 Edit List	📋 Delete	🛕 Details	More opt	ions				ie 7 = O
	Threshold ID ↑							Threshold Description	_		
	\rightarrow	AP						:	Accounts Payable Threshold	N	lotes +
											(There is nothing to show in this view)

4. With your cursor positioned on the **Threshold** or **Threshold Description** field of the row you want to define, click the **Details** button on the list page to configure your threshold limits.

\leftarrow	Mekorma Thi	resholds Lis	t			_						√ Saveo	d		ď	۶ ^۲
	, ○ Search	+ New	🐯 Edit List	📋 Delete	🛕 Details	More opti	ons						Ŀ	7	≡	0
		Thresho						Threshold Description								
		Inresno				_		Inresnoid Description	_							
	\rightarrow	AP					1	Accounts Payable Threshold	Neter							
									Notes	+						
										(There i	s nothing to	o show in th	nis view	/)		

5. In the Mekorma Threshold Maintenance page, begin by entering the Threshold From Amount and Threshold To Amount values. Based on your check signature rules, you can determine whether you will need no signatures, 1 signature, or 2 signatures and establish which signatures appear at what threshold level.

Q	Search $+$ New	🐯 Edit Li	st 📋 Delete				Ŕ	\mathbb{Y}	
	Threshold ID ↑ ▼		Threshold From Amount ↑	Threshold To Amount	Signature Image 1	Print Signat Line 1	Signature Image 2	Print Signa Line	at
	AP		0.01	50,000.00	CFO DAVE			0	
	AP		50,000.01	200,000.00	CFO DAVE		CEO ELLEN	E	/
\rightarrow	AP		200,000.01	9,999,999,999.99		<			/

The following shows how you would fill it in for our example scenario:

- Note that in the above scenario, check payments between \$0.01 and \$50,000 only require Dave, the CFO's signature. A signature line will also be printed.
- Check payments between \$50,000.01 and \$200,000 will carry both Dave, the CFO, and Ellen, the CEO's signature. Signature lines will also be generated for each signer.
- Check payments above \$200,000 will only print the signature lines. These checks will require two handwritten signatures.
- 6. Click the Back button ^(S) on the Mekorma Threshold Maintenance page when finished to return to the Mekorma Threshold List page.
- 7. Repeat steps 3 through 6 to set up additional thresholds.

8. Apply a Threshold to a Bank Account

You can now apply a specific threshold to each of your bank accounts. In many cases, you may have different check signing rules in your organization based on your different bank accounts.

To apply a threshold to a bank account, follow these steps:

1. Choose the Magnifier icon that opens the **Tell Me** feature icon and type *bank accounts*. Select **Bank Accounts** from the pages and tasks being displayed.

<i>></i>	1	:		7081	9575 🗸 1	Mekorma Check
				ID 1	Туре 🕇 🝸	Object Caption
			\rightarrow	<u>70819575</u>	Report	Mekorma Check
				70819576	Report	Mekorma Check (Stub/Stub/Check)
				70819577	Report	Mekorma Check (Stub/Check/Stub)
				70819578	Report	Mekorma Check (Check/Stub/Stub)
					n	Select from fu

Type the Report ID for the desired check format. The following are the IDs associated with the formats provided by Mekorma Electronic Signatures:

Report ID	Check Format
70819575	Mekorma Check
70819576	Mekorma Check (Stub/Stub/Check)
70819577	Mekorma Check (Stub/Check/Stub)
70819578	Mekorma Check (Check/Stub/Stub)

For additional information on selecting a check layout and working with MICR security fonts, see <u>Specify the Layout of a Check – Business Central | Microsoft Docs</u>.

10. Selecting the Remittance Address to Print on the Check

Mekorma Electronic Signatures provides the flexibility to select the remittance address to print on the face of the check from between the vendor Purchasing Invoice or the vendor address on the vendor card.

The following describes how to enable this feature:

1. Choose the Magnifier that opens the **Tell Me** feature icon, enter *Mekorma Electronic Signatures Setup*.

م	Q
$\overline{()}$	Ľ

2. Click the **Print Invoice Address** toggle button to enable printing the invoice address as the remittance address on the check.

\leftarrow		√ Saved	
Mek	orma Electronic Signatures Setup		
General			

If enabled, Print Invoice Address will override all other remit-to address logic. See <u>Microsoft's recently updated remit-to address</u> for more information.

11. Processing Check Payments with Electronic Signatures

Mekorma Electronic Signatures rely on Business Central's Payment Journal feature to process payments and display electronic signatures. See <u>Overview of Tasks to Manage Payments to</u> <u>Vendors – Business Central | Microsoft Docs</u>.

You can issue electronic checks in Business Central. This method uses the payment journal to issue checks to vendors. You can also void checks and view check ledger entries.

