1. Site Overview

PickleballBrackets.com is a fully customizable, web-based program designed for the easy and efficient administration of pickleball tournaments, clubs and leagues, large and small. It provides all the management features necessary for the creation, maintenance and operation of all of your pickleball functions, backed by a robust security protocol.

1.1. Security

GENERAL SECURITY

PickleballBrackets.com runs completely on an SSL certificate to ensure all data being transferred from and to its application is secure.

All Account Holders

1. Pickleball Brackets LLC does not sell any information gathered on the site.
2. Login is **ONLY** done using 2 stage authentication to prevent automated hacking.
3. Passwords are stored as a **ONE WAY** encrypted hash using a one-time randomly generated value, thus preventing password theft by an unauthorized user or hack. This complies to federal law.
4. **NO** password is ever sent as plain text to a person's email account. This would violate federal law.
5. A forgot password email option is given and a verification is sent to the email address with a link to change the password. The only person that gets this option is the person who owns the email account.
6. No player's contact or private information is ever displayed on the site.

Organization Managers and Tournament and League Directors

1. Each manager can have their own security profile.
2. Each profile allows that manager to do and see certain things in the administration area.

1.2. Program Access and Devices

Pickleball Brackets works on all devices (phone, tablet, desktop/laptop), operating systems, and browsers.

1.2.1. For Players

Players may choose one of the following devices to use PickleballBrackets.com

1. A computer with internet access.
2. A tablet with internet access.
3. A mobile smart phone.

For best results, assure that your device is running the latest version of it's operating system and that your browser is up to date.

Player functions include:

1. [Setting up and maintaining an account](#)
2. [Registering for a Tournament](#)
3. [Viewing tournament sign ups, results, event details and statistics](#)
4. [Viewing ratings for any player](#)
5. Sending messages to tournament directors or players looking for partners.
6. [Signing up as a referee or volunteer for a tournament](#)
7. [Purchasing tournament items or services not included in the registration fee](#)
8. Joining a Club
9. Registering for a League
10. Entering League scores
11. Viewing League sign ups, rankings, event details and statistics

Optional: PickleballBrackets.com will send tournament and league related text messages to any mobile phone number specified by a player in their account profile.

1.2.2. For Club Managers

Club Managers may choose one of the following devices to maintain their clubs on PickleballBrackets.com

1. A computer with internet access.
2. A Windows tablet/convertible laptop with internet access.
3. A smart phone with internet access.

Minimum resources for managing a club.

1. Reliable internet access.
2. One computer, tablet or smart phone.

Recommended resources

1. Reliable internet access.
2. One computer, tablet or smart phone.
3. One printer for printing reports.

For best results, assure that your devices are running the latest versions of their operating systems and that your browsers are up to date.

1.2.3. For Tournament Directors

Tournament Directors and administrators may choose one of the following devices to maintain their events on PickleballBrackets.com

1. A computer with internet access.
2. A Windows convertible laptop with internet access.

Mobile phone and tablet access for administration is not supported at this time.

Minimum resources for running a tournament.

1. Reliable internet access.
2. One computer for score sheet printout and score input.
3. One computer or large tablet for player check in.
4. One printer.

Recommended resources

1. Reliable internet access.
2. One computer and printer for score sheet printout and score input.
3. Extra computers for score input for large tournaments (500+ players) or multiple locations.
4. QR code readers for rapid score input.
5. One computer and printer for administration, reports and score input.
6. One or more computers or large tablets for player check in.
7. Internet connected monitors for display of results (each requiring a tablet or laptop computer and supporting kiosk software).
8. Internet connected monitors for display of upcoming matches for single and double elimination events (each requiring a tablet or laptop computer).

For best results, assure that your devices are running the latest versions of their operating systems and that your browsers are up to date.

1.2.4. For League Directors

League Directors and administrators may choose one of the following devices to maintain their events on PickleballBrackets.com

1. A computer with internet access.
2. A Windows tablet/convertible laptop with internet access.
3. A smart phone with internet access

Minimum resources for running a league.

1. Reliable internet access.
2. One computer, tablet or smart phone for player check in and score input.

Recommended resources

1. Reliable internet access.
2. One computer, tablet or smart phone for player check in and score input.
3. One printer for score sheet printing.

For best results, assure that your devices are running the latest versions of their operating systems and that your browsers are up to date.

1.3. FAQs and Quick Tips and Tricks

FAQs and Quick Tips and Tricks

1. [Player FAQs](#)
2. [Tournament Director FAQs](#)
3. [Tournament Director Tips and Tricks](#)
4. [Club Manager FAQs](#)
5. [League Manager FAQs](#)
6. [How to Practice on My Own Tournament or League](#)

1.3.1. Player FAQs

Account Setup

1. **A tournament director set up an account for me and I can't log in. What do I do now?**
 - If the tournament director used your email address to set up the account, you should use that email address to attempt a log in. Click the **Forgot Password** link on the log in page to create a password for your account and then log in. Click [HERE](#) for directions.
 - If the tournament director created a temporary password for you to register and pay for a tournament, ask the tournament director to edit your registration record and change the email address to your correct email address. Then follow the directions above to use the forgot password link to create a password. Click [HERE](#) for directions.

Account Changes

1. **How do I change my player profile?**
 - You can change your player profile to update any item including your email address. Log in to your account. From the drop down menu under your name, select My Profile. On a computer that will be on the upper right of the screen. On a phone, you will find it by clicking on the menu button next to your name at the top and then on your name at the bottom. Be sure to save any changes.

! Do not create a new account if you have a new email address! Just change the email address in your existing profile.

Searching for a Tournament

1. **I'm trying to search for a tournament in a specific state but there are no states on the drop down menu.**
 - A country must be selected before you select a state. After a country is selected, all the states and provinces in that country will appear on the state drop down menu. Click [HERE](#) for directions.

! All search parameters are saved and will be in effect until you change them, even if you close your browser or log out. If you want to switch back to a global search for all tournaments, be sure to reset all search parameters.

Searching for a Player or Player Rating

1. **I'm looking for a player who I know has a history of playing in tournaments, but I can't find him/her.**

- Be sure that you have spelled the name correctly. You can search by either first or last name. Instead of the full name, you can type in the first 2 or more characters of the name and the search will bring up every match.
 - Only players with a PickleballBrackets.com account will be found with the player search function.
2. **I found the player who I was searching for but he/she does not have a tournament rating or the rating is not the same as their association rating (UTPR, Pickleball Canada, etc.)**
- Tournament ratings are only calculated for tournaments using PickleballBrackets.com. Players who have not played in a PickleballBrackets.com tournament will only have a self rating.
 - Individual associations have their own procedures for calculating ratings. Although they may use the data from PickleballBrackets.com, their calculation algorithm may be different, thus resulting in a different rating.

Tournaments

1. **I registered for a tournament and so did my partner. Even though we selected each other, we did not get matched up for our event. What happened?**
- This usually occurs when a player registers with one email address but is then picked as a partner by someone using a different email address to find them. If the partner is not found and they enter the partner information manually, with the wrong email address, the team won't be matched up. Contact each other to be sure you are each using the correct email addresses to get matched up. The player who used the wrong email address to search should log in and edit their registration to start a new partner search with the correct address. To prevent this from happening, use a name to search instead of an email address but be sure to spell the name correctly. Click [HERE](#) for directions.
2. **I registered for a tournament and paid via PayPal, but my registration does not show on the list of players and events. What should I do?**
- If you received a PayPal receipt **and** a PickleballBrackets.com receipt for your registration, you should wait 15 minutes or so to see if your registration appears. If not, use the Contact Tourney button on the main tournament webpage to get in touch with the tournament director.
 - If you did not receive either or both of the receipts, use the Contact Tourney button on the main tournament webpage to get in touch with the tournament director.
3. **I received an email saying that I had been moved to the waiting list for an event, even though the event still shows a number of open slots. Why did that happen?**
- Tournament directors can specify a time period for partners to register to guarantee a team's spot in an event. If a player registers but their partner does not sign up within that time period, the player will be automatically moved to the waiting list. Once the partner registers, the team will be moved back in **if there are still spots available in the event.**
4. **How do I withdraw from a tournament or change my registration?**

- For detailed directions, click [HERE](#)

5. I am a member of a club and have played in club leagues and tournaments but my club ratings are not being calculated for all of my games. Why not?

- Club ratings are only calculated for games where all of the players are club members AND the club manager has turned the club rating feature on. Club ratings are calculated for coed matches if that option is selected by the club manager. There is a fee charged for clubs to calculate ratings so you should check with your club manager to determine if the club has opted in to that fee.

1.3.2. Tournament Director FAQs

What fees are charged for setting up and running a tournament?

[Click Here for Current Fee Schedule](#)

1. **Tournament Setup Fee** – Payable within 5 days of the initial creation of the tournament.
2. **Player Fee** – Billed when the tournament is completed and locked, or is cancelled by the tournament director. Tournaments are locked and ratings are calculated 5 days after the last event is completed. If events are not completed, the tournament will be locked automatically two weeks after the last completed event.

! The player fee applies to every registered player including withdrawn players and waiting list players.

Player Registration Problems

1. **A player contacted me because they registered for my tournament using PayPal but they are not shown on the player list. How do I fix that?**

On rare occasions PayPal does not send the transaction back to PickleballBrackets.com confirming a payment. Thus, the registration is not completed. If this happens and you are certain they paid, use the following steps to add the player manually.

- Check your PayPal account or request a copy of the player's PayPal receipt to verify payment.
- Contact the player to get all of the details of their registration, including events, partners and any user defined fields.
- From the attendee screen, add the player manually to the tournament.
- On the checkout screen, select Other as the payment method.
- Confirm the payment amount. Enter the date, and, in the payment memo section, record that it was a PayPal payment and the PayPal transaction code if available.
- Once the checkout is completed, the player will receive a copy of the registration receipt.

Running the Tournament

1. **I've already verified my events and I need to add a player or team. How is that done?**
 - Verified events are placed in the waiting queue to be started. Go to the LIVE CONSOLE, select the event from the waiting queue and select Start Over from the event drop down menu. This will "un-verify" the event and allow you to enter an additional team from the attendee page. Once the team is entered, you will need to re-verify the event.

2. I've already verified my events and I need to delete, or swap out a player or team. How is that done?

- Verified events are placed in the waiting queue to be started. Go to the LIVE CONSOLE, select the event from the waiting queue and use the event drop down menu on the left to make your changes. Complete directions can be found [HERE](#).

3. I've already verified my events and I need to change the format. How is that done?

- Verified events are placed in the waiting queue to be started. Go to the LIVE CONSOLE, select the event from the waiting queue and select Start Over from the event drop down menu. This will start the verification process over from the beginning and you may make any needed changes to the event format. Complete directions can be found [HERE](#).

4. When you merge events and then want to play a medal playoff separately for each of the merged events this is how do you do it?

- This is more of a manual process at the end but this is how everyone does it when they want to split a bracket into multiple medal playoff brackets.

To start, make sure you do this after registration is closed. Then click the main menu and go to Edit Tourney.

Change "Max Events Per Reg." = "Unlimited"

Change "Register Same 'Player Group' & 'Format' Combo" = "Yes"

This will allow you to complete the next steps without issues. Keep in mind that registration is closed so this won't impact anything in a negative way.

Also, for now change "Notifications" = "Off" (TURN THIS BACK ON AFTER YOU ARE DONE WITH THE ENTIRE PROCESS) we don't want people getting emails of these changes while you are doing them. It would cause confusion.

Create a single elimination medal bracket for 4.0 and another for 3.5 (or whatever skill/age brackets you want to split out into their own medal playoff). When you create the events select "Custom Title" = "Yes" and put the words "Medal Round" into the title. Set the total players in that bracket to unlimited.

If you are basing the players in the medal round by their original skill then register all the 4.0 players into the 4.0 medal bracket and the 3.5 into the 3.5 medal bracket.

If you are basing the players in the medal round by their standing alone, no matter the original bracket OR skill, then register ALL players into BOTH 4.0 and 3.5 medal round events.

DO NOT verify these 2 events. But leave all the players in the events themselves until AFTER the round robin play is over.

Go back to Edit Tourney and change "Notifications" = "On"

After all games are played from the Round Robin you follow steps to complete the event. Click the red button to complete (should show on the screen) and medal based on the entire bracket. When you finish this process the event will move to the completed tab in the live console. Go to the completed tab. Click the Options button on the left of the event and select No Medals Awarded. This will change the “Gold, Silver, Bronze” to “First, Second, Third”

Now, you will want to click on the bracket title itself. This will take you to the event results. Make sure you click Event Overview if you are not on that page already. This is the page that should just show stats for each pool on one screen.

Here you will see the standings for each pool. This is the info you’ll need to create the medal round brackets. Copy the info you need for each of the medal round brackets. The top X players for 4.0 and the top X players for 3.5

NOTE: Final Standing page will give you the overall standings of the entire bracket with the two pools combined.

Go to the live console and click the Verify tab. Verify the 3.5 and you’ll see a red trash can on the left of all the teams. Clicking that removes the team from the bracket. Click that for all players NOT playing in that medal round.

Follow the steps to verify the event. When you get to the step for seeding you’ll want to seed the players based on the RR standing.

Do the same thing for each Medal Round bracket in the live console.

5. The score sheet has a place for the court number for the game but it is blank. Can the computer print the court assignment on the score sheet?

The system cannot assign courts before the score sheets are printed out. For Round Robin events on designated courts, events are assigned to a group of courts, not individual courts and score sheets are often printed out in advance. For any event that is printing score sheets on a next available basis, the courts are assigned after the sheets are printed out.

The line on the score sheet that says “Courts” is always filled in by hand by the person assigning the court.

6. How long after a tournament is completed do TDs have to make changes to results?

Tournaments are automatically locked 5 days after the date of the final event. Until that time, Tournament Directors may update scores and/or modify results from the Live Console.

1.3.3. Tournament Director Tips and Tricks

Tournament Description

1. Include a detailed description of the event formats. Round robin, double elimination, single elimination, etc.
2. Mention the scoring format for each of the event formats.
3. **Always include a statement about the ability of the tournament director to modify event formats as needed depending on registrations.**
4. Include a detailed description of eligibility for the tournament. If this tournament is only for club residents, certain age groups or certain skill levels, say that in the description.
5. If there are skill level restrictions for any bracket, that should be mentioned. For example, if a 4.5 bracket requires both or only one of the players to be rated at that level, that should be included in the description.
6. Mention the types of skill level ratings that are considered for registration. Self rating, PickleballBrackets.com rating, UTPR, Pickleball Canada or any other.
7. If there is a time limit for partner registration, say that in the description.
8. Describe the fee schedule including any early registration discounts or surcharges for out of state players.
9. Mention any facility rules or important features.
10. Mention any special housing or hotel discounts or accommodations.
11. Include a description of the payment options and a detailed refund policy.
12. If refunds are available, conform the final refund date to the final registration date to encourage players who are thinking of withdrawing to do so before you start final tournament preparation.
13. If there are multiple requests for the same information from registrants, add the answer to the tournament description.

A detailed tournament description is vital for assuring the consistent application of registration procedures and for limiting the number of questions directed to the tournament organizers.

Tracking Registrations

1. Check registrations frequently during the sign up period. This allows for the timely administration of the following tasks:
 - a. Communicating with players who don't have partners. This can be done individually or with a global message using the messaging function.
 - b. Modifying bracket maximums based on enrollments and waiting list numbers.
 - c. Running "what if" scenarios using the Snapshot Planner to plan potential schedules.
2. Run the Snapshot Planner as registrations come in to manage event counts and the waiting lists. Here are some Snapshot Planner Tips.
 - a. Keep two windows open when running the planner, one to change parameters and the second

to view results. When you save new parameters, switch to the view window and refresh the page.

- b. Start with one event and build on that for the rest of the daily schedule. It is usually best to start with the largest event, especially if that event will need all of the available courts for the first round.
- c. Select the remaining events based on court availability. For example, if you have four courts still available during the first daily time slot after scheduling your first event, schedule an event that will use all four of those courts. Save the change and view the results.
- d. Continue with all events until the day is full.
- e. The Snapshot Planner will default to only the teams that have both players registered. Change the team numbers as needed to reflect your projections for final registration counts.
- f. Any changes you make will be saved for the next time you run the planner.

Merging Events

1. Always include a statement in your tournament description that events may be merged or split based on registration numbers.
2. Be sure to state, in the description, whether medals will be awarded based on standings in the merged event or the original event.
3. Wait until registration has closed before merging events.
4. Turn off notifications to players while merging events. Click [HERE](#) for a description of the process for merging events.

Splitting Events

1. Always include a statement in your tournament description that events may be merged or split based on registration numbers.
2. Events may be split during registration if there is no registration limit for a bracket and it is filling up quickly.
3. Splitting events requires the creation of a new event and the manual transfer of players based on the criteria of the new event.
4. Players will receive notification of the new event as soon as you switch them if you leave notifications turned on.

Timing for Tournament Preparation

1. Close registration early enough to allow time for finalizing registrations. These finalization tasks might include:
 - a. Follow up with players without partners
 - b. Collecting outstanding payments
 - c. Running the snapshot planner.
 - d. Adding players from the waiting list if results of the planner show more available time slots.
 - e. Finalizing the schedule and notifying players of all start times.

- ✿ The timing for closing registration can vary depending mainly on the size of the tournament. Larger tournaments with many brackets and the potential for many waiting list teams and/or players without partners usually close registration earlier than smaller tournaments.

1.3.4. Club Manager FAQs

What fees are charged for setting up and running a club?

Clubs are set up at no charge to the Club manager. Club members may be added at no charge. All fees are charged for the Tournaments, Leagues and Ratings associated with the club.

[Click Here for Current Fee Schedule](#)

All Leagues are run under the auspices of a Club. Click [Here](#) for League Fees.

Club Ratings

- 1. I have members in my club who have played in club leagues and tournaments but club ratings are not being calculated for all of their games. Why not?**

Club ratings are only calculated for games where all of the players are club members AND the club manager has turned the club rating feature on. Club ratings are calculated for coed matches if that option is selected by the club manager. There is a fee charged for clubs to calculate ratings.

1.3.5. League Manager FAQs

Fees

[Click Here for Current Fee Schedule](#)

1. **League Setup Fee** – Free
2. **Player Fee** – billed to the Club every month, not to the league or session.

The Club is not charged for players who register for a League. Fees accrue only for matches played.

Club Ratings

3. **I have members in my club who have played in club leagues and tournaments but club ratings are not being calculated for all of their games. Why not?**

Club ratings are only calculated for games where all of the players are club members AND the club manager has turned the club rating feature on. Club ratings are calculated for coed matches if that option is selected by the club manager. There is a fee charged for clubs to calculate ratings.

1.3.6. How to Practice on My Own Tournament or League

The Training Database

Once a tournament or league is set up, the director will have access to **a copy** of it through the training database. By logging in to the training database, a director may practice the processes and steps needed to run the tournament or league using that copy with current actual data.

! ANY CHANGES MADE TO THE TRAINING DATABASE ARE ONLY TEMPORARY AND ARE SUBJECT TO BE OVERWRITTEN WITH ACTUAL DATA EACH EVENING AFTER MIDNIGHT EASTERN TIME.

Things to know about the training database:

1. You will need to log in separately when you load the database. Your regular login does not carry over.
2. The training database holds an exact copy of your tournament or league. COPIES ARE GENERATED PERIODICALLY, AT LEAST ONCE A WEEK, OFTEN NIGHTLY.
3. Do not assume that any changes you make will be carried over to the following day.
4. All player messaging and text features are turned off in the training database.
5. You may make changes to the schedules, events, formats, attendees, scores, etc.as needed and they will not impact the actual league or tournament.

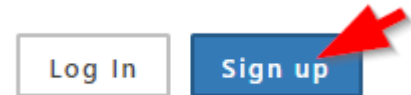

Best uses for the training database.

1. Testing bracket configurations including age splits.
2. Practicing verification.
3. Practicing score input.
4. Practicing how to make last minute changes to running events or leagues.
5. Practicing use of the tournament Court Desk.
6. Testing the effect of different league setup options.
7. Testing the game day management process for leagues.

! [CLICK HERE](#) TO ACKNOWLEDGE YOUR UNDERSTANDING OF ALL OF THE ABOVE AND LOG IN TO THE TRAINING DATABASE.

2. User Account

Creating an Account – Every player, manager, volunteer and tournament or league director must have their own unique user account. Create your account with the following steps.

1. Click on the blue **Sign Up** button on the top right of the screen.

3.1.3. Become a Member

To join a Club, click on the “Become a Member” button on the main club page.

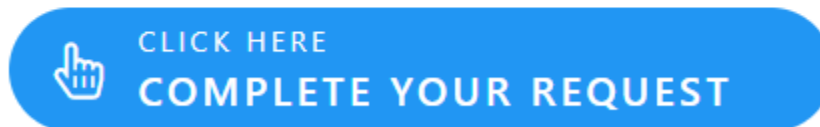

Clubs may be configured to allow anyone to join or to require membership approval by the club manager.

1. For Clubs without an approval process, you will receive a confirmation email after you join.
2. For Clubs requiring approval, you will see this:

Membership Request

This club membership program is setup on a approval basis. Click the button below and your request for membership will be sent. The club will review your request and you will be notified.

Click the button to request membership. You will receive an email stating that your membership request is being reviewed and a second email when a decision has been made.

3.1.4. Membership Fees

If a club has a membership fee, players will be prompted to pay the fee when they join.

3.1.5. The Club Member Record

Each club member has a record. The basic data of the record derives from the player's PickleballBrackets.com player account. This includes player ratings.

✿ Contact the club manager to request a rating change.

To view the club record.

1. Log in to your PickleballBrackets.com Account
2. From the drop down menu under your name on the top right of the screen, select "My Stuff"
3. Click on the Black "Organizations" Box
4. Click on your Club name, which will bring up this menu.

3.2. How to Create a Club

Pickleball organizations, clubs, tournament organizers and league directors can request that a club be created on PickleballBrackets.com. Click on the Clubs link at the top of the page and then the “Create a New Club” button.

Create a NEW Club

Complete and send the Club Request Form. You will receive an email confirmation when your club is approved.

New Club

Complete the form below.

In Pickleball Brackets clubs are categorized as a type of **organization**. Organization types can be an Association, Club, Company, Facility, Government Department, or Not For Profit.

All club managers **MUST** have a Pickleball Brackets account. Don't have one? [Click here to sign up](#).

These are created upon request. Once they're created all tournaments, leagues, members, club ratings, and clinics **CAN BE** associated through that club.

These should be created by the club organizer or manager.

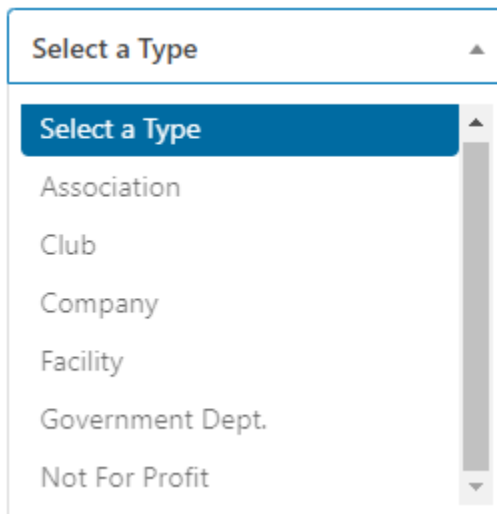

I'm not a robot

3.2.1. Editing Club Features

Once a club is approved, it will appear on your list of Organizations. Click My Stuff under your login name on the top right of the PickleballBrackets.com home screen. Click on the Black Organizations Box and then the Managing Button. You will see a list of all the clubs you are managing.

The screenshot displays the 'Organizations' section of the Pickleball Brackets website. The top navigation bar includes the 'pb' logo and tabs for Dashboard, Tournaments, Leagues, Clinics, and Organizations (which is highlighted). On the left, there is a search bar with the placeholder text 'Search your criteria' and a 'Search' button. To the right of the search bar, there are two filter buttons: '(2) Member For' and '(11) Managing' (which is selected). Below the filters, there is a green button labeled 'Create a NEW Club' and a grey box indicating 'Total: 1'. The main content area shows a single club entry: 'Washington DC Pickleball Club' with a small image of a red building, the location 'Washington, District of Columbia', and a link to '2 Members'.

✿ The following pages will cover each menu item.

3.2.2.1. Edit Club

Clubs can be configured in many different ways according to the needs of the club manager. The simplest configuration is a free club that allows the creation of tournaments. More complicated configurations allow the collection of membership dues, league fees and payments for all types of club purchases such as t-shirts, hats, paddles, etc.

3.2.2.1.1. Basic Club Information

The following screens show each of the sections for the basic configuration of a Club.

Tournament directors will find that these steps are similar to the basic tournament configuration steps.

12 Title

13 Abbreviation

14 Allow Members ☒ Yes

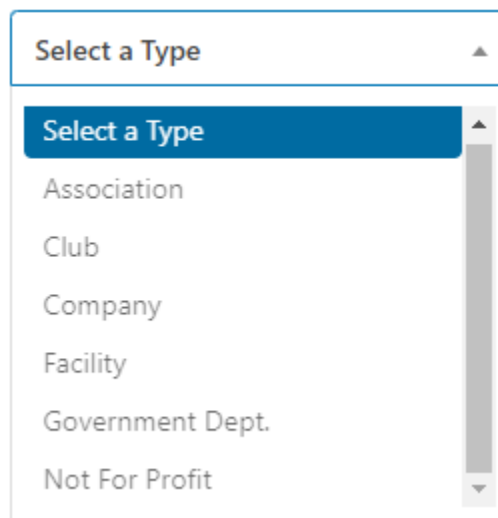

15 Require Membership Approval ☐ No

16 Club Ratings

Utilize PickleballBrackets.com rating system for all your club members.

Activate Ratings NO

1. **Direct Club Link** – click to copy. This link may be sent to players or used by the Club Manager to review the setup options prior to making the club public.
2. **Copy Club** – Use this to set up a new club under your existing organization. All of the basic features will be copied. Existing information can then be changed as needed.
3. **Show to Public** – Select Yes if you wish to list your club on the PickleballBrackets.com public website.
4. **Approved Tournaments** – Configured by PickleballBrackets.com at the time the club is created. Contact PickleballBrackets.com to change this.
5. **Approved Leagues** – Configured by PickleballBrackets.com at the time the club is created. Contact PickleballBrackets.com to change this.
6. **Approved Clubs** -Configured by PickleballBrackets.com at the time the club is created. Contact PickleballBrackets.com to change this.
7. **Approved Clinics** – Configured by PickleballBrackets.com at the time the club is created. Contact PickleballBrackets.com to change this.
8. **Type** – Select the type of Organization from the drop down menu.

The image shows a web form element with a dropdown menu. The main container has a header "Select a Type" with an upward arrow. Below it, a blue bar also says "Select a Type" with an upward arrow. The dropdown list is open, showing the following options: "Association", "Club", "Company", "Facility", "Government Dept.", and "Not For Profit". A vertical scrollbar is visible on the right side of the list.

9. **Timezone** – Select the Club timezone. It will be show to players on the club information screen.
10. **Localization** – Formatting throughout the site where this club is displayed will show information based on the local standards of the selected value.

For example:

- - - - English – American will show Dates “Month Day Year”

- - - - French will show Dates “Day Month Year”

NOTE: All text representing the club will be displayed as it’s typed. Selected Localization DOES NOT change ANY text entered by the tournament.

- - - All PickleballBrackets.com text throughout the site will be translated to the language of the viewer. (PickleballBrackets.com DOES NOT translate the text entered by the tournament.)

11. **Currency to Collect** – What currency are you using to collect payments?

PickleballBrackets.com will send PayPal or Stripe this currency code so all payments will be exchanged properly.

Currency formatting throughout the site where this club is displayed will be based on the selected value.

For example:

- - - - - US Dollar [USD] will show “\$1,111.00”

- - - - - Euro [EUR] will show “1 111,00 €”

- 12. **Title** – Enter the title of your club.
- 13. **Abbreviation** – An abbreviation or nickname for your club.
- 14. **Allow Members** – This controls whether or not member can join your club.
- 15. **Require Membership Approval** – Select No to automatically allow anyone to join the club. Select Yes to require that memberships be approved by the club manager.
- 16. **Club Ratings** – Clubs have the option of tracking ratings within the club using the PickleballBrackets.com rating system. This is an extra cost option. Contact PickleballBrackets.com if you are interested in using this feature.

Upload Your Club Logo

600x315px

 **Waiver** 0

☒ None
 ☐ File

If the Club has a logo you can upload it here.

File types accepted are: 'png', 'jpg', and 'jpeg'.

The uploaded logo must meet the minimum size of:

Width: 600 pixels.

Height: 315 pixels.

The image **MUST** completely fill the specified area.

NOTE: This is **NOT** an editing software. This upload tool simply allows you to upload and resize your logo to fit our constraints. You may need to use an image editing software prior to uploading to get your

desired results. These sections of the manual explain how to use image editing software to change the size of a logo:

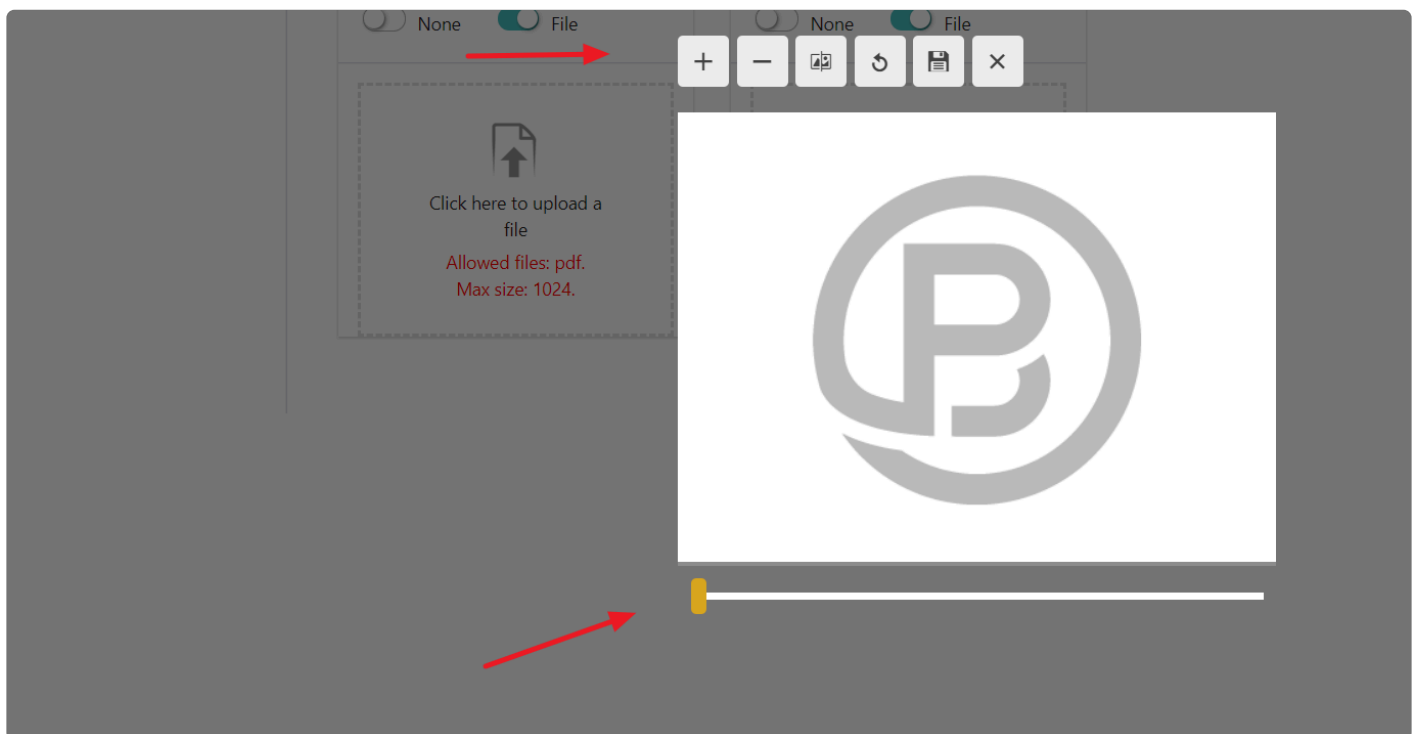

[How to Add a Logo That is Too Large](#)

[How to Add a Logo That is Too Small](#)

- Click on the Logo Upload box.
- Either double click on your image or click on your image and select open.

✿ Your image should not be too much larger than the minimum size. You will be able to crop it to fit but images that are too large may overlap the logo space even after cropping.

Once you upload your image you will see the cropping tool.

Buttons across the top allow you to:

- Zoom In
- Zoom Out
- Auto Resize
- Reset back to the Original Size
- Save the Image
- Cancel the Upload

The slide bar below the image may also be used to zoom in and out.

If the club has a waiver, you may upload it here. Files MUST be in pdf format.

- If you add a waiver, all players will be required to agree to the waiver in order to join the club.

The small orange number in the top right corner of the waiver upload box, shows the number of times that players have viewed the document.

Each physical location used by the club should be created here. These locations will be used when creating leagues and tournaments.

1. **Venue Title** – The venue should have a formal name that will display on the club website and will help identify the venue for potential players. It can also have an informal or alternate name.
2. **Is Primary** – **Check** for Yes. The primary location will be used for the map on the details screen and anytime the address is displayed on behalf of the club.
3. **Copy** – Click here to make a copy of this location. If you are adding additional locations, you will be able to modify the copy.
4. **Surface and Play Area** – These options tell players what the playing conditions of the tournament and facility are.

Indoor & Outdoor ▼

5. **Ball** – List the ball used at that location here. You may also include a link for players to visit the official ball website.
6. **Parking Info**- Select Yes or No for a parking fee and use the box for detailed descriptions of the parking area and its location relative to the playing venues.
7. **Add New** – Use this button to add a new location. (you may also use the copy link above for the same purpose.)

The venues listed here are for player information. TD's must assign the exact number of courts they will be using for scheduling the tournament from the Manage Location Courts option on the management menu.

3.2.2.1.4. Checkout Options

Choose Checkout Options

The club can set up Stripe or PayPal accounts to accept online registration fees and payment for other club items. Also, leagues and tournaments run under the auspices of the club will be able to specify that as one of the tournament Checkout Options. If more than one Checkout Option is specified, players will be able to select their preferred payment method.

Inactive Payment

Stripe Connect

Pickleball Brackets uses Stripe Connect to accept money and pay out to organizers. Click below to follow the steps in getting your stripe account linked to our platform.

[Connect Stripe](#)

Connect PayPal as your checkout option by entering the email address of your PayPal account and click on the Activate PayPal button.

These are the steps to connect Stripe.

- You must be logged in to your stripe account on the same computer.
- Log in to your PickleballBrackets.com account as a manager, edit your club and navigate to this page.
- Click on the Activate Stripe button. You'll then be asked to verify the connection and it will automatically connect and confirm.

If any leagues or tournaments are setup for your club, edit them, select the newly connected payment process as the online payment option for that event and delete any others that you may no longer need. Future leagues and tournaments will show the new account as an option.

Stripe or PayPal accounts **must** be connected to a bank account.

3.2.2.1.5. Sponsors

Sponsors may be added to a club here. Click on the links below for complete directions.

- [Adding Sponsors](#)
- [Sponsor Details:](#)

3.2.2.1.6. Managers

Club Managers and their rights can be created here. The Primary Manager will also be able to add managers from this screen.

Managers

You have view rights only for this page. ONLY the primary administrator of the tournament can manage this page.

Name	Contact	Permissions
[Redacted]	[Redacted] +1 301 802-0000	<input checked="" type="checkbox"/> Is Primary

1. **Click here to add a new club member.** Members must have a PickleballBrackets.com account.
2. **Use these options to filter your list if you don't want to see all members.**
3. **Click here to search after applying any filter criteria**
4. **The total number of club members.**
5. **Their member number if one has been assigned.**
6. **Gender**
7. **Age**
8. **Club Ratings.** Ratings can be drawn from the player's self rating, the PickleballBrackets.com tournament rating or their calculated Club rating based on league and tournament participation.
9. **Leagues** – The number of club leagues played in.
10. **Games** – The total number of club games that have been rated.
11. **Requested** – The date that the player requested membership.
12. **Approved** – The date that their membership was approved.
13. **The edit button** – Allows the Club manager to edit a player record
14. **The stats button** – Allows the Club manager to view the entire club rating history for the player.

3.2.2.2.1. Club Rating Stats

This page shows every matched played and the rating changes that occurred after each match.

1. **This is the predicted score and odds of winning for the higher rated team.**
2. **This is the actual score of the match.**
3. **The rating change resulting from this match.** The top number is the start rating. The bottom number is the end rating. The number in the middle column between the two players is the team average. If the team is predicted to win, the number is green. If they are predicted to lose, the number is red.

Rating

Calculated ratings with total games greater than zero cannot be changed

Doubles

Calculated 3.07653698 Total Games: 0 5Start • 6 Force ☐ No 7

Mixed

Calculated 3.25 Total Games: 0

Start • Force ☐ No

Singles

1. **The Active Button.** Turn this off for inactive members.
2. **Membership Start Date.**
3. **Membership End Date.**
4. **The Club Member Number for this Person if one has been assigned.**
5. **Calculated Rating for this player.** – This may be their self rating or a PickleballBrackets.com Tournament Rating. If total games is 0, the Club Manager may adjust the club rating using the fields below.
6. **Start Rating** – The Club manager can use this to assign a different start rating for club matches than the calculated rating shown above. This will be effective only if the total games played is 0.
7. **Force** – This can be used by the Club Manager to force the system to use the rating entered above as a start rating **only if the club ratings are completely recalculated.**

Contact PickleballBrackets.com to request any re-calculation of club ratings. **Be aware that forcing a new start rating for any player will impact the ratings of every other player in the club.**

3.2.2.4. User Defined

Club Managers have the ability to create a variety of different types of user defined fields. These fields can be used for tasks such as:

1. Collecting T-shirt sizes and/or payments.
2. Collecting payments for extra items associated with the club.
3. Allowing players to enter any information required by the club that is not on the registration form
4. Collecting donations
5. Adding items or services such as clinics that members may register for.

User Defined Fields are a powerful way to add your own required or optional items to each registration, thus making the process an all-inclusive one that can completely manage all club details and finances.

The process for creating User Defined Fields is the same as the one used for tournament registration setup. Click [HERE](#) for complete directions.

Kiosk

3.2.2.5. Reports

There are a variety of reports built in to the Club Management system. Each is generated as a spreadsheet file and downloaded to the local computer.

Login – If you are logged in to your account, your name will show here. If not, use the **Log In** or **Sign Up** buttons.

! If you do not already have a player account, see the [User Account](#) section of this manual for detailed instructions for creating one.

* The Search Box will appear automatically on your computer screen if your browser is set to 100% magnification or less. On a phone, or computer screen set to a magnification higher than 100%, click on the Search Button below to reveal the Search Box.

Search By:

1. **Keyword** – Use this to search for a tournament by name or part of a name. For example, a keyword

search on the word **Winter** will show all tournaments with that word in the title.

2. **Date** – The default display shows recently completed and future tournaments. To view past tournaments, use this drop down menu to change the selection to **Past Events**.
3. **Country** – Use this to search for a tournament in a specific country.
4. **State/Province/Region** Use this to limit your search to a specific State, Province or Region. You must select the Country first.
5. **Prize Money** – You can limit your search to only tournaments that offer prize money.
6. **Player Group** – Use this to search for tournaments that offer events for specific gender groups.
7. **Format** – Narrow down your format search here.