The following procedure shows how to pay a vendor with a computer check by applying the payment to the relevant vendor invoice, printing the check, and then posting the payment as paid. This results in positive vendor ledger entries, applied to negative bank ledger entries, and physical checks for processing in the bank.

Your printer must be correctly set up with the check forms, and you must define which check layout to use. For more information, see <u>Selecting Mekorma Check</u> <u>Formats</u> above. Alternatively, you can send the check as a PDF file, for example.

With Business Central, check stubs are limited to 10 invoices per page. If a check applies to more than 10 invoices, Business Central will print remittance-only pages until it expends all the invoices. The check portion of each page will contain the word VOID. Business Central will print the actual check portion on the final page.

11.1. To Pay a Vendor Invoice with a Computer Check

The following describes how to pay a vendor by check:

1. Choose the Magnifier that opens the **Tell Me** feature icon, enter *Payment Journals*, and then choose the related link.

		ם ¢ ₪

11.2. Previewing Signatures on a Check

Mekorma Electronic Signatures allow you to preview the signatures that will appear on the check, by selecting the **Preview Check** option from the **Check** action, when the **Bal. Account Type** field has been set to Bank Account and you have selected a bank account in the **Bal. Account No.** field.

Payer				
Company Name	CRONUS USA, Inc.	Company ZIP Code/C	Atlanta, GA 31772	
Company Address	7122 South Ashford Street	Document No.	G04001	
Company Address 2	Westminster	Status	Not Printed Check

Click on the Image ID field of the signature to see the signature image.

11.3. Printing a Check with Signatures

Click on the Check action and select Print Check....

\leftarrow	Payment Journ	nals											√ Save	d [] 🗗	7 ⁴
	Batch Name							CA	SH						
	Manage H	ome	Prepare 0	Check Reque	est Approval Ba	nk Line	Actions \lor	Related \lor Aut	omate 🗸 🛛 Fewer	options				67	0
	평 Print Che	eck	🛃 Void C	heck 🔂 Vo	oid All Checks	Preview Cł	neck								Ŕ
	Posting Date		Document Date	Document Type	Document No.	External Document No.	Account Type	Account No.	Recipient Bank Account	Description	Currency Code	Payment Method Code	Journal Line Details		
\rightarrow	4/10/2023	÷	4/10/2023	Payment	G04001		Vendor	50000		Nod Publishers		CHECK	Posting Group	DO	MEST
													Account		

On the check page, fill in the fields as necessary. You must *at least* select a Bank Account to print your checks. Hover over a field to read a short description.

Mekorma Check		$\scriptstyle \nearrow \times$
Printer	(Handled by the browser)	~
Report Layout	./MekormaCheck.rdl	
Options		
Bank Account	CHECKING	~
Last Check No.	199	
One Check per Vendor per Doc		
Reprint Checks		
Test Print		
Preprinted Stub		
Commit Each Check		
Filter: Gen. Journal Line		- 1
× Journal Template Name	PAYMENT	~
× Journal Batch Name	CASH	~
× Posting Date		
Send	to Print Preview	Cancel

If your printer is set up to print checks, choose the **Print** button. Otherwise, choose the **Send** to... button, select the PDF Document option, choose the **OK** button, and then print the PDF document.

The physical checks can now be sent to the vendors for processing. Proceed to post the payment as applied to the vendor and thereby paid in the system.

Choose the **Post** action.

14. Requesting Support, Implementation, or Customization

We are here to help!

If you are having a specific issue with your Mekorma products and require assistance from our Customer Success team, please log in to our <u>online portal</u> and open a new case.

- <u>Technical Support</u> is included with your yearly enhancement plan. <u>Open a support case</u>.
- Implementation Support is available to help you prepare, install, or configure any aspect of Mekorma Electronic Signatures for Dynamics 365 Business Central.
- <u>Customization Support</u> is available if you want to go beyond the built-in feature set of our product.

Last modified: October 9, 2023

15. How to Use This Guide

New users can follow step-by-step installation, configuration, and usage instructions delivered via written content and video demonstrations. Experienced users can review this guide for any applicable <u>new feature information</u>, or use it as an ongoing reference tool:

- Pull targeted results using the Search functionality in the top menu bar.
- Use the expandable menu on the left sidebar to discover topics of interest.
- Bookmark pages or share links with colleagues, as each page in the guide has its own unique URL.
- Print individual pages by clicking on the printer icon at the top right corner of any page.
- Download/Print the entire user guide by clicking on the Download as PDF button at the very bottom of the left-hand menu.
- Contact us with your ideas if there are any new features or enhancements you would like to see in a product, by using the link at the bottom of each page.

If you are looking for a more tailored experience, our dedicated Customer Success team is ready to support you, guide you through product implementations, and assist you with any customized build requests. For more information, see <u>Requesting Support</u>, <u>Implementation</u>, or <u>Customization</u>, or visit us at our <u>website</u>.