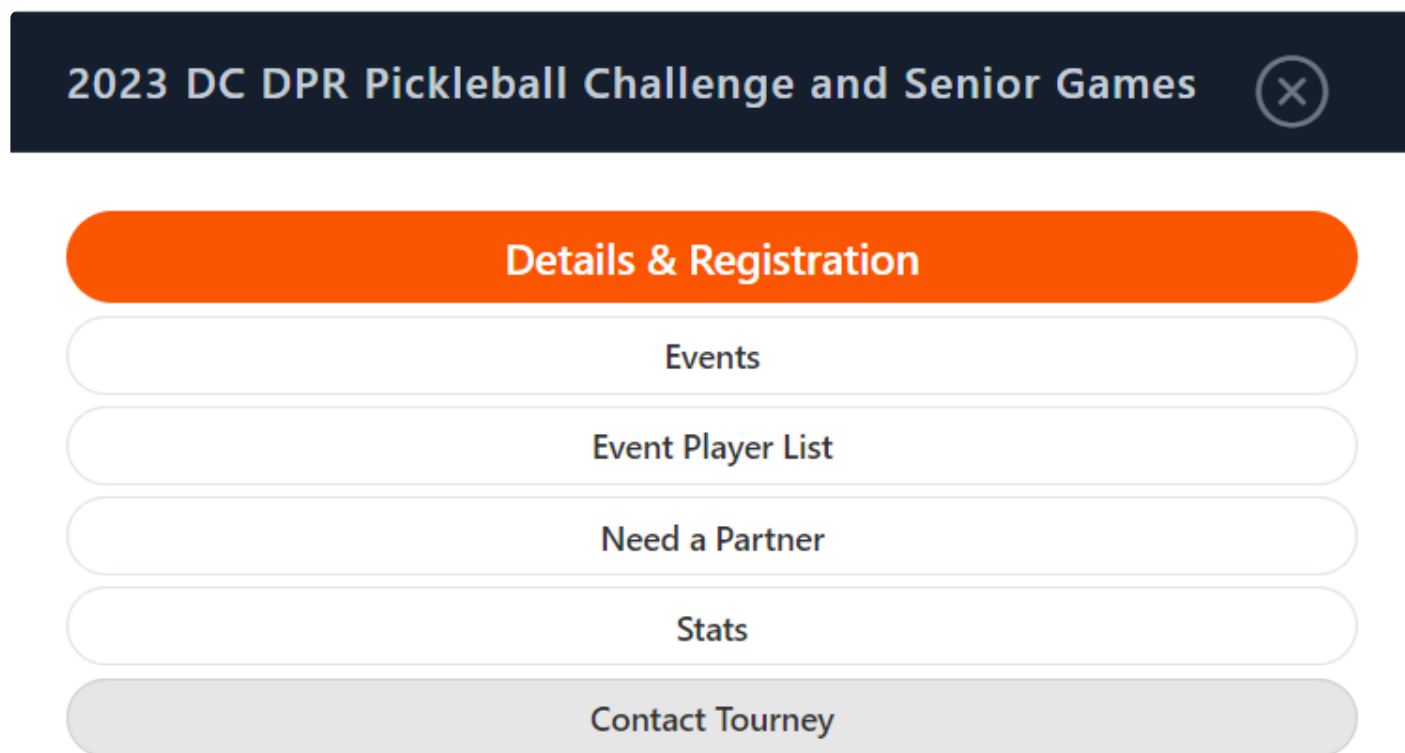

Be sure to click the search button when you finish your selections.

All search parameters are saved and will be in effect until you change them, even if you close your browser or log out. If you want to switch back to a global search for all tournaments, be sure to reset all search parameters.

4.1.1.1. Tournament Menu

Once you find your tournament, click on it to access the tournament Menu.

1. **Details and Registrations** – Shows all of the tournament details and includes a link to register or to change a registration.
2. **Events** – Shows a complete listing of all events in the tournament.
3. **Event Player List** – Used to view a list of players who are currently registered in any event.

If a tournament is in progress, the Event Player List menu option will be replaced by Find a Player. This allows you to look up players by name and view their individual results.

4. **Need a Partner** – Used to view a list of players who are currently in need of a partner for any event.
5. **Stats** – Registration stats and graphs for the tournament.
6. **Contact Tourney** – A contact form to be used to get in touch with the Tournament Director.

4.1.1.2. Tournament Page

4.1.3. Tournament Description

Scroll down the tournament page to see a complete description of the event.

Description

Join us for this fifth year tournament at the premier facility in Boise! Twelve beautiful indoor hard courts!

This Round Robin event will kick off with open pickleball and player party Friday night (dinner is available for \$5 per person--players and guests--prepaid at time of registration), men's and women's doubles Saturday, and mixed doubles on Sunday.

Also, plan on lots of rec play Saturday after the day's brackets finish.

Additional Information

When registering for the tournament, please go to USAPA.com and get your current rating. You must play in your current rating, or higher.

Refund Policy

Must request refund by email (allan@usapa.com) on or before February 8, 2020. When requested, refunds will be issued minus a \$10 fee for processing. There are no refunds after February 8, 2020.

We recognize this tournament is being held in winter. If travel is hazardous due to weather after the Cancellation (refund) Deadline and roads are closed, out-of-town registrants will receive full credit of their paid fees towards the next club event.

4.1.4. Tournament Summary and Location

4.1.5.8. Payment

This is the registration payment page for the tournament. If the tournament has specified more than one payment option, such as online payment, pay by check or pay onsite, all will be shown here. Select your payment type and click *Proceed to Checkout*.

Chose Payment Option ⓧ

☐

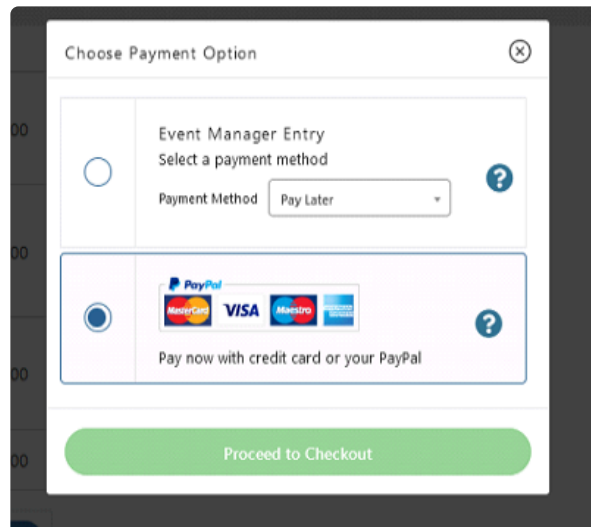

Pay now with credit card or your PayPal

Proceed to Checkout

* If online payments are being collected through PayPal, you may have to modify your own default PayPal settings if you wish to pay via Credit Card. If you don't see a Pay by Credit Card option on the PayPal screen, see the following directions for changing your settings.

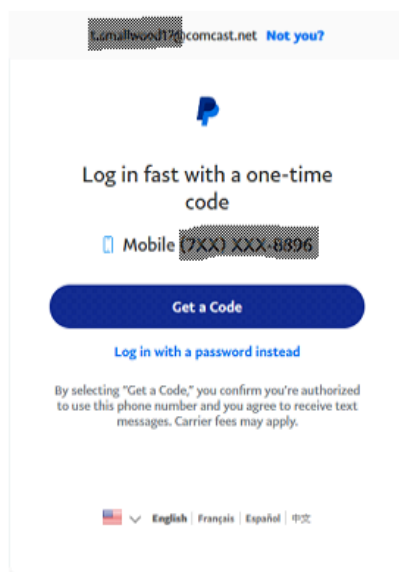

When you click on checkout you will be directed to this screen and should check the bottom selection.

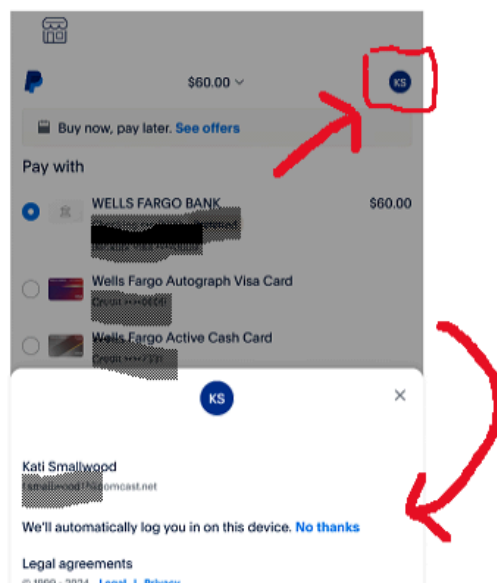

You can either pay with your PayPal account or with credit card.

If you have your PayPal password saved on your computer it will auto log you in to PayPal.

If you don't want to use PayPal, or have closed your PayPal account and have not changed this auto process on your computer, you will need to follow these next steps.

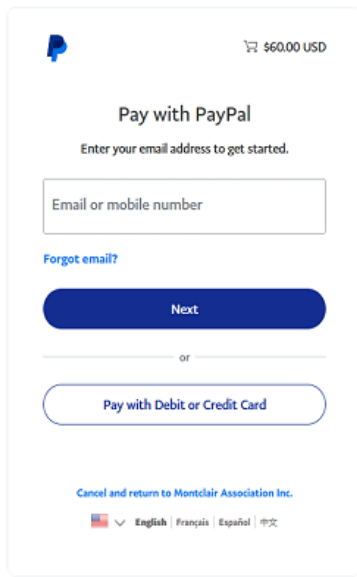

If this is the screen that comes up next, choose the "Not you?" in blue at the top and it will direct you to the screen where you can enter your credit card as seen at the bottom of the document.

If this is the screen that comes up next:

You will click on the profile button in top right that has your initials in it to open the box at the bottom of this screen.

Click on Log Out and that will take you to the screen in the next picture where you can enter your credit card information.

Pay with PayPal

Enter your email address to get started.

Email or mobile number

[Forgot email?](#)

Next

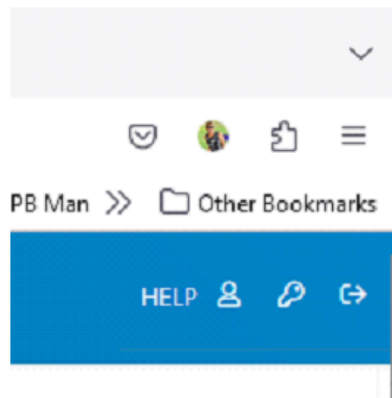

or

Pay with Debit or Credit Card

[Cancel and return to Montclair Association Inc.](#)

English | Français | Español | 中文

This is the screen you want to be able to enter credit card information instead of using your PayPal account.

IF you want to change this permanently so you can always use your credit card, select the three lines in top right corner of your browser.

paypal.com

Edit Remove

Website address

<https://www.paypal.com>

Username

montclair@montclair.net

Copy

Password

Choose "Password" from the list that pops up after you click on the three lines.

Scroll down the list to find PayPal, choose it, and when this screen pops up choose remove. Then you will always be directed to the screen where you enter your credit card as it will not recognize your current or previous PayPal account.

4.1.5.9. Receipt

A copy of the receipt will display on the screen and will also be automatically emailed to you.

For Mail In payments, you will be emailed a form to send with your payment.

4.1.6. Changing a Registration

While online registration for a tournament is open, players may log in to their **PickleballBrackets.com** account to change their registration or withdraw from the tournament.

Log in to your account and click on the **My Tournaments** button which will bring up a list of your tournaments. Click on the tournament name.

Select Details and Registration from the Menu

1. **To Withdraw from the Tournament** – Click on the Red button and confirm your withdrawal.

WITHDRAW FROM TOURNEY

2. **To Change your Registration** – Select your new events and **DESELECT ANY EVENTS** you no longer wish to play in. **Click on the Next button to go through all of the following registration steps to the end.** If an additional fee is due, you will have to pay the fee to confirm the change.

change.

4.2. How to Create and Manage a Tournament

This section of the manual will cover all of the step needed to:

1. Set Up a Tournament
2. Set Up Events
3. Manage Registrations
4. Communicate with Players
5. Run the Tournament

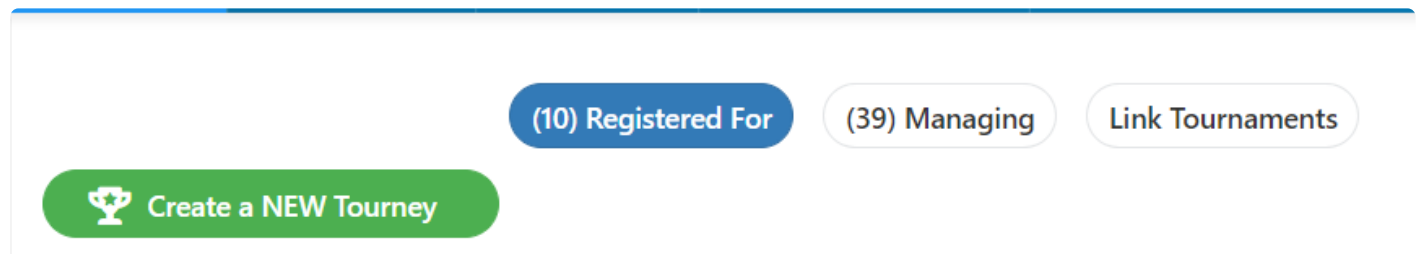

4.2.1. Creating a New Tournament

New tournaments can be:

1. Added by an authorized manager of an organization
2. Copied from a previous tournament by an authorized Primary Tournament Director

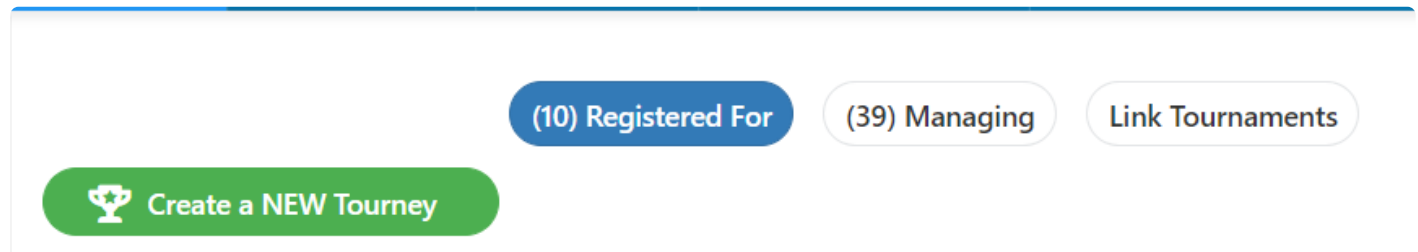

Create a new tournament by:

- Logging in to your account
- Clicking on your name in the upper right of the screen
- Selecting My Stuff
- Clicking on Tournaments
- Clicking on the Create a NEW Tourney button

4.2.2. Linking Tournaments

Tournament Directors have the ability to create a linked list of tournaments. The linked tournaments will display at the bottom of the Tournament Detail page. Linked tournaments are often annual events that are run by the same club or organization every year.

Click on the Link Tournament button. If no linked groups have been created or a new one is needed, create a group.

+ Add a Linked Group

× Cancel

Save

Here you can link related tournaments together. Give a title to the link grouping.
Then move the tournaments that are linked from left box to the right.
In the right box move the tournaments up and down in the list to specify the order they were played. The top being the oldest and the bottom being the newest.

Link Group Title

DC Challenge

If the linked group already exists, scroll down to it and click on the name of the group to edit the list of tournaments.

DC Challenge 

2021 DC DPR Pickleball Challenge and Senior Games

2022 DC DPR Pickleball Challenge and Senior Games

2023 DC DPR Pickleball Challenge and Senior Games

Select a tournament to add from the list on the left. It will be added in the to the linked group in the last position on the right side of the screen. Use the arrows to move tournaments up or down on your list. Save the list when done.

Linked Tournaments

Link related tournaments together

+ Add a Linked Group

x Cancel

Save

In the right box move the tournaments up and down in the list to specify the order they were played. The top being the oldest and the bottom being the newest.

Tournaments must be created before they can be linked and the manager of the tournament must be listed as a manager of **all** of the linked tournaments.

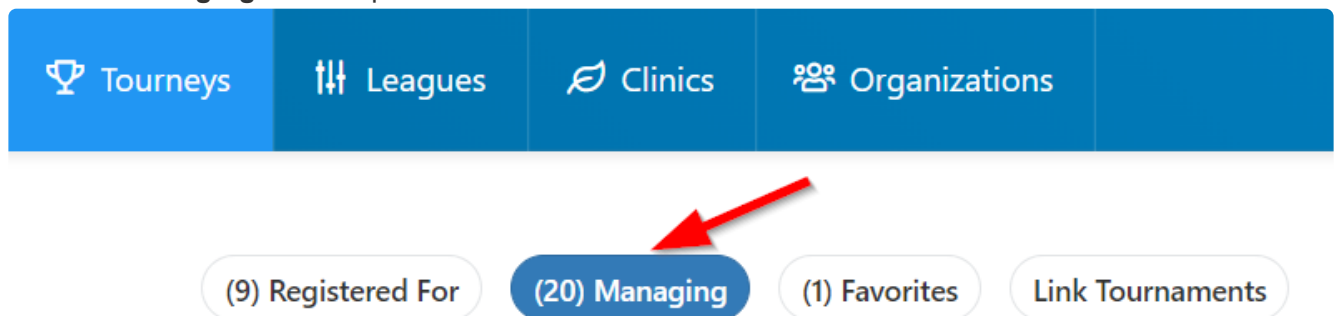

4.2.3. Navigation

Once a tournament is created, it will appear on the list of tournaments you manage. These are the steps to access that list and start setting up the tournament:

1. Log in to your Pickleballbrackets.com account.
1. On the top right of the screen, hover over your name and then click on **My Stuff**.
1. Click on **Click for Details** in the green tournament box.

1. Click on **Managing** at the top of the screen.

1. Scroll down to the tournament you would like to edit and select it to access the Management Menu.

Show Public Date

Month: Dec 18
Day: 15
Year: 2022
Time: 8:00 AM

1. **Tournament Link for Sharing** – Click to copy the tournament link. You may use this in your browser to view the current appearance of the listing as you are working with it, or to share with other tournament workers and committee members.
2. **Copy Tournament Button** – Click to make a copy of the tournament. Copied tournaments can be used as templates for creating a new tournament.
3. **Tourney Code** – Used by the Print Spooler to Identify your tournament.
4. **Print Spooler Code** – Used to activate the Print Spooler.
5. **Country Played in** – Enter the country where the tournament will take place. This may be different than the physical location of the sponsoring club.
6. **Club or Organization Name** – This shows the name of the overall tournament organization or club.
7. **Fee Plan** – This shows fee plan in effect for this tournament.
8. **Hide on Search** – Turn this on to prevent the tournament from showing up on a search.
9. **Block Withdrawals** – Turn this on to prevent players from withdrawing from the tournament while online registration is enabled.
10. **Advertise Only?** – Switch this button to Yes if you only wish to list the tournament on the PickleballBrackets.com website for advertising purposes. The number of following setup options will then be limited to only those needed for the listing. **The current advertise only fee is \$500.**
11. **Activate Player Text** – Turn this on to authorize the extra fee for text messaging.
12. **Text Notifications** – Turn this on or off depending on whether or not you want players to receive the text messages that you authorized.
13. **Email Notifications** – Notifications are normally sent to players, with copies to tournament administrators, each time a registration is changed. This button will turn off or on all notification for this tournament. A good time to turn off notification is during the merging process of events so emails are not going out each time a player is moved.
14. **Waiting List Service** – This action impacts ALL events. This is an automated service that moves players from and to the waiting list based on their registration and the settings for the specific event. Select “On” to have the service automatically scan registrations and move them from and to the waiting list. Select “Off” to turn this service off. NOTE: The waiting list service for individual events may be turned off from the event setup screen.
15. **Time Zone** – Select the time zone of the tournament venue.
16. **Localization** – Formatting throughout the site where this tournament is displayed will show information based on the local standards of the selected value.

For example:

- - - - English – American will show Dates “Month Day Year”

- - - - French will show Dates “Day Month Year”

NOTE: All text representing the tournament will be displayed as it’s typed. Selected Localization DOES NOT change ANY text entered by the tournament.

- - - - All PickleballBrackets.com text throughout the site will be translated to the language of the viewer. (PickleballBrackets.com DOES NOT translate the text entered by the tournament.)

17. **Currency to Collect** – What type of currency are you collecting payment in. PickleballBrackets.com will send PayPal or Stripe this currency code so all payments will be exchanged properly. The formatting of currency throughout the site where this tournament is displayed

will show based on your selection.

For example:

- - - - US Dollar [USD] will show "\$1,111.00"

- - - - Euro [EUR] will show "1 111,00 €"

18. **Show Public Date** – This is the date this tournament starts to show to the public on the PickleballBrackets.com website. NOTE: This is NOT the registration start date. This ONLY shows the tournament. The registration start date is set further below on this page.

1. **Title** – Enter the title of your tournament here. If this is an annual event, consider incorporating the

year in the title. Or a description such as First Annual.

✿ Annual and recurring tournaments may be linked, allowing players to easily find results from the previous years. Link your tournaments on the main My Tourneys page.

2. **Short URL** – Allow people to remember the URL easily by creating a short URL. You may enter a name of your own or click on the refresh button to generate a random name. Something like PickleballBrackets.com?Demo5 is easier for people to remember than PickleballBrackets.com?eid=4D8EBFD9-AF25-4199-B5BB-6C0DD09FF7AM

 **Short URL** 

3. **Website** – If the organization or tournament has its own webpage it could be entered here. This is the full URL (including http://).
4. **Online Store URL** – If the organization or tournament has its own Online Store it could be entered here. This is the full URL (including http://).
5. **Is Private Event?** – Set this to Yes if you want only a specific club or group of people to play in this tournament.
Enter or generate a code that players will enter prior to registration to access this tournament.

 **Is Private Event** ☒ Yes Code: 

NOTE: A code is required for private tournaments to keep others from registering. You can enter a simple code manually such as “pickleball” or create a complex one by clicking the refresh button next to the textbox.

6. **Caption** – This will show on certain areas of our website when your tournament is listed.
7. **Officiated Type** – Select from the drop down menu. Choices are All, None, Medal Matches, Gold Medal Matches and Unique per Event. Your choice will show on the general information page.
8. **Referee App Code** – If the tournament is using the Pickleball.com Referee App, enter the app code here.
9. **Max Reg. for Entire Tourney** – This is the maximum number of players that can play in the entire tournament. Even if there are spots open in the events to fill with players the system will NOT allow NEW players to register after this number is reached.
Leave this blank if you don't want to use this feature. Maximum settings can be set for each event on the event record..
10. **Num. Guaranteed Games** – Select a number from the drop down menu. This is the minimum number of games that a player can expect to play in each tournament event.
11. **Activate Referee Signup** – Turn this feature on to allow people the option to sign-up as a referee. A button will show on the details screen of tournament.
12. **Activate Volunteer Signup** – Turn this feature on to allow people the option to sign-up as a volunteer. A button will show on the details screen of tournament.
p(banner tip). Tournament directors must set up a referee and/or volunteer schedule in order to use

this feature. Use the Main Menu to create those schedules.

1 Day Prior ▼

1. **Hide Registered Players** – Set this to Yes if you wish to hide the list of registered players on the public website.
2. **Start Times Pulled From** – During registration estimated start times will be pulled from each event record. This switch allows you to specify if, once you are ready to post official start times, where to pull those start times from.
 Daily Planner – Is a scheduling tool that calculated the entire tournament and displays it in a planner format where you can see how long a bracket may take. The times from this planner will be displayed on a separate page for players to view.
 Event Record – Pulls all start times directly from the event details page itself and displays them on a page for people to view.
3. **Overbook Start Times on Planner** – This tells the Simulator and Daily Planner to allow overbooking of start times beyond the number of available courts. Overbooking will force the Simulator to start an event at a certain time even if there are no extra courts available. This will extend the projected time range for the event(s) being displaced. It will also cause the Wait Count and ToDo count to increase. This feature is designed for events that are scheduled with Next Available Court Assignments.
4. **Post Start Times Now** – This displays start times immediately if this value is set to 'Yes'. Only set

this to Yes if you are ready to display start times.

5. **Show Event Draws** – Use the drop down menu to select when you want the event draws to be shown on the public website. Draws can only be show for events that have been verified.

☐ Can register in the same 'Player Group' & 'Format' Combo **as long as its not on the same day** (*Skinny Singles counts as Singles*)

- Use Online Reg** – If you wish to use the online registration process then select 'Yes' here.
- Registration Dates** – These are the dates you are accepting registrations for the tournament. If you have chosen to display the tournament information on the website before registration opens, registration will not be allowed until the start date is met.

3. **Age Limit Deadline** – This is the date used to calculate ages for the tournament. Usually set as the last day of the year the event takes place. ex: A player who turns 50 by 12/31/2019 can play in the 50-59 age bracket if the tournament takes place at any time during 2019.
4. **Max Events per Reg** – This is the limit on how many events a player can signup for over the length of the entire tournament.
5. **Emergency Contact Required** – Set this to Yes to require every player to list an emergency contact individual and phone number.
6. **Disable Partner Manual Add** – If this is set to No, players may manually enter the contact information for their partner if the partner does not already have a Pickleball Brackets player account. Set this to Yes to prevent that and require that a partner have an account in order to be selected.
7. **Require Partner Phone on Manual Entry** – If a player has to enter their partners information manually during registration because their partner does not have a Pickleball Brackets player account, does the tournament require the player enter the partners phone? If “No” is selected the partner phone will not display as a field for the player if they manually enter their partners information. They will only be required to enter the player name and email address.
8. **Player Full Address Required** – Set this to Yes to require every player to list their full mailing address.
9. **Max Event Registrations Per Day** – You can use this to limit players to only 1 event per day of the tournament.
10. **Restrictions on Registering for Multiple Events** – Use these options to control the number of similar types of events you wish to allow players to sign up for.
 - No Restrictions – Players may register for events without regard for the type of event or format. The number of events they can select will be restricted to the tournament and daily sign up limits. For Example: a player would be able to sign up for both Men’s Doubles 4.0 and Men’s Doubles 4.5, even if they are both on the same day.
 - Can ONLY Register in one event with the same ‘Player Group’ & ‘Format Combo’ **regardless of the day**. For Example: a player would be **not** able to sign up for both Men’s Doubles 4.0 and Men’s Doubles 4.5, even if they are on different days. However, since Singles and Skinny singles are different formats, players could sign up for both.
 - Can ONLY Register in one event with the same ‘Player Group’ & ‘Format Combo’ **regardless of the day**. (*Skinny Singles Counts as Singles*) For Example: a player would be **not** able to sign up for both Men’s Doubles 4.0 and Men’s Doubles 4.5, even if they are both on different days. They would also not be able to sign up for both Singles and Skinny Singles.
 - Can Register in one event with the same ‘Player Group’ & ‘Format Combo’ **as long as its not on the same day**. For Example: a player would be able to sign up for both Men’s Doubles 4.0 and Men’s Doubles 4.5, as long as they are on different days. However, since Singles and Skinny singles are different formats, players could sign up for both on the same day. They would not be able to sign up for more than one bracket of each on the same day.
 - Can ONLY Register in one event with the same ‘Player Group’ & ‘Format Combo’ **regardless of the day**. (*Skinny Singles Counts as Singles*) For Example: a player would be able to sign up for both Men’s Doubles 4.0 and Men’s Doubles 4.5, as long as they are on different days. However, they would not be able to sign up for both Singles and Skinny singles on the same day. They would be able to sign up for two different brackets of Singles or Skinny singles on different days or Singles on

one day plus Skinny singles on another day.

If you wish to override these restrictions for CERTAIN EVENTS ONLY you can specify that on the event setup screen.

Prize Money? ☐ No

Prize Money Description

If your tournament offers prize money, turn this option ON and enter a prize money description. The description will only show if the switch is ON.

4.2.4.16. Lottery Information

If this tournament will use a lottery to select players, turn that option on and describe your lottery process.

If the lottery is turned on here, all players, except those who are pre-registered, will automatically be entered into the lottery.

Important Lottery Features:

1. Registration fees and user fees are NOT collected for lottery sign ups.
2. Once the lottery registration period ends, online sign ups will close and the TD must run the lottery.
3. If the lottery switch is set to NO *without* running the lottery, all lottery players will be moved to the waiting list.
4. Players selected from the lottery will receive a notice of the events they were selected for including a reminder to pay their registration fee.
5. Registration may then be re-opened for partners of selected players, any remaining spots in events and for the waiting lists.

Lottery

Use Lottery ☐ No

If 'Use Lottery' is set to 'Yes' and players register. Then this is set to 'No', all players in the lottery will be moved to the event waiting list.

If 'Use Lottery' is set to 'Yes' then ALL registrations will go to the lottery except Pre-Registrations.

The Lottery will still use the Registration From and To date settings above.

Run Lottery NOW ☐ No

Lottery Algorithm Type

If 'Run Lottery NOW' is set to 'Yes' the system will run the lottery on all players registered to the lottery based on the Algorithm Type selected.

Lottery Description

The next page outlines the specific details of how each algorithm selection will work with your tournament events.

You may choose to show players or not by selecting either Yes or No to the “Hide Registered Players” option on this [Edit Tournament Settings page](#).

Once the lottery sign up period ends, turn on the Run Lottery switch and save the page. The lottery will run according to the selected algorithm, placing players in their chosen events. Any remaining players will be moved to the waiting list for their chosen event.

4.2.4.16.1. Lottery Algorithm Selection Options

You must select the algorithm to use for your lottery. Here is a complete description of the options and how they will control the selection of players moved into the tournament when the Run Lottery switch is turned on.

Lottery Algorithm Type

ALL types comply to the specs of the tournament and the events

- **Totally Random**
Grab random players and enter the events
- **Each player gets in, then random**
Get as many individual players registered (to maximize registration income) and then we randomize all other remaining openings
- **Strength by skill and age**

If an event specifies **the skill and specifies the age** this is the order of selection.

1. Both players on the team with a rating in the specified skill and both have the correct age
2. Both players on the team have the rating in the specified skill and one has the correct age
3. One player on the team has the rating in the specified skill and that same player has the correct age, the other player is correct age and has .5 less than the specified "From Skill" on the event
4. Everyone else.

- If an event specifies **the skill and has any age** this is the order of selection.

1. Both players on the team with a rating in the specified skill
2. One player on the team with a rating in the specified skill and the other has .5 less than the specified "From Skill" on the event
3. Both players have .5 less than the specified "From Skill" on the event
4. Everyone else.

- If an event has **any skill and specifies the age** this is the order of selection.

1. Both players on the team within the specified age
2. One player on the team within the specified age and one player on the team within the next 5 year age span after the "To Age" on the event
3. Both players on the team within the next 5 year age span after the "To Age" on the event
4. Everyone else.

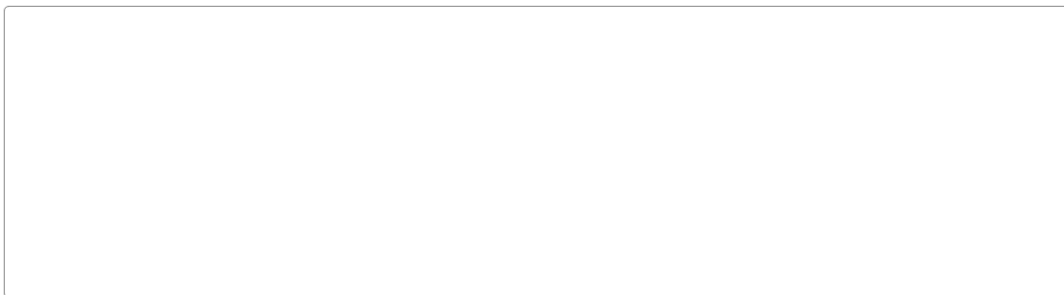

- If an event has **any skill and has any age**
Random selection

4.2.4.17. Weather Alert

Use this feature to create a weather alert for the tournament. If a weather alert is turned on, it will display as soon as the tournament is select on the main tournament webpage.

Show Weather Alert ☐ No

- Review Overview

There are multiple options on this screen that can help set the cost parameters for your tournament.

1. **Cost Timeline** This is the entry fee for the tournament. You can enter up to 5 changes for the cost and set them up based on date ranges. After a date has passed that cost will be locked and cannot be changed.
2. **Turn on the Out of State Cost to create a column for that fee.** The In State Cost will be applied to players who reside in the same state as the tournament venue. All others will be charged the Out of

State Cost.

3. **Turn on the Junior Discount to create a column for that.** Junior Discounts are only applied to players who register exclusively for Junior Amateur events.
4. **Turn on the Senior Discount to create a column for that.** Senior Discounts are only applied to players who register exclusively for Senior Amateur events.

✿ Events can be designated as Junior Amateur or Senior Amateur in the event record.
Discounts do not apply to Pro events.

5. **Turn on the Lottery Cost to create a column for that fee. and/or the Club Member Cost to create columns for those fees.** You can choose to count the Lottery Cost toward the registration fee or not.
(effective soon)
6. **Turn on the Club Member Cost to create a column columns for that fee.** Club member Costs will be applied to current club members registered in you PickleballBrackets.com club. The next question allows you to apply the club member cost to any player who becomes a club member after registering for the tournament.
7. **Events Included in Cost**
Select the number of events that you wish to include with this tournament registration fee. If you will be charging extra for additional events, that fee will be set when you configure your events.

✿ Individual Event fees are set when you configure your events. Other fees, such as for t-shirts or insurance, are set using user defined fields. None of those should be included here.

! Payment Processing Fees for online registrations through PayPal or Stripe are **NOT** included.

4.2.4.20. Checkout Options

The screenshot shows the 'Checkout Options' page for the '1st Annual Picklers Parley' tournament. The top navigation bar includes the 'PICKLEBALL BRACKETS' logo, a 'My Stuff' dropdown, and a '1st Annual Picklers Parley' header with an 'Edit Tournament Settings' link. Below the header, a message states: 'Click the ? icon where shown on the form for more information about that field.' The main content area features a progress bar on the left with four steps: 'Completed Tourney Info', 'Completed Registration Cost', 'Current Step Checkout Options', and 'Completed Logo & Files'. At the top of the main area are four buttons: 'Cancel', 'Save & Exit', 'Save & Proceed Next', and 'Custom Receipt'. The right side of the page displays a URL and a light blue informational box stating: 'The Association "001 DEMO Pickleball Association" has 1 payment gateway setup to collect fees. You can activate this below as an option to pay during registration checkout. Activate all that apply.'

Choose Checkout Options

The organization or club can set up Stripe or PayPal accounts to accept online registration fees and payment for other tournament items. If they have done that, the tournament director or manager will be able to specify that as one of the tournament Checkout Options. If more than one Checkout Option is specified, players will be able to select their preferred payment method.

This page also allows the tournament director to create a custom receipt to be used in place of the standard receipt. Specialized Pre-Registration and Lottery receipts may also be created here. Click the Custom Receipt button for those options.

! The online payment option, Stripe or PayPal, **MUST** be set up in the club account before it can be used by any tournament being run by that club.

Page 222 of 707

4.2.4.21.1. Logo Upload

If the event has a logo you can upload it here.

File types accepted are: 'png', 'jpg', and 'jpeg'.

The uploaded logo must meet the minimum size of:

Width: 600 pixels.

Height: 315 pixels.

The image **MUST** completely fill the specified area.

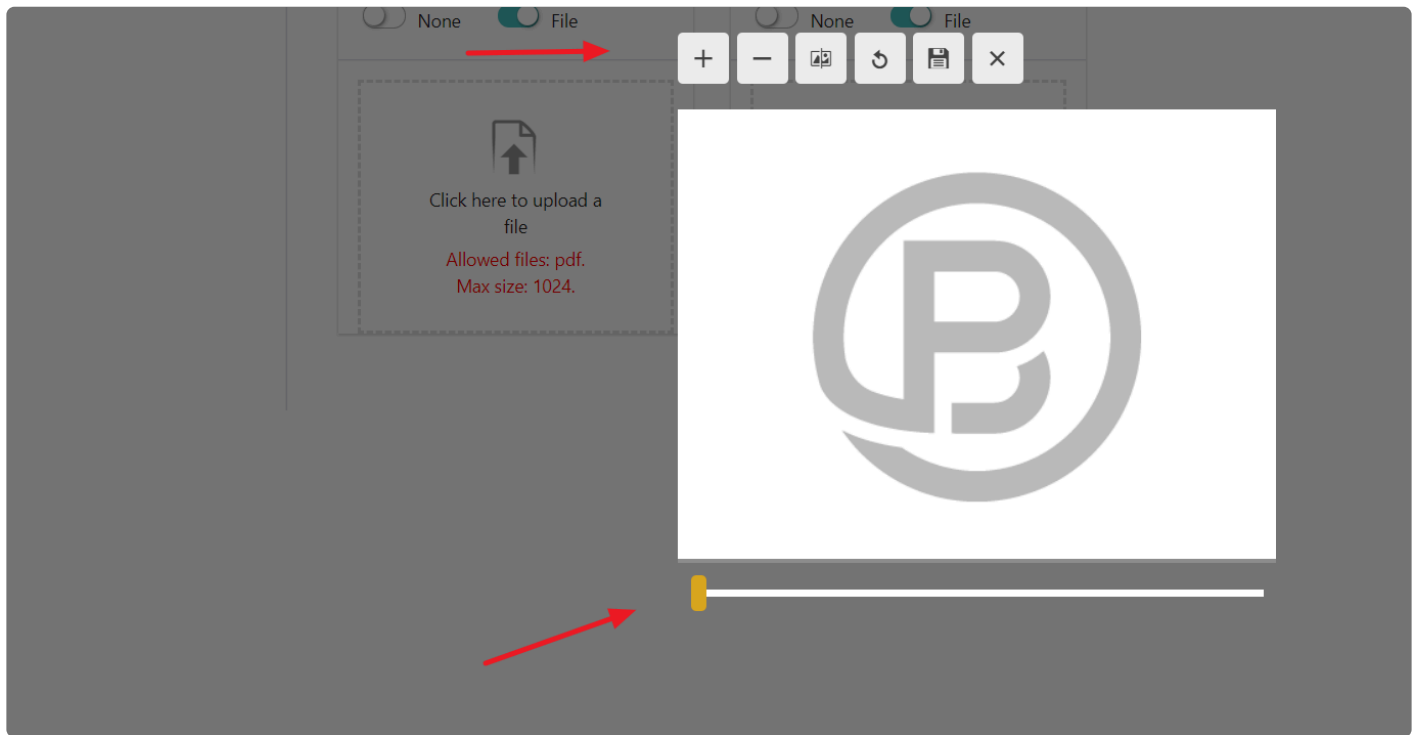

NOTE: This is **NOT** an editing software. This upload tool simply allows you to upload and resize your logo to fit our constraints. You may need to use an image editing software prior to uploading to get your desired results.

- Click on the Logo Upload box.
- Either double click on your image or click on your image and select open.

Your image should not be too much larger than the minimum size. You will be able to crop it to fit but images that are too large may overlap the logo space even after cropping.

Once you upload your image you will see the cropping tool.

Buttons across the top allow you to:

- Zoom In
- Zoom Out
- Auto Resize
- Reset back to the Original Size
- Save the Image
- Cancel the Upload

The slide bar below the image may also be used to zoom in and out.

The following sections of the manual explain how to fit logos that are still too large or are too small.

4.2.4.21.1.1. How to Add a Logo That is Too Large

If your logo is still too large to fit and view correctly, even after you crop it and shrink it, you will have to edit the image before you upload it.

Use an image or photo editing software such as Photoshop or Microsoft Paint for this process. Any software that allows you to shrink an image, by pixels, to a smaller size and specify a canvas size will work.

1. If your Image is both too wide and too tall.

- Load the image into the software and shrink it down to the specified upload size.
- For Tournament, Club and League Logos, the size is 600×315 pixels.
- For Sponsors, the size is 458×351 pixels.
- Save the new image as a JPG or PNG file.
- Upload the new image which will fit exactly into the logo space.

2. If your image is too tall.

- Load the image into the software.
- Set the width of the image to 600 pixels for Tournaments, Leagues and Clubs or 458 pixels for Sponsor logos.
- Set the canvas size of the image to 600×315 pixels for Tournaments, Leagues and Clubs or 458×351 pixels for Sponsor logos.
- Center the image in the canvas.
- Save the new image as a JPG or PNG file.
- Upload the new image, which will fit exactly into the logo space.

3. If your image is too wide.

- Load the image into the software.
- Set the height of the image to 315 pixels for Tournaments, Leagues and Clubs or 458 pixels for Sponsor logos.
- Set the canvas size of the image to 600×315 pixels for Tournaments, Leagues and Clubs or 458×351 pixels for Sponsor logos.
- Center the image in the canvas.
- Save the new image as a JPG or PNG file.
- Upload the new image which will fit exactly into the logo space.

4.2.4.21.1.2. How to Add a Logo That is Too Small

If your logo is too small to fit you will have to edit the image before you upload it.

Use an image or photo editing software such as Photoshop or Microsoft Paint for this process. Any software that allows you to shrink an image, by pixels, to a smaller size and specify a canvas size will work. There are two methods for this.

1. Increase the image size to fit the space.

- Load the image into the software and increase it to the specified upload size.
- For Tournament, Club and League Logos, the size is 600×315 pixels.
- For Sponsors, the size is 458×351 pixels.
- Save the new image as a JPG or PNG file.
- Upload the new image which will fit exactly into the logo space.

! This process may distort the image since it can change the proportions and resolution.

2. This is the preferred process to assure the highest resolution and least image distortion.

- Load the image into the software.
- Set the canvas size of the image to 600×315 pixels for Tournaments, Leagues and Clubs or 458×351 pixels for Sponsor logos.
- Center the image in the canvas.
- Save the new image as a JPG or PNG file.
- Upload the new image, which will fit exactly into the logo space.

4.2.4.21.2. Flyer and Waiver Upload

The screenshot shows the '1st Annual Picklers Parley' tournament settings page. The top navigation bar includes the 'Pickleball Brackets' logo, a dropdown menu, and a 'My Stuff' button. The main header displays the tournament name and an 'Edit Tournament Settings' link. The left sidebar has a green vertical bar and two options: 'Review' and 'Overview'. The main content area has two columns for 'Flyer' and 'Waiver'. Each column has a toggle switch for 'None' and 'File', with the 'File' toggle turned on. Below the toggle is a dashed box for uploading a PDF file, labeled 'Waiver.pdf' with a red 'X' icon. A small orange number '0' is in the top right corner of each upload box.

If the event has a flyer or waiver, you may upload them here. Files **MUST** be in pdf format.

- Flyers will be available on the main tournament page for players to view or download. Turn on the file switch and then click on the box to upload the flyer.
- If you add a waiver, all players will be required to agree to the waiver in order to register. Turn on the file switch and then click on the box to upload the waiver.

* The small orange number in the top right corner of each upload box, shows the number of times that players have viewed the document.

TO

Month	Day	Year	Time
-- ▾	-- ▾	-- ▾	-- ▾

Leave blank if code does not expire

1. Title

Give the code a title. That title will appear on the list of discount codes.

2. Outside Code

Use this for outside organizations such as clubs. This field is for future use.

3. Code

The system generates a random code that you can use. You may prefer to type in your own code that might be easier to remember.

4. Discount Amount

The value of the discount as a positive number.

5. Number Issued

Use this to limit the number of discounts available. This feature can be used to promote a tournament by offering discounts to only the first X number of players to register.

6. Date Active

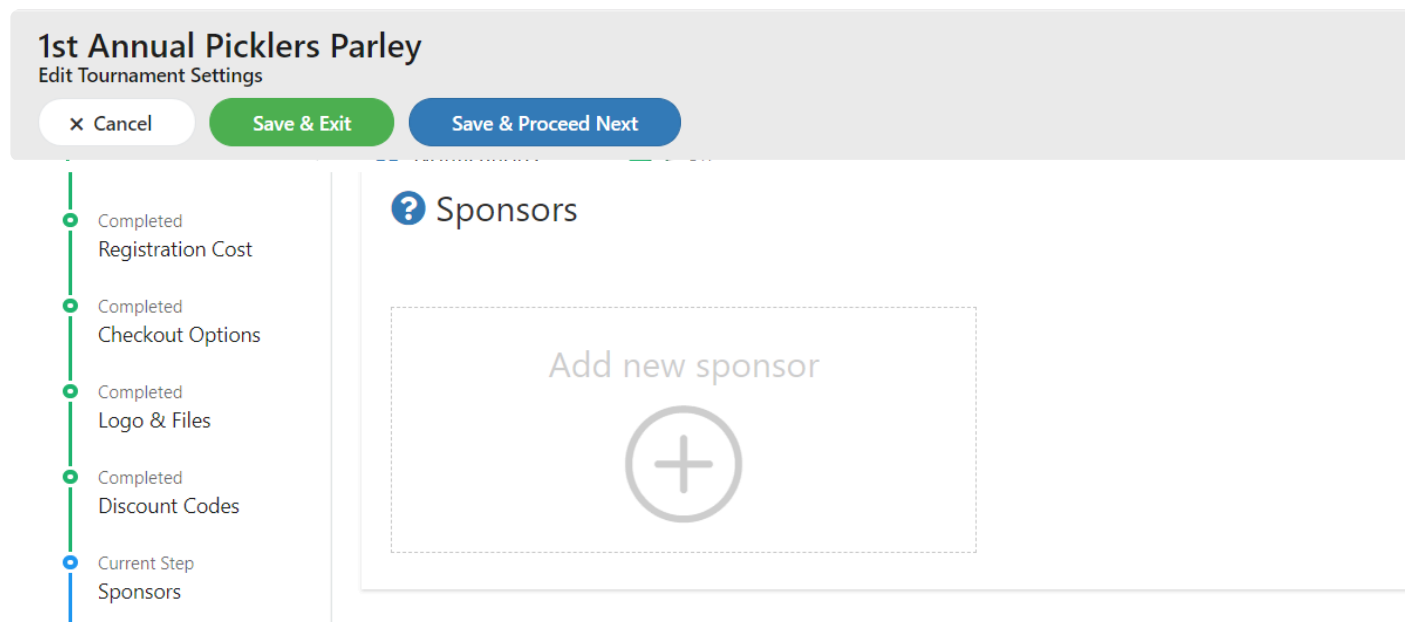

Use this to limit the date range that the code will be valid.

Once you create a discount code, send it to your players. They can use it when they reach the registration checkout screen.

4.2.4.24. Sponsors

Sponsor information can be added here. Sponsor logos will appear at the bottom of the main tournament page and in all emails sent to players. Click on the + sign to add a sponsor.

If the sponsor has a logo you can upload it here.

File types accepted are: 'png', 'jpg', and 'jpeg'.

The uploaded logo must meet the minimum size of:

Width: 458 pixels.

Height: 351 pixels.

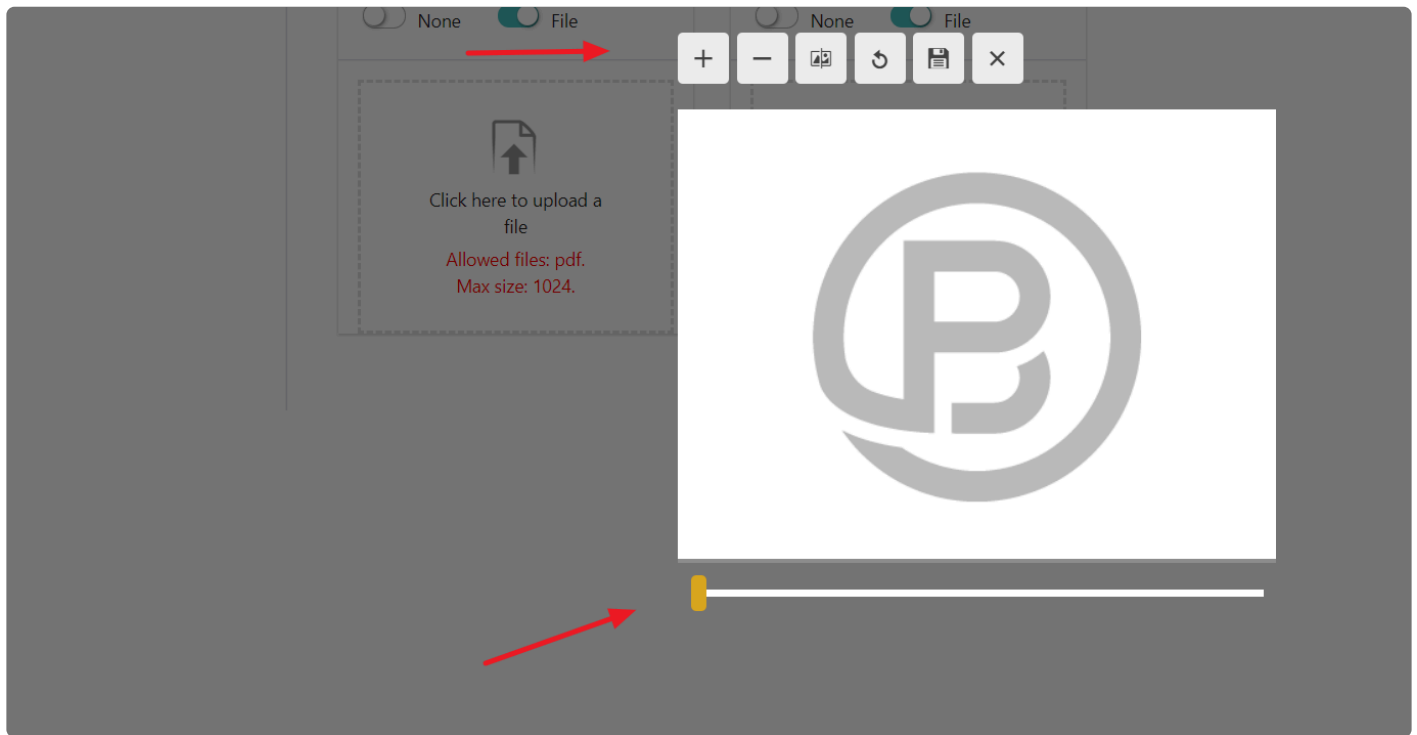

The image **MUST** completely fill the specified area.

NOTE: This is **NOT** an editing software. This upload tool simply allows you to upload and resize your logo to fit our constraints. You may need to use an image editing software prior to uploading to get your desired results.

- Click on the Logo Upload box.
- Either double click on your image or click on your image and select open.

* Your image should not be too much larger than the minimum size. You will be able to crop it to fit but images that are too large may overlap the logo space even after cropping.

Once you upload your image you will see the cropping tool.

Buttons across the top allow you to:

- Zoom In
- Zoom Out
- Auto Resize
- Reset back to the Original Size
- Save the Image
- Cancel the Upload

The slide bar below the image may also be used to zoom in and out.

Make sure to save the image using the Save icon after you add the logo or make any changes. Save the page when you are done.

These sections of the manual explain how to use image editing software to change the size of a logo if it is too large or too small to fit.

Parking Info Fee? ☐ No

Each physical location used by the tournament should be created here. These locations will be used when creating events, courts, and when generating the daily planner.

1. **Print Spooler Info** – Click here to download the print spooler and for complete instructions for use of the print spooler to direct all printing to one central printer.
2. **Venue Title** – The venue should have a formal name that will display on the tournament website and will help identify the venue for potential players. It can also have an informal or alternate name. Check Yes if this is the primary location for the tournament. The primary location will be used on the details screen and anytime the address is displayed on behalf of the tournament.
3. **Copy** – Click here to make a copy of this location. If you are adding additional locations, you will be able to modify the copy.
4. **Use Print Spooler** – Score sheets and tournament reports may be printed using the print spooler to a central printer or without using a print spooler to a printer that is directly connected to a local computer. Turn this switch on to use the print spooler. See the next page of this manual for print spooler installation and usage instructions.

! If the tournament is not using the print spooler, this switch **MUST** be turned off.

5. **Surface and Play Area** – These options tell players what the playing conditions of the tournament and facility are.

6. **Ball** – List the tournament ball here. You may also include a link for players to visit the official ball

website.

7. **Parking Info-** Select Yes or No for a parking fee and use the box for detailed descriptions of the parking area and its location relative to the playing venues.
8. **Add New –** Use this button to add a new location. (you may also use the copy link above for the same purpose.)

4.2.4.27.1. Print Spooler Instructions

 001.a DEMO  My Stuff ▾

Print Spooler Instructions

1. The print spooler allows you to automatically print scoresheets ready to be played.
Download the print spooler by [clicking here](#).
The print spooler **MUST** be installed on a computer with a **Windows Operating System**.
The computer running the print spooler **MUST** be connected to a print that will be used for scoresheet printing.
An internet connection is **REQUIRED**.
2. The print spooler will **ONLY** auto print scoresheets for events that are associated with venues marked "Use Print Spooler"
[Click here to view your venues](#)
3. The print spooler will **ONLY** auto print scoresheets of events that are marked "Print Next Available Automatically"
[Click here to review your events](#)
4. If the event is in the Running tab of the Live Console the print spooler will automatically start printing that events scoresheets.

Scoresheets will auto print after scores are entered.
If new scoresheets don't print after entering the match scores there may not be new scoresheets available for print.

[Download Print Spooler](#)

The Print Spooler Application has been implemented in the Pickleball Brackets software. If you have used the application in Pickleball Tournaments, please be advised you will need to install the new version of the application to be used in Pickleball Brackets. Click on the Download button to install the print spooler.

4.2.4.27.2. Installing the Print Spooler

Pickleball Tournaments Scoresheet Printer

Name: Scoresheet Printer

Version: 1.5.0.0

Publisher: Pickleball Tournaments

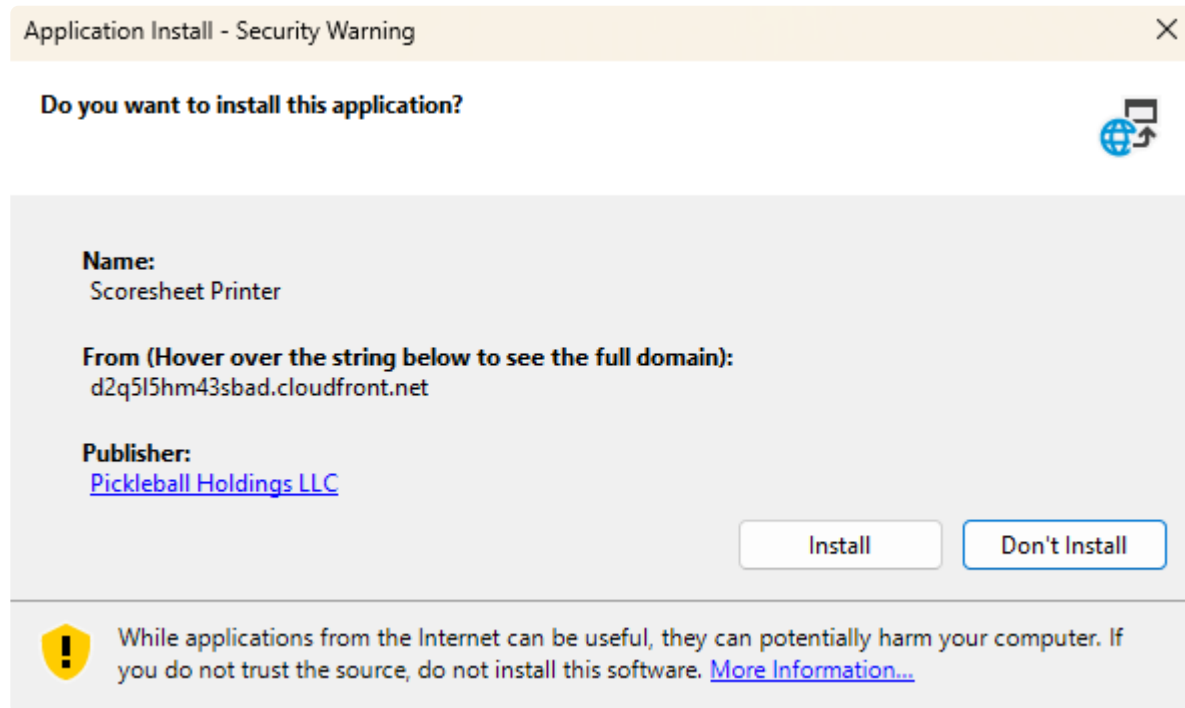

The following prerequisites are required:

- .NET Desktop Runtime 6.0.11 (x64)

If these components are already installed, you can [launch](#) the application now. Otherwise, click the button below to install the prerequisites and run the application.

Install

Click the Install button to download the print spooler installation file. The installation file, setup.exe, will be downloaded, usually to the download folder on your computer. Navigate to that folder and double click on the name of the file. Once the process begins, you will see the following screen. Click on Install to continue.

When installation is complete, the program will automatically open and the following screen will appear.

No print requests yet...

Installation of the print spooler only has to be done once on the computer. For each tournament, change the print spooler parameters using the directions on the following page.

4.2.4.27.3. Print Spooler Menu Options

Print Spooler Menu Options.

1. Print the sample score sheet on the screen to test the spooler.
2. Modify the sample score sheet.
3. The print spooler settings. These must be modified for each tournament.
4. Start the spooler.
5. Stop the spooler
6. Hide the view of the score sheet.

4.2.4.27.4. Configuring the Print Spooler

The Print Spooler must be configured to match the parameters of the tournament. Click on the Settings menu option to configure the spooler.

Print spooler setup options.

1. **The Tournament ID** – this comes from the Venue on your Edit Tourney Menu
2. **The Password** – This is labeled as Print Spooler Code on the Venue.
3. **Venue** – The Venue Code
4. **Batch Size** – leave as 5
5. **Polling Interval** – The interval in seconds, that will be used to search for new score sheets. Default is 30. Recommended is 15.
6. **Print Tie Breakers** – leave on.
7. **Printer** – Select your printer that will be used to print score sheets. A USB connection from the computer to the printer is recommended.
8. **Ink Color**
9. **View Printer Information.**

10. **Connection Source** – Switch to PickleballBrackets.com if necessary.
11. **Accept and Save configuration changes**

The printer selection will be in effect as long as the spooler is open. If you close the spooler, you will have to specify your printer again when you next run it.

The default printer for each of the computers being used to enter scores, must match the printer that is being used by the spooler. Set these on the computers before using the spooler.

4.2.4.27.5. Running the Print Spooler

Click on the Start Button (4) to start the spooler. Click on the Stop Button (5) to stop the spooler.

✿ While running, all next available score sheets, from any computer being used to manage the tournament will be sent to the printer. The printer will also print a confirmation sheet for every score that is input.

4.2.4.28. Amenities

Amenities include any special features associated with the tournament. Most often, hotels are listed as amenities but amenities may also include local supporting business or restaurants. Details of amenities will show at the bottom of the main tournament listing page.

Tournament Managers and their rights can be created here. The Primary Manager will also be able to add managers from this screen by selecting the Add New button.

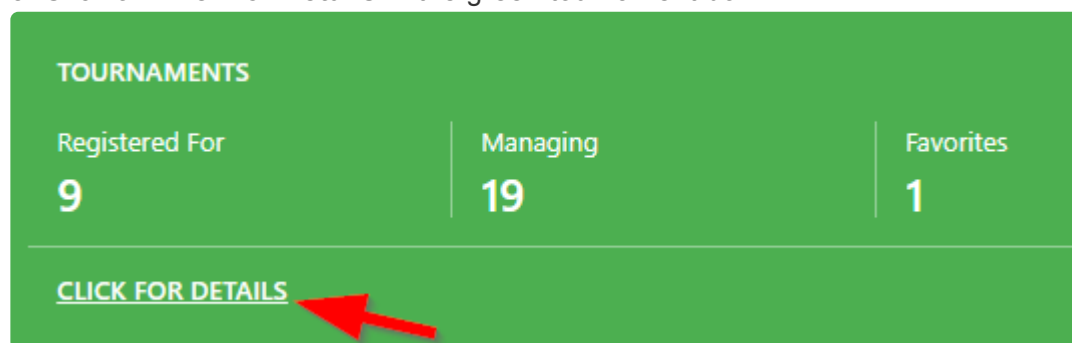

Click the icon where shown on the form for more information about that field.

! If you add a manager and/or change privileges for that manager, you must click on the “Save” button next to their name before saving the manager list.

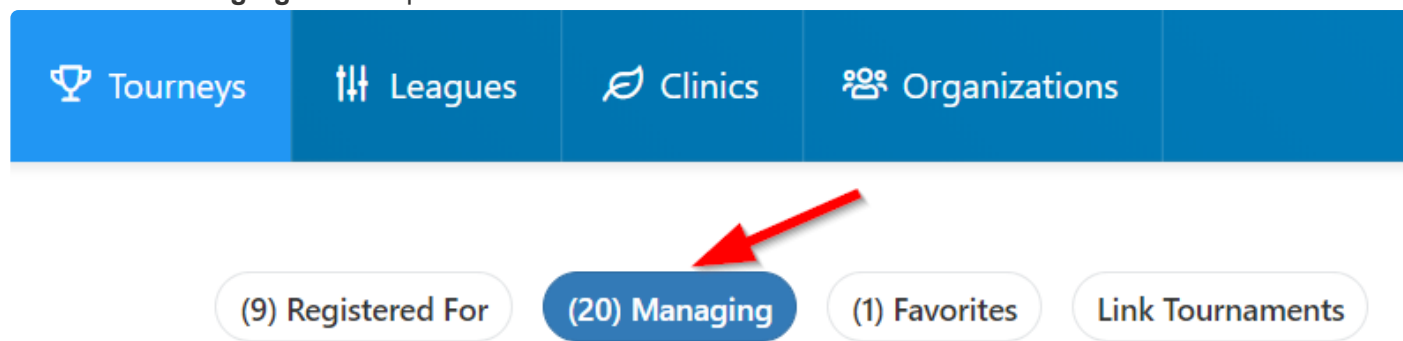

4.2.5. Event Settings

Each event has multiple settings that allow the tournament director to specify all of the variables associated with the event. These include factors such as format, age range, gender, dates, times and many others. This section will review all of the steps needed to set up an event in PickleballBrackets.com

1. Log in to your Pickleballbrackets.com account.
2. On the top right of the screen, hover over your name and then click on **My Stuff**.
3. Click on **Click for Details** in the green tournament box.

4. Click on **Managing** at the top of the screen.

5. Scroll down to the tournament you would like to edit and click on it.
6. Select **Events** from the menu

When a tournament is created, you will have to add at least one event. That event can then be copied and modified to create all of the other tournament events. As you change the first event on the list, pay special attention to factors that you will repeat for other events. These include such things a dates, bracket formats, waiting list options, time display format and costs. If you standardize these with the first event, you will have fewer edits to make on the later copies.

Select the Add An Event button to add your first event to the tournament. The following pages of this manual will describe how to configure all of the parameters for that event.

If events already exist for the tournament, you will see them listed here.

* Events are copied or Edited from the Event List. The Pencil Icon is the edit button. The Copy Icon appears below. An Email Icon will allow you to select players in the event to be emailed individually.

* **Copy Event** – Make an exact copy of this event. The event will be renamed with the word “Copy” attached at the end.
Copy Event For Merge – Make an exact copy of this event for the purpose of using it to merge together two or more other events. Usually done after registration closes to combine events with low registrations.

 On the Event screen, click the edit list button at the top to see the complete editable list of events.

Some features can be edited from the Main event screen.

These include:

1. The date and time of the event
2. Waiting list status, On or Off
3. Active or Inactive Status (can only be changed for events with no players,)
4. A switch for deleting an event (can only be used for events with no players.)
5. How to display the time on the main player and event screens.
6. The maximum number of teams in an event. (For events with Age Splits, this is managed on the Age Splits screen.)
7. The maximum number of teams permitted on the waiting list. (For events with Age Splits, this is managed on the Age Splits screen.)

 The process for setting up and managing Age Splits will be detailed in the following section of this manual.

8. Whether or not to print the next score sheet automatically while the event is running. This should be turned off for round robin events where all of the score sheets are printed in advance.
9. The price for this event, if there is one.

 The event list is shown on the public website with the parameters set here and in the detailed event record. Parameters can be changed at any time by the tournament director.

These changes can be made to as many events as needed from this screen. Once all changes are made, click on the Green save button that will appear on the upper left side of the screen to save all of your changes.

 The dates of the events determine what shows as the date range for the tournament.

Basic Info Actions

- **Copy Event** – this will make a copy of the event that can be modified as needed to create a similar event.
- **Copy Event for Merge** – this will make a copy of the event that can be used to merge multiple events together. Click [Here](#) for information about the merge process.
- **Update All Ratings** – this will update the ratings of every player registered for this event with their current rating in this event ONLY. The update will use the default rating specified by the tournament.

e.g. PickleballBrackets, UTPR, WPR, etc. **THIS CANNOT BE REVERSED.**

- **Cancel Event** – Use this to cancel an event with registered players.

! All players in a cancelled event will be removed. The ability to cancel an event allows Tournament Directors to easily delete an event that may no longer be planned for the tournament. Use this feature with caution for situations such as weather problems where the event will not be re-scheduled.

1. **Active** – Active events will show on the public website and will be eligible for registration. Disabled events do not show.
2. **Lock Public Registrations** – To manually prevent more registrations you can select 'Yes' and the system will not let new players register for this event.
This setting DOES NOT prevent managers from registering players for this event. They will have the ability to do so no matter what this setting is.
3. **Event Code** – Used to direct score sheets for this event to the print spooler.
4. **Additional Medals for Age** – This will automatically assign addition medals by five or ten year breakdown to this event.
5. **National Senior Games Event** – Turn this on for any National Senior Games qualifying event. Click the Help link below this button for details about National Senior Games Qualifying Tournaments.
6. **Count Games Toward Ratings** – Approximately one week after the tournament, new ratings for participants are calculated based on the results of their matches. To prevent matches from this tournament from being including in player ratings, select 'No'.
7. **Waiting List Service** – This action is ONLY for this event. This is an automated service that moves players from and to the waiting list based on their registration and the settings for the event. Select "On" to have the service automatically scan registrations and move them from and to the waiting list. Select "Off" to turn this service off.
8. **Is Wheelchair Event?** – On or off. This will work with the Simulator to schedule this event only on courts that are wheelchair accessible and playable.
9. **Bracket Level** – Select the appropriate category for this bracket. If Junior or Senior Discounts have been set, eligibility for those discounts are determined by the Bracket Level set here. *Be aware that the software use fee for Pro events is higher than for amateur events.*
10. **Bracket Format** –
 - **Single Elim. Bracket** – The winner of each match advances to the next round in that bracket, and the loser is eliminated. Seeding can be done randomly or manually.
 - **Double Elim. Bracket** – The winner of each match advances to the next round in that bracket, and the loser moves to the losers bracket. Losing a match in the losers bracket eliminates a team from the competition. Seeding can be done randomly or manually. Selecting Double Elimination brings up the following screen:

 Prevent losers bracket from playing back into winners bracket?
Shorten bracket by 3 matches

- ☐ Prevent losers from going back into winners bracket.
☒ Allow losers to play back into winners bracket.

Select **Prevent** if you want to stop the losers bracket from playing back up into the winners bracket. If selection is Prevent, the losers bracket players can ONLY win bronze at best. If selection is Prevent, the players in the gold/silver medal match in the winners bracket do NOT get a second gold/silver round. The loser of this round gets the silver. This selection reduces the event by 3 matches

- **Round-Robin** – Round robin brackets list matches played by round and are formats in which each competitor plays against everyone in their division. Seeding can be done randomly or better skilled competitors can be match up against the weaker ones in the first round. The deciding factors for determining the winner can be number of matches won, head to head, total points earned, or point differential. Some events give a bonus to the winning team of each match won. In the event a tie occurs, various methods can be configured to calculate tie breakers. (see Event Info Page 5 for information about how to configure the priority of your factors)

4.2.5.3. Event Info Page 2

1st Annual Picklers Parley

Mens Doubles Skill: (3.0 Only) Age: (Any)

× Cancel

Save & Exit

1	? Player Group	<input checked="" type="radio"/> Mens <input type="radio"/> Womens <input type="radio"/> Mixed <input type="radio"/> Coed

5	? Only 1 partner may be lower than skill	3.0 <input type="checkbox"/> No
6	Age	<div>60</div> <div>And Above</div> <div>5</div>
7	Age Rule	<input checked="" type="checkbox"/> Older players can signup?
8	? Only 1 partner may be older than age	60 <input checked="" type="checkbox"/> Yes

1. Player Group –

Mens – Men Only

Womens -Women Only

Mixed – One Male Only & One Female Only

Coed – Any Combination of Gender Can Play. NOTE: Players will enter into this bracket with their Doubles Rank NOT their Mix Doubles Rank.

2. Format – Choices are Doubles, Singles and Doubles Blind Draw

! For a blind draw event, the system creates the matchups when the event is verified. If it is a Men's, Women's or Coed event, you must have an even number of players or one will be left out of the matchups. On the first verification screen, you will see the matchups that were created. You can select the Randomize button to create new matchups or move individual players to match them up with others on the list. For a mixed double blind draw, you must have an even number of men and women.

3. Skill – Use the drop down options to select the skill level for this event. You can specify **any level**, a **single level** or a **range** including less than and more than.

4. Skill Rule – If you specify a skill level, do you want lower skilled players to be able to register for this

event? If so, check this box.

5. **Only One Partner May be Lower Than Skill** – You will see this if you allow lower skilled players to sign up. If you would like only one of the two partners to be lower than the selected skill then choose **‘Yes’**. Example: If you create a 4.0 Mens Doubles 50 and Under bracket but want to allow lower skilled players to sign up, you can specify that only 1 of those players can be lower than 4.0 by selecting **‘Yes’**.
6. **Age** – Use the drop down options to select the age for this event. You can specify **any age**, **a single age** or **a range** including less than and more than.
7. **Age Rule** – If you specify an age or age range, do you want older players to be able to register for this event? If so, check this box..
8. **Only One Partner May be Older Than** – You will see this if you allow older players to sign up. If you would like only one of the two partners to be over the selected age then choose **‘Yes’**. Example: If you create a 3.0 Mens Doubles 50 and Under bracket but want to allow for older players to sign up. You can specify that only 1 of those players can be over 50. The other one has to be 50 or under.

4.2.5.3.1. Single Elimination Special Options

1st Annual Picklers Parley
Mens Doubles Skill: (3.0 Only) Age: (Any)

Back to Events
Save

? Bracket Format

☒ Single Elim. Bracket
☐ Double Elim. Bracket
☐ Round-Robin

? Custom Bracket Settings

☒ No custom settings
☐ No bronze medal match

? Custom Seed Settings

☒ None
☐ Top 8 seeds get bye to round 16
☐ Top 8 seeds get bye to round 16 & seeds 9-16 bye to round 32

Selecting a single elimination format allows the TD to specify other options for the event.

1. The event can exclude a Bronze medal match completely.
2. A custom seeding configuration can be set to give automatic bye's to the top 8 or 16 teams.
 - Top 8 teams get a bye to the Round of 16 – this benefits the top seeds by delaying their entry into the bracket and also benefits the lower seeded players by not having them face the top seeds in the first round.
 - For large brackets, you can also give a bye to seeds 9 through 16, delaying their entry until the Round of 32 where they will be matched up against either each other or surviving teams from the earlier rounds, before facing the top seeds in the Round of 16.

- 1. Type a Custom Title** – The system can auto generate a title for this event. (Note that the title shown here is different from the title on the page heading because the age range of the bracket was changed while editing. The new title will be saved when your edits are confirmed.) If you would rather type your own custom title you can select 'Yes' for this option.

! If you type in your own title but leave this as **No**, your title will not be saved.

2. **Title** – Type your title here or leave the generated title in place
3. **Subtitle** – Use this to add additional information about the event. Subtitles are displayed on the public event and player lists.
4. **Third Party Code** – Use this field if you need to give your event a specific code. This value is not used in PickleballBrackets.com although may help relate to another system.

✿ National Senior Games State Qualifying Tournaments use this field to create the Senior Games Qualifying Report. See the section of this manual explaining how to set up a National Senior Games Qualifying event.

5. **Import Code** – Not used by the system.
6. **Is Private Event?** – You can designate any event within a tournament as a private event. That will restrict registration to players who have the private code.
7. **Venue** – This is the physical location where this event will be played. In most cases this is the same location as the primary tournament location although bigger tournaments may have multiple locations. Use the drop down menu to change the location of this event.
8. **Link to Parent Activity** – If the roster of players for this event will be determined by the results of a previous event, select the previous event here. An example of this would be the need to create more than one single elimination playoff where the players come from a previous round robin event. The previous round robin event is the Parent Event.
9. **Allow 'Need a Partner'** – Select this option if you allow player to register with a status of "Need a Partner". Players who need a partner will be shown on the main Player by Event listing with a Contact button next to their name so that other players without partners may get in touch with them.
10. **Register Same 'Player Group' & 'Format' Combo Override** – It will apply only to this event. For example: If this event is Men's Skinny Singles and you want players to also be able to register for Men's Singles, switch this to **Yes**.

✿ This overrides the tournament setting of: Can a Player Register for Multiple Events with the Same 'Player Group' & 'Format' Combo in One Registration.

! Be sure to consider this when scheduling your events. PickleballBrackets.com cannot prevent players from registering for two different types of events at the same time!

1st Annual Picklers Parley

Mens Doubles Skill: (3.0 Only) Age: (Any)

× Cancel

Save & Exit

1	? Max Teams	5	0
2	? Max Waiting List Teams	5	0
3	? Limit Teammate Must Register Within	Unlimited Days	Unlimited Hours
4	Date of Event	Month Apr	Day 10
		Year 2024	Time 8:00 AM
5	? Display Time Type	Show Time	
6	? Prioritize Date Time of this Event on Planner	<input type="checkbox"/> No	

1. **Max Teams** – This is the maximum able to register for this event. If this is a doubles event this would be the Max Teams. If this is a singles event this would be the Max Players. Players attempting to register after the event is full will be given the option to sign up on the waiting list. Waiting list registration does not incur a fee. Registration fees are imposed when a player gets into the event from the waiting list. If you select Unlimited from the drop down menu, there will be no restriction on the number of teams allowed to register for this event and the Waiting List Automated Service will not run unless you set a time limit for partner registration.
2. **Max Waiting List Teams** – This is the maximum number able to register directly to the waiting list OR be moved to the waiting list from the Waiting List Automated Service. If this is a doubles event this would be the Max Teams. If this is a singles event this would be the Max Players. If you have the Waiting List Service turned on, the service will continue to move players to the waiting list until the maximum is reached. Select Unlimited on the drop down menu if you don't need to control the size of this list.

✳ When **Max Waiting List** is set to '0' the waiting list service will not run on this event and **Limit Teammate Must Register Within** cannot be used because there is no waiting list to put the players on.

If the tournament is set up to use a lottery, there will be an extra field to specify the maximum number of lottery registrations permitted for the event.

 Max Lottery Players

Unlimited ▼

 The next section of this manual will explain how to set age group splits within an event. If splits are set, both Max Teams and Max Waiting list Teams are configured within the age split.

3. **Limit Teammate Must Register Within** – If this is a doubles format you can choose to force the second teammate to register within a specific timeframe of the first player. If a teammate does not register within the specified time limit then the first player will be placed on a waiting list automatically. Emails will go out to both players when this happens. Once the second teammate registers they will be moved off the waiting list **ONLY** if there is still room in the event.

 For teams to be moved from the waiting list into an event when an opening occurs, **Both Players** on the team must be signed up. If a player on the waiting list does not have a partner, or if they have named a partner who is not signed up, they will not be moved into the event. For doubles and mixed doubles, position on the list is based on the sign up date of the **First** partner to register.

4. **Date of Event** – This is the date and start time for this event. The date is used to calculate the date range for the tournament and is shown on the event detail screen and Player by Event listing.
5. **Display Time Type** – There are multiple choices here. You can choose to show the selected time, show the generic time of day, or not show either. If you select “None” then only the date will show on PickleballBrackets.com.
6. **Prioritize Date/Time of this Event on Planner** – Turn this on to force the simulator and planner to prioritize this event over any others scheduled at the same date/time.

Additional Round Robin Features

Medal Round Robin with elimination bracket?

NOTE: (Minimum of 3 teams must advance)

☐ NO bracket medal rounds, medal based on end ranked results.

☐ YES play single elimination bracket medal rounds.

☒ YES play double elimination bracket medal rounds.

[?](#) Custom Bracket Settings

☒ No custom settings

☐ Prevent losers from going back into winners bracket. Shorten bracket by 3 matches

☐ Bronze from losers of semi-finals in winner bracket. Shorten bracket by 3 matches

Min. TEAMS from Round Robin advancing to medal bracket?

RR Head to Head Tie Breaker Logic

IFP Standard

Total matches won

12.C.3.a.

First tie-breaker: head-to-head matches won.

12.C.3.b.

Second tie-breaker: point differential of all games played.

(e.g., Team A won Match 1 11-8, 11-4, so they would have a point differential of +10.

Team A then wins the second match 11-9, 2-11, 11-6.

For this round, they would have a point 50 differential of -2.

This would give them a total for the day of +8.)

12.C.3.c.

Third tie-breaker: head-to-head point differential.

12.C.3.d.

Fourth tie-breaker: point differential against next-highest team. (e.g., If the teams are tied for second, use point differentials against the first-place team.)

Medal Round Robin with Elimination Bracket – Single or double elimination playoffs may be added to any round robin event.

- No – Choose this award medals based on the final standings of Round Robin play.
- Yes – Play Single elimination medal round.
- Yes – Play Double elimination medal round. – Double elimination playoffs have options that can shorten the medal round playoffs.

Prevent losers bracket from going back up to winners bracket – Select this option if you want to stop the losers bracket from playing back up into the winners bracket. If selected the losers bracket players can ONLY win bronze at best. If selected the players in the gold/silver medal match in the winners bracket does NOT get a second gold/silver round. The loser of this round gets the silver. This selection reduces the event by 3 matches

Bronze from losers of semi-finals in winner bracket – Select this option if you want the bronze match to be created from the losers of the semi-finals in the winners bracket. This selection reduces the event by 4 matches

RR Head to Head Tie Breaker Logic – Description of the IFP Round Robin Tie Breaker Logic

Head to Head ties are broken by using the tie breaker logic specified above before moving on to the next step.

1	Print Next Available Matches Automatically	<input type="checkbox"/> No
2	Print Next Available Round by Round?	<input type="checkbox"/> No
3	Court Assignment Type	<input checked="" type="radio"/> Designated <input type="radio"/> Next Available
4	Auto Move Next Up When Score Entered	<input type="checkbox"/> No
5	Text Message for Court Asn	Based On Ref Asn
6	Text Message for Next Up Court Asn	Basic Information
7	Show this event on tourney Registration	<input checked="" type="checkbox"/> Yes
8	Included in Reg Cost	<input checked="" type="checkbox"/> Yes
9	Event Cost	\$ 10.00
10	Is Money Event	<input type="checkbox"/> No
11	Is Required	<input type="checkbox"/> No
12	Medals Awarded?	<input checked="" type="checkbox"/> Yes
13	Hide Players?	<input type="checkbox"/> No

1. **Print Next Available Matches Automatically** – This feature will automatically print the next available matches for an event after match scores are entered. This should be turned on if you did not print all of the score sheets for this event in advance or for double or single elimination events where you are

assigning games to the next available court.

2. **Print Next Available Round by Round** – This feature controls the order of score sheet printout for round robin events. If it is set to “Yes”, score sheets will print out in round order. If it is set to “No”, score sheets will print out depending on the availability of players.
3. **Court Assignment Type** – Select “Designated” to tell the simulator that you want to restrict events to a certain number of courts. Use “Next Available” to all the computer to create a schedule based on court availability.
4. **Auto Move Next Up When Score is Entered** – If the tournament is using the “Next Up” feature for the waiting queue and court assignments, turn this on to automatically move the Next Up team onto the court once the previous match score is entered.
5. **Text Message for Court Assignment-** Use this drop down menu to select the default location for text message instructions for players.

Choices are:

- Based On Ref Asn: Based on the match being assigned to a referee or a not.
- To Court Always: Every court assignment text will send them to the assigned court.
- To Score Table Always: Every court assignment text will send them to the score table.

6. **Text Message for Next Up Court Assignment-** Use this drop down menu to select the default location for text message instructions for players.

Choices are:

- Basic Information: This is a text just informing them they will be next up on a specific court with no action needed.
- To Court Always: Text telling them they are the next match on a court and to GO TO the court NOW.
- To Score Table Always: Text telling them they are the next match on a court and to GO TO the score table NOW.

7. **Show this Event on Tourney Registration** – This feature might be set to ‘No’ if this is an extra event after the tournament or it’s a private event at the tournament.
An example would be having players pay an additional \$5 at the tournament to participate in a 50/50 skins bracket after all other brackets were played on that day.
8. **Include in Reg. Cost** – If you set up your tournament so that a specific number of events are included in the tournament registration cost, is this event one of them?
9. **Event Cost** – If a player registers for more events than what are included in the tournament registration cost, what is the additional cost for this event? – **OR** –
If this event is not included in the events covered by the tournament registration cost, what is the additional cost for this event?
10. **Is Money Event** – Check **Yes** if this event will pay out money to the players.
11. **Is Required** – If this event is required, then during player registration they will automatically be entered into this event without the need to select it. You should select this option if your tournament only has one event.
12. **Medals Awarded** – This feature is usually set after the event is already been played. Display numbers for 1st, 2nd, and 3rd rather than Gold, Silver, and Bronze.
You may use this feature if you don’t finish an event and wish to manually award medals.

13. **Hide Players?** – This feature will hide all the players **in this event** from the public. NOTE: This does NOT hide the totals for the bracket registration. It ONLY hides the player list.

4.2.5.12. Settings for Events that Require Qualifying

Single elimination events can be set up as qualifiers for a Main Draw, Consolation or both. **If it is a single elimination event**, the Main Draw can be set up as a qualifier for a Bonus event for losers from the early rounds of the Main Draw. Main Draw, Consolation and Bonus events **that are not qualifiers** can be round robin, single or double elimination. These related events have special setup options. The following sections of this manual will explain how to set them up. Preparing and running those events will be covered [Here](#) in the section of the manual that explains how to prepare and run the tournament.

4.2.5.12.1. Qualifying Scenarios

There are two main qualifying scenarios that will determine how to set up your events.

1. **Scenario 1: (The Standard PPA and APP Pro Format)** The Tournament Director has decided on a core of players or teams that will play in the Main Draw. There are additional spots in that event that will be filled by players from a qualifying event.
 - **For Example:** The Main Draw has 24 Pro Teams who have guaranteed spots in the event. There are eight more spots available. All teams will register for the Main Draw. When registration closes, the tournament director will leave the guaranteed teams in the event and move all remaining teams to the Qualifying Event. The Qualifying Event is played until there are eight teams remaining. They advance to the Main Draw that already has 24 teams. Optionally, the remaining teams may be moved to a Consolation event.
2. **Scenario 2: All teams must qualify for the Main Draw by playing in the qualifying event. This Scenario is Not Yet Implemented**
 - **For Example:** The Main Draw has 32 slots. The Qualifying Event has 64 slots. All teams register for the Qualifying Event. That event is played until there are 32 teams remaining. Those teams advance to the Main Draw. Optionally, the remaining teams may be moved to a Consolation event.

Reminder: All events that qualify for another event must be set up as Single Elimination.

4.2.5.12.2. Event Setup for Scenario 1

The Main Draw is the event that players register for. A designated number of players will be moved from this event to the qualifying event after registration closes.

Set up the Main Draw event as follows:

1. Set it up the way you want them to play out, Round Robin, Single or Double Elimination, can loser bracket play back to winners bracket and so on.
2. **If the Main Draw will be a qualifying event for a Bonus event, it must be set up as Single Elimination.**
3. Link to Parent Event – None
4. Include in Registration Cost – Yes or No, up to the Tournament Director
5. Event Cost – Set this to whatever you want to charge for this event.
6. Lock Public Registrations – NO

The Qualifier is the event that some players from the Main Draw will be moved to after registration closes. A designated number of players from this event will qualify for the Main Draw. Optionally, a designated number of non-qualifying players may also move to another event (Consolation or Points Draw).

Set up the Qualifier event as follows:

1. Set it up as a Single Elimination
2. Link to Parent Event – Main Draw
3. Include in Registration Cost – NO
4. Event Cost – \$0
5. Lock Public Registrations – YES

Set up the Consolation event as follows:

1. Set it up the way you want them to play out, Round Robin, Single or Double Elimination, can loser bracket play back to winners bracket and so on.
2. Link to Parent Event – Main Draw
3. Include in Registration Cost – No
4. Event Cost – \$0
5. Lock Public Registrations – YES

After the Main Draw and Consolation events are set up, Edit the Qualifier event.

1. Set **Is Qualifier** to Yes
2. From the **Winner to** drop down menu, select the event the winners go to (usually the Main Draw) and

the criteria for teams that will move.

- From the **Loser to** drop down menu, select the event the losers go to (usually the Consolation) and the criteria for teams that will move.

Qualifier

 Is this a Qualifier ☒ Yes

Winner To	<div>Select Event</div>	Total to Move <div>Select</div>
Loser To	<div>Not Moving Losers</div>	Total to Move <div>All Remaining</div>

If there is a **Bonus Draw** event for a specified number of losers from the **Main Draw**, set it up as follows:

- Set it up the way you want them to play out, Round Robin, Single or Double Elimination, can loser bracket play back to winners bracket and so on.
- Link to Parent Event – Main Draw
- Include in Registration Cost – No
- Event Cost – \$0
- Lock Public Registrations – YES

 After the Qualifier, Consolation and Bonus events are set up, Edit the Main Draw event if you have a **Bonus event for the losers**

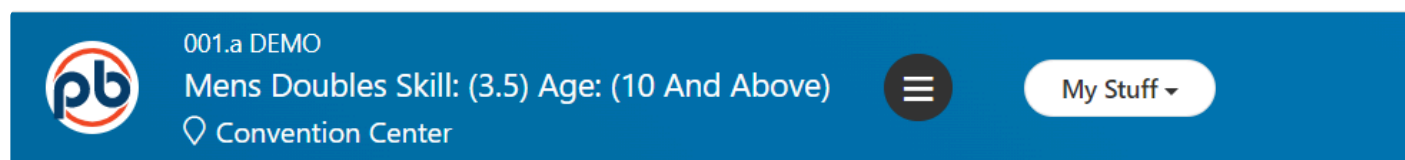

- Set **Is Qualifier** to Yes
- From the **Loser to** drop down menu, select the event the losers go (usually the bonus draw) and the criteria for teams that will move.

Manage Splits

Once a skill level event has been created, it can easily be split into age groups using the **Manage Splits** option on the event sidebar menu. This is a powerful feature that allows Tournament Directors to create and modify age brackets before, during and after the registration period. When age splits are created either before or during the registration period, players will register into those age groups. Age splits are also used by the Planner Snapshot to create a potential schedule based on the expected number of players in each age group.

1. **Before Registration Opens** – Age group splits can be created so that players can register by age within a specific skill level.
2. **During Registration** – Age groups can be expanded or shrunk to modify the size of the bracket. Players will automatically be moved to the appropriate age group.
3. **After Registration Closes** – Age groups can be created from any skill level event in order to split one event into multiple skill level/age group events or combine or combine age groups into one event.

! If age splits are created **after** players have registered, either turn the waiting list service off for the tournament or set maximums for each age split **if you want to keep players on the waiting list in the new age group**. If maximums are not set and the waiting list service is on, eligible waiting list teams will be moved in as soon as you save the settings.

4. **Before Registration Opens** – Using the Age group split functionality, Tournament Directors can create separate skill level/age group events. **Once created, these events cannot be modified using the manage splits function.**

4.2.6.1. Adding the First Age Splits

Selecting the Manage Splits option will bring you to this screen. Click on Add New Split.

MT: 0 of Unltd | MW: 0 of Unltd

No players match this criteria.

Changing the maximum age for the first split will automatically adjust the age range for the next one. Changing “And above” for the second split to an actual age, will automatically add a third split. From there, “And above” may be adjusted to an actual age to add as many splits as are needed for the event. Changing the age range for any split after that will automatically adjust the ages of the splits above and below that one. If you expand the age range of any split to encompass the entire previous or following split, the unneeded split will be automatically deleted.

Save the created splits using the Green “Save Splits” button. **Do Not** click on the Red “Generate Events” button until you are ready to create permanent events from the splits.

4.2.6.3. Configuring Splits

The general configuration of splits will conform to the parameters that were set for the event. However, the tournament director may add other limitations to each of the age groups to control the registration process.

1. Max TMS – the maximum number of teams allowed in that age group.
2. Max Wait – the maximum number of teams allowed on the waiting list.
3. Allow Older – Check this to allow older players to play down into the age group.
4. At least 1 must be in age split – Check this to require that at least one of the partners fit into the age range. If it is not checked, teams of any age will be permitted to register as long as the Allow Older option is checked.

Save the created splits and the configuration using the Green “Save Splits” button. **Do Not** click on the Red “Generate Events” button until you are ready to create permanent events from the splits.

4.2.6.4. Creating Splits When Teams are Already Registered

If an event was set up as a skill level event with no age group splits, the Tournament Director may use the manage splits function at any time, either during or after the registration period, to split the event into age groups. If this is done during registration, all future players/teams will register for their age group within the event.

Select Manage Splits from the event and add one split. The first one year age group will be created and players will be placed into the remaining age group.

4.2.6.4.2. Manually Moving a Player or Team to a Different Age Split

In some cases, Tournament Directors might want to move a team or player up or down to a different age split. To do that from the splits menu, click on the “Move Player To” menu next to the team name and select the age group to move to.

The screenshot shows a web interface for moving players or teams between age splits. At the top, a blue header bar displays '40 - 64' on the left and 'MT: 2 of Unltd | MW: 0 of Unltd' on the right. Below this, a 'Move to:' dropdown menu is open, showing a list of age groups: a top section with a hyphen '-' and an upward arrow, a middle section with a vertical line '|', a blue bar with a hyphen '-', and two bottom options: '10 - 39' and '65 - And above'. To the right of the dropdown, two team entries are visible. The first entry shows '[52] [3.25] Cranshaw, Maddox' and '[71] [3.75] Dylan, Nancy' with a 'Team rating: 3.425'. To the right of these names, the text 'Original group' is followed by '-1 Only' and '(S) 3.5 Only'. The second entry shows '[71] [3.25] Termin, Ginger' and '[61] [3.75] Reich Sr, Kason' with a 'Team rating: 3.425'. To the right of these names, the text 'Original group' is followed by '-1 Only' and '(S) Any'. At the bottom, another blue header bar displays '65' on the left and 'MT: 3 of Unltd | MW: 0 of Unltd' on the right.

4.2.6.5. Finalizing Split Settings

Split settings must be saved but are not permanent and can be modified by the Tournament Director at any time. Once the Tournament Director is satisfied with the split settings, the actual tournament events can be generated. This is usually done at either of the following times:

1. When the events are set up for the tournament. This allows the Tournament Director to quickly create empty Skill Level/Age Group events. **Once events are generated, the age groups cannot be modified using the manage splits function.**
2. When registration closes and the Tournament Director wants to finalize the age splits. This must be done prior to verifying the tournament brackets.

4.2.7. Special Tournament Formats

Certain Organizations have regulations about how the tournament should be structured and how results should be reported. These include national sanctioning bodies and other national or regional organizations. This section of the manual will cover the procedures for setting up tournaments that conform to their specifications.

4.2.7.1. National Senior Games State Qualifying Tournaments

The National Senior Games are held every other year in summer or fall of the odd numbered years. State qualifying takes place in the previous even numbered year. States are permitted to format their tournaments as they wish and state qualifiers can be single or double elimination or round robin events. However, the National Senior Games requires states to report results in a specific format and to limit qualifying from their tournaments in certain ways. The following pages will cover the best methods for setting up state qualifying tournaments that conform to the National standards.

4.2.7.1.1. National Senior Games Regulations

A full listing of the National Senior Games Regulations governing Pickleball can be found on their website here:

[National Senior Games](#)

These are the specific parts of the regulations that govern the setup of a qualifying tournament.

1. Age Groups – Qualifying is by five year age groups starting at age 50. Age is calculated based on the last day of the **qualifying year**.
2. Skill Levels – Skill levels for the National Tournament are Division I, 4.5 and above, Division II, 4.0, Division III, 3.5 and Division IV, 3.0 and below. Directors of state qualifying tournaments are free to configure the divisions as they wish to conform to the needs of their player population. However, at the national tournament, all qualifiers will play in the National Tournament division that covers their skill level at the time of the tournament.
3. Players must play at the skill level of the higher rated player and the age of the younger player. **A team of two older players may not play down into a younger age bracket.**
4. The top four teams in each skill level/5 year age group in every event will qualify for the National Senior Games.
5. There are four qualifying spots reserved for home state teams if they do not finish in the top four spots.

4.2.7.1.2. Tournament Setup

When you set up the tournament, make sure that the Require Full Address switch is turned on:

 Player full address required  Yes

* At the conclusion of the tournament, PickleballBrackets.com will create a results report that can be sent to the National Senior Games Association. They require the full mailing address of every player.

4.2.7.1.3. Event Set Up

National Senior Games qualifying events should be set up as Skill Level events. Age groups will be set within the skill level.

1. Create an event as a skill level event with an age range of 50 and above. It can be any event in the tournament such as Men's, Women's or Mixed Doubles or Singles.
2. Complete all of the setup information that you need to describe the event, it's format, dates, scoring, officiated status, partner registration deadline, etc.
3. **Do not enter Max teams or Max waiting list teams. Those will be entered separately for each age split.**
4. Enter the skill level and age information as shown here:

Skill

50 ▼

And Above ▼

5 ▼

Age splits used.
Lowest "From Age" available is 54

 Type a Custom Title ☐ No

Title

Mens Doubles Skill: (3.0 And Under) Age: (50 And Above)

 Sub Title

Division IV

 Third Party Code

Division IV

- Skill Level is required.
- The Title will be generated automatically.
- The Subtitle is not required but helps to further describe the event for registering players.
- The Third Party Code is required and must be in the format shown. The word "Division" followed by a space the Roman Numerals I, II, III or IV. This should correspond to the skill level of the event.

 The Tournament Director can limit registration to only the designated skill level if they like rather than the skill level and "under". That is a local decision and is not mandated by the National Senior Games Association.

At the top of the Event setup screen, make sure that the USA Senior Games buttons is turned on. Turn the Additional Medals buttons off.

 Additional Medals for Age? ☒ No ☐ Yes, 5 year spans ☐ Yes, 10 year spans

USA National Senior Event?  Yes
[Qualifier for USA National Senior Games. Help?](#)

 Save the event when you are done.

4.2.7.1.4. Adding Age Splits to the Event

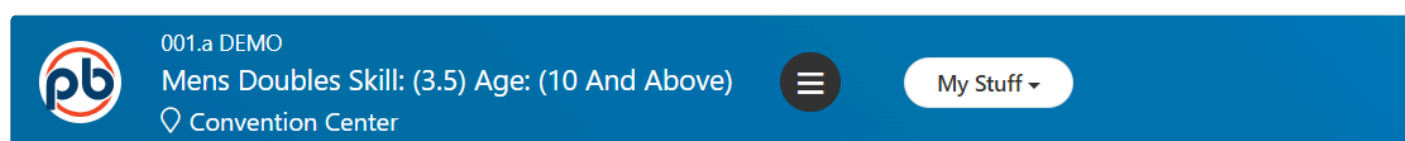

Age splits are added within the event after it is set up. Select **Manage Splits** on the left side of the screen.

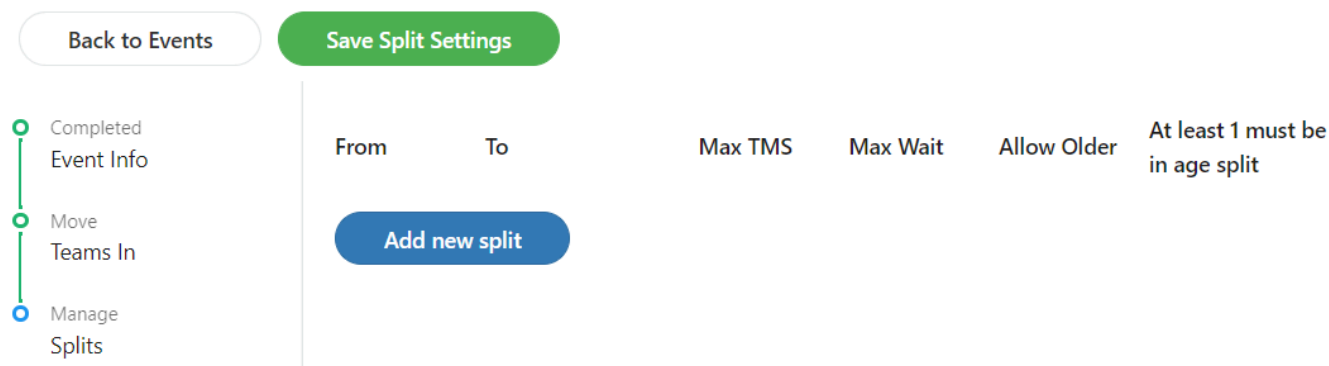

Click the  icon where shown on the form for more information about that field.

Click on **Add New Split**

Click the  icon where shown on the form for more information about that field.

The first split should be **Age 50-54**.

1. Select the Maximum Number of Teams for the Age Bracket.
2. Select the Maximum Number of Teams for the Age Bracket Waiting List
3. Click on the “Allow Older” box to turn it on.
4. Click on the “At least 1 must be in age split” box to turn it on.
5. Click on “Save Splits” again.

! The National Senior Games does not allow a team to play down in age unless one of the players is in that age group.

! Do **NOT** click on the Red Generate Events button.

4.2.7.1.6. Creating the Remaining Events

After creating one event, with all of the age splits already listed as part of that event, copy that event to create your remaining events.

When you copy an event, remember to change these settings:

1. Change the type from disabled to active.
2. Change the skill level.
3. Change the player group.
4. Change the format.
5. Change the date.
6. Change the title of the event.
7. Change the Division.

Save the changes.

Do NOT click on the Red Generate Events button.

4.2.7.1.7. Generating Events

Once all age splits are set, the next step is to generate your events. The events may be generated before registration opens or after registration closes.

Either option will allow players to sign up in the correct age/skill event for the tournament.

For each event:

1. Edit the event.
2. Select Manage Splits from the menu on the left.
3. Click on the Red Generate Events button.
4. Generate events for all age splits.

You may not manipulate split settings once events are generated. When registration closes, you will be able to combine age groups and skill level groups to create playing brackets.

4.2.7.1.8. Merging Skill Levels

For small brackets, you may need to take the next step of merging skill levels together. This will create a merged bracket for playing purposes. Senior Games qualifying and medals will still be awarded based on the original Division/ Age group that the player signed up for.

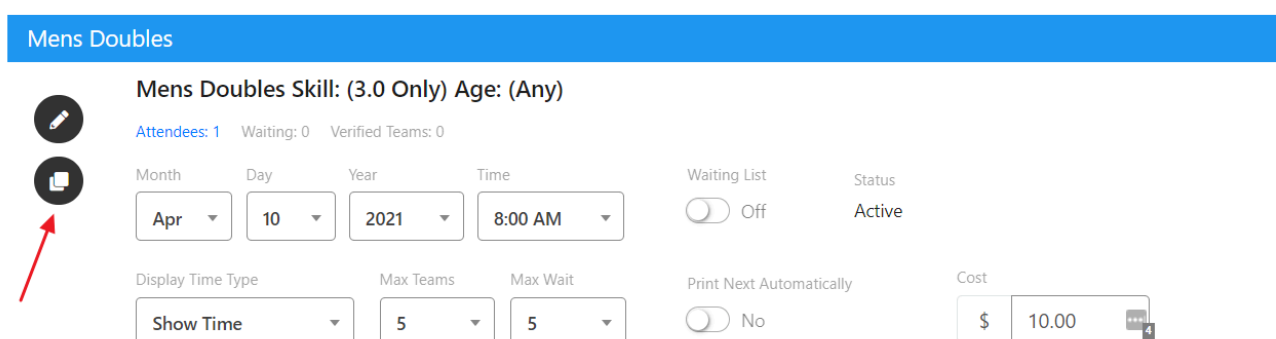

! Do NOT move players from one event to another. Merge the brackets to combine players.

Merging Events – Merging events will combine all players from two or more events into a new one. The old events will no longer display on the public site.

! Merging events should take place after registration closes. If a player or team registers for a merged event, and you later unmerge that event for any reason, they will be left in the merged event and will have to be moved manually. The merging process keeps track of the original event to facilitate the awarding of multiple sets of medals.

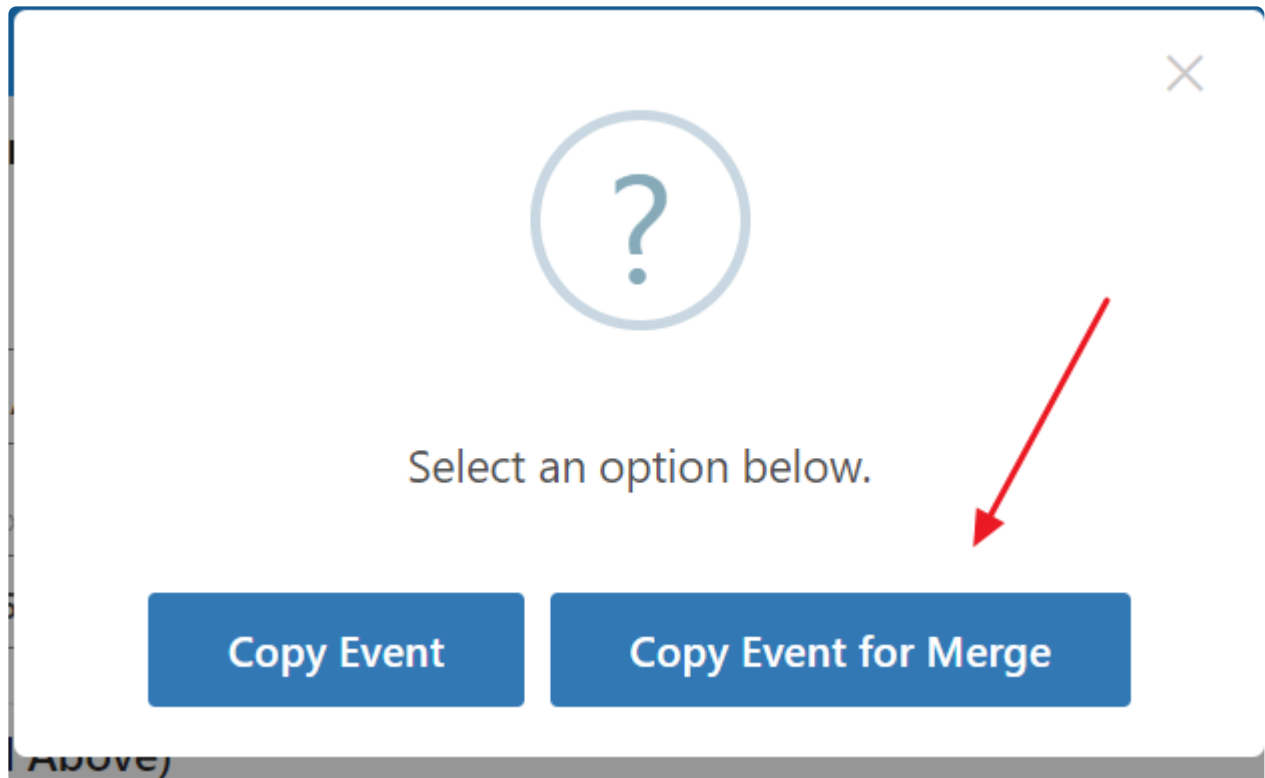

To Merge Events:

- Scroll down to one of the events to be merged and click on the copy icon.

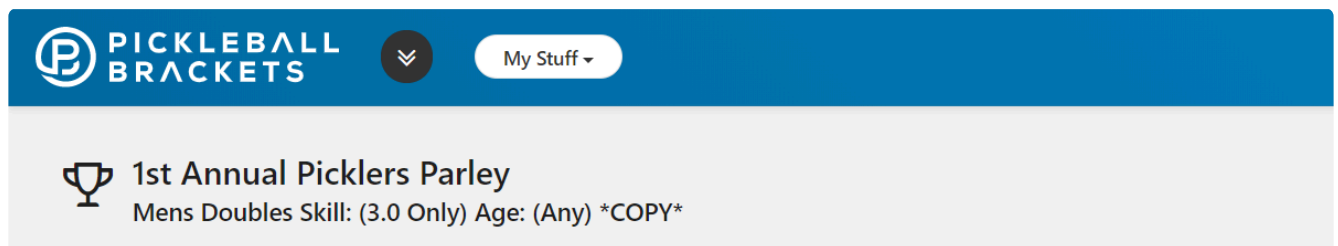

The screenshot shows the 'Mens Doubles' event page. At the top, there is a blue header with the text 'Mens Doubles'. Below this, the event title is 'Mens Doubles Skill: (3.0 Only) Age: (Any)'. Under the title, it says 'Attendees: 1', 'Waiting: 0', and 'Verified Teams: 0'. There are two circular icons on the left: the top one is a pencil (edit) and the bottom one is a document with a plus sign (copy), which is highlighted with a red arrow. The event details are displayed in a grid-like format: 'Month' (Apr), 'Day' (10), 'Year' (2021), 'Time' (8:00 AM), 'Waiting List' (Off), 'Status' (Active), 'Display Time Type' (Show Time), 'Max Teams' (5), 'Max Wait' (5), 'Print Next Automatically' (No), and 'Cost' (\$ 10.00).

- Select *Copy Event for Merge*

This will create a new event with the same configuration as the copied event with some extra options on the sidebar menu.

Click the  icon where shown on the form for more information about that field.

- Edit the parameters of the new event to reflect those needed for the merged group of players.
- Select **Save and Proceed Next**

This will bring up a screen with a list of potential events to merge based on your parameters.

The screenshot shows the 'Merge Events' screen in the Pickleball Brackets application. At the top, there is a blue header with the 'PICKLEBALL BRACKETS' logo, a menu icon, and a 'My Stuff' button. Below the header, a grey banner displays the event title '1st Annual Picklers Parley' and its details 'Mens Doubles Skill: (3.0 Only) Age: (Any)'. A navigation bar contains 'Cancel' and 'Merge' buttons. On the left, a sidebar lists 'Event Info', 'Merge Events' (highlighted), and 'UnMerge Events'. The main content area is titled 'Merge Events' and includes instructions: 'ONLY events that have not started the verification process can be merged. To change the verification status go to the LIVE CONSOLE and select "Start Over" on the option for the event you need to merge. This will reset the event so it shows in the list.' Below this, two event cards are shown, each with a 'Don't Merge' checkbox and a person icon. The first card is for 'Mens Doubles Skill: (3.0 Only) Age: (Any)' and the second is for 'Mens Doubles Skill: (3.0) Age: (60 And Above)'.

To change the verification status go to the LIVE CONSOLE and select "Start Over" on the option for the event you need to merge. This will reset the event so it shows in the list.

<input checked="" type="checkbox"/> Merge	 Mens Doubles Skill: (3.0 Only) Age: (Any) Mens, Doubles, Round-Robin, Age: (Any) Skill: (3.0 Only)
<input checked="" type="checkbox"/> Merge	 Mens Doubles Skill: (3.0) Age: (60 And Above) Mens, Doubles, Round-Robin, Age: (60 And Above) Skill: (3.0)

- The new event will show on your list of events with a Green link symbol. The original events will be hidden from the event list and will be automatically switched to inactive status.

* Turn on the Hiding switch at the top of the event list to view the hidden events.

* Events may be unmerged by editing the newly merged event and selecting the **Unmerge Events** option on the left side menu bar.

4.2.7.1.9. Adding Players or Teams After All of the Previous Steps are Completed

There may be situations where you need to add players after you have finalized all of your events. These are the steps to complete that process.

1. If the event is a merged event, edit the event and unmerge it using the unmerge option on the left side of the screen.
2. Add the new player to the correct event by editing their registration on the attendee screen.
3. Merge the events again.
4. If the event is not a merged event, add the new player to the correct event by editing their registration on the attendee screen.

Do NOT move players into events using the move players in option on the menu.

4.2.7.1.10. Final Results

Medals – When completed, medals for each event will automatically be calculated. If the event is a single 5 year skill/age group, no further steps are needed. If the event was a merged event, created by merging either different age groups or skill levels, medals can be awarded for each of the original brackets using the procedure for Assigning Additional Medals. Click [Here](#) for complete instructions.

NSGA Senior Games Report – When the tournament is locked, a report of qualifiers may be printed from the reports menu for doubles, mixed doubles and singles. The report is an Excel spreadsheet in the format required by the National Senior Games. Download the reports to send to the National Senior Games office.

Review each report before forwarding. There may be players listed without a Division if they were manually entered after events were generated and merged. The tournament director may edit the spreadsheet to add any missing data.

4.2.8. Pre-Registrations

Tournament directors can allow selected individuals to pre-register for the tournament before general registration opens.

Players who you might want to grant a pre-registration privilege could include;

1. Members of your club
2. Tournament volunteers
3. Special invited guests such as pros, clinic presenters or vendors
4. Medal winners from a prior tournament

Select **Pre-Registrations** from the Main Menu to invite players to pre-register.

Pre-registered players will not show up on the tournament player list until general registration opens.

4.2.9. User Defined Fields

Tournament Directors have the ability to create a variety of different types of user defined fields. These fields can be used for tasks such as:

1. Collecting T-shirt sizes
2. Collecting payments for extra items associated with the tournament such as lunches.
3. Allowing players to enter any information required by the tournament that is not on the registration form
4. Collecting donations
5. Adding items or services such as clinics that both players and non-players may register for.

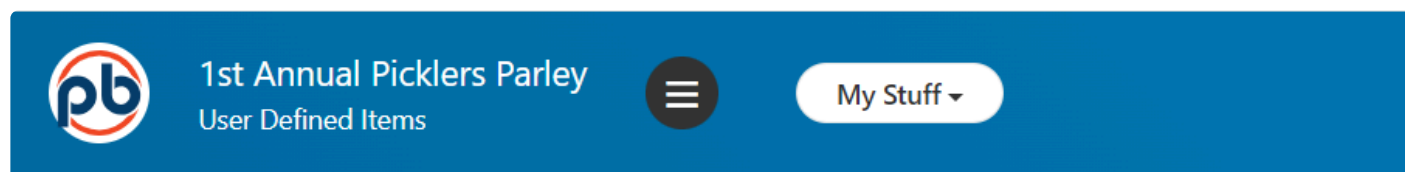

User Defined Fields are a powerful way to add your own required or optional items to each registration, thus making the process an all-inclusive one that can completely manage all tournament details and finances.

The following pages show a complete rundown of **User Defined Field** options and setup procedures.

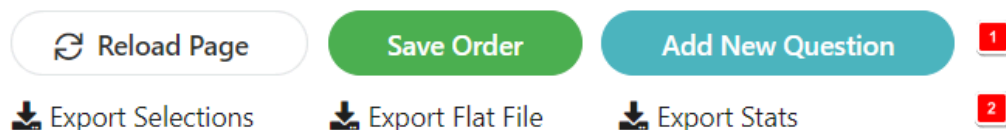

1st Annual Picklers Parley

[Register for Tourney](#)[Be a Referee](#)[Be a Volunteer](#)[Tourney Dashboard](#)[Edit Tourney](#)[Events](#)[User Defined](#)[Attendees](#)[Planner Snapshot](#)[Pre-Registrations](#)[Referees](#)[Volunteers](#)[LIVE CONSOLE](#)[Messages](#)[Manage Location Courts](#)[Manage Event Court Counts & Start Times](#)[Daily Planner](#)[Reports](#)[Kiosk Pages](#)

4.2.9.1. Adding Questions

Click the  icon where shown on the form for more information about that field.

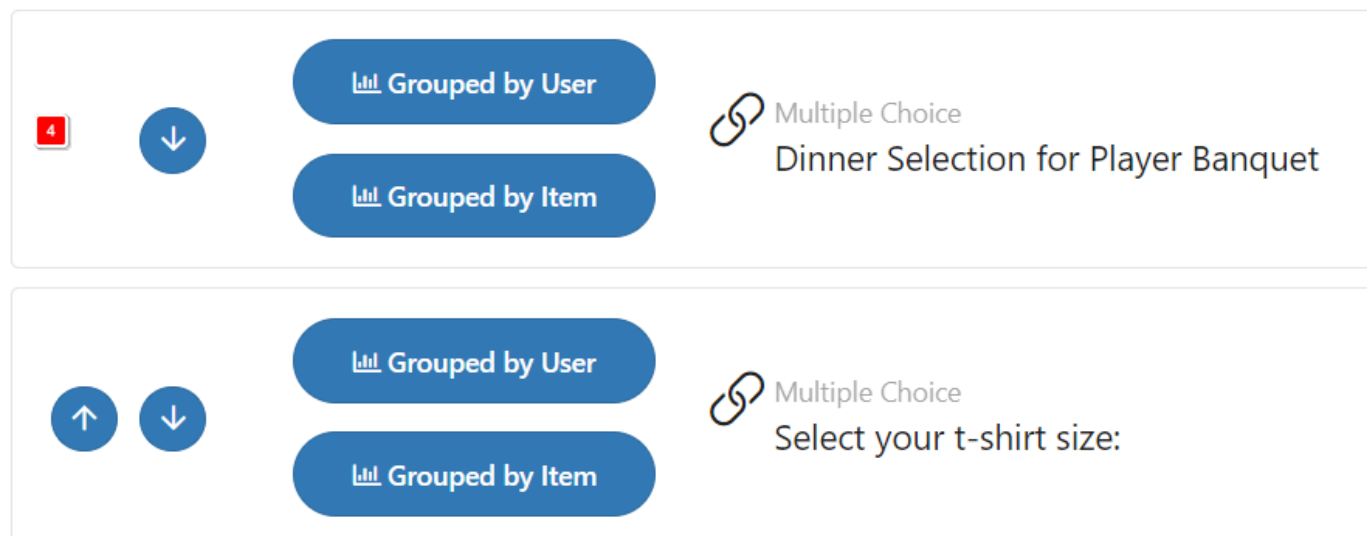

If you allow guests to purchase items you can specify the text on the button they click from the detail screen. **30 characters max**

Display Order

Reports

Click on question below to edit it

This screen will appear when you select User Defined. If you have already created User Defined questions they will appear on the list and you can click on the question to make changes. From here, you have the following options:

1. Add and Save new questions.
2. Export the current responses to either a spreadsheet or a summary pdf file.

These exports can also be generated from the main Reports Menu for the tournament.

3. Change the default text message on a purchase button for guest purchases.
4. Change the order of questions and/or how they are grouped on reports..

4.2.9.2. Question

1. **Active** – Do you want this question to appear on the registration? Switch to **Inactive** to turn it off.
2. **Question to Ask** – This is where you type your question details. It can be as simple as T-shirt size or as complicated as a full description of a dinner menu that players can select when registering. Whatever you type here will show on the registration screen and on player receipts.
3. **Question Shorthand** – Shortened version of the description to be used as a column heading for reports.
4. **Additional Required Fee** – Use this for any MANDATORY fee that every player has to pay in addition to any registration fees. This might include such items as a referee fee or parking fee.

 If this item or questions is optional and has a fee attached, or if the fee depends on the configuration of the item selected, such as t-shirt size or menu selection, **DO NOT SELECT THIS**. Those fees are configured during the question and answer setup process for the item.

5. **Date Question Hides on Registration** – This is the date when you no longer will allow players to answer the question. You can use this for items that must be ordered in advance such as t-shirts or meals. Players registering after that date would not have the ability to select that item.

- ☐ LIFE TIME Pickleball
- ☐ Georgia Pickleball Association
- ☐ Pickleball Australia Association
- ☐ World Pickleball Federation

Ratings to use at the time of registration

Pickleball Brackets will select their ratings / skill based on the order given below.

If none of the choices produce a rating / skill then the system will use their "Self Rating / Skill".

- 1st Choice
- 2nd Choice
- 3rd Choice

Additional Info

- ☐ Sun City Hilton Head Pickleball Club Members Only
- ☐ Count Games Toward Sun City Hilton Head Pickleball Club Ratings

Affiliated to Partners

If this tournament is affiliated to one of our partners you can specify that here.

- ☐ Pickleball Is Great
- ☐ True North Pickleball Tour

Each Sanctioning Organization has it's own requirements and application

process. Select the organization and Save the page. Once the page is saved, click on the Pending button to request sanctioned. Once the organization approved your application, the pending designation will change to Approved.

Some organizations will automatically attach the appropriate pending or approved logo to your tournament listing.

You may also select the priority order you wish to use to check player ratings. If none of the selected options produce a rating, then the self rating will be used. If the primary selection is the PickleballBrackets.com tournament rating, an additional option will show allowing you to choose if you'd like to use the Senior Rating for players 50 and over instead of the overall rating.

The Senior Rating will only be used for bracket placement if the following criteria are met:

1. The player is 50 years of age or over
2. The bracket they are playing in is designated as Senior Amateur or Senior Pro.

For USA Pickleball Sanctioned tournaments, the UTPR is automatically selected as the first rating option.

Tournament Directors can add referees directly and can also add a referee button to the main screens. Click the Referee selection on the tournament management menu to get to this screen. The tournament director can create a referee time slots for sign up. If no time slots are created, referees can sign up on a general list.

The referee list can be sorted by date and time or by area/task.

There are two referee reports available to the Tournament Director from the reports menu. Both are created in spreadsheet format and can be edited and sorted as needed.

1. **Referee Stats** – Shows the number of referees, line judges and backup referee for each time slot.
2. **Referee Signups** – Lists the Names, times, areas and contact information for every referee, backup referee and line judge.

Each referee that is added to the tournament will have a unique QR code that can be printed. The QR code allows the referee coordinator to use a scanner to quickly assign referees to each match.

4.2.12. Managing Registrations

Managing Your Tournament Registrations

Once your tournament registration period has opened, you will have to manage the registrations. The amount of registration management required will depend upon the registration options you selected.

1. **No Online Registration** – With this option, all registrations and payments are through the mail or some other physical method. The tournament director will have to enter all information for every player and all payments.
2. **Online Registration Without Online Payment Processing** – With this option, players are able to register online but either send their payment or bring it on the day of the tournament. The tournament director will have to enter payments as they are received.
3. **Online Registration and Payments Without Automatic Waiting List Management** – With this option, players are able to register and pay online. The tournament director will have to manually move players and teams to and from the waiting list based on event openings.
4. **Online Registrations and Payments With Automatic Waiting List Management** – With this option, the program manages all registrations and waiting lists.

✿ For all Registration Options, Tournament Directors have complete control and can add, edit or delete any player registration or guest payment.

! If you have allowed multiple payment options for your tournament, you will have to maintain payments that are not made online.

4.2.12.2. Attendee Screen

From this page, tournament directors may view, add and edit attendee records. This top portion of the screen includes options for locating and adding new players. A complete list of registered and withdrawn players follows.

1. **Filtering Options** – Use these options to narrow down your list to certain events, registration and payment categories. You may search for a specific player by entering the player name in the search box.
2. **Search** – Click here to initiate the search.
3. **Reset** – Click here to reset the search parameters.
4. **Export the List** – Click here to export the current list to an Excel file.
5. **Add a New Attendee** – Click here to add a new player.
6. **Update All Player Event Ratings** – Click here to update all current player ratings for all events to their current rating. This option will use the rating priority set by the tournament director under the Sanctioned, Approved and Ratings menu option.

! USE WITH CAUTION – This option cannot be reversed and may result in players registered in events that they no longer qualify for. It does not move players in or out of events. Depending on the total enrollment numbers, and the sanctioning level of the tournament, this process may take up to a half hour.

7. **Quick Search** – Click on a letter to narrow your search to players whose last name starts with that letter.
8. **Remove** – Click here to remove the current last name letter.

Add New Attendee

These are the situations where Tournament Directors would have to add players.

1. There is no online registration. All players would then have to be added by the Tournament Director from mail in or externally submitted registration forms.
2. If online registration is enabled, there are often player who do not have the ability or the access necessary to register on their own. Tournament Directors can add those players and their credit card information.
3. Before registration opens or after it closes online, Tournament Directors have the ability to add players.

✿ Be sure to have all personal information for a player handy before attempting to add them to your tournament.

Click the green **Add New Attendee** button to add a player to the tournament.

4.2.12.3.1. Add a Player Who Already Has An Account

Search Users

Search the system for users first.

Last Name, Email, or Phone

Search All Users

Many players have already created accounts with PickleballBrackets.com. The first step for entering a new player into your tournament is to search for an existing account. You may search by Last Name, Email Address or Phone Number. A last name or phone number search may return a list of players. An email search will only return the name of one player.

Search Users

Search the system for users first.

Last Name, Email, or Phone

Event selection is the next step in the process of adding a player to the tournament.

The screen displays the basic information about the player, including skill levels and playing age, at the top.

The registration date is automatically generated when attendees register themselves. When a tournament director enters a registration they can select a registration date. By default the current date is selected. This feature is available for times when a paper registration is submitted and entered afterward and you wish to record the actual date that the registration was sent.

Only the events that this player is eligible for will display on the screen. Select events by using the drop down menu to switch from No to Yes for the events the player is entering. If an event is full, that fact will be shown and the Tournament Director will be able to put the player on the waiting list.

Tournament Directors may override the maximum limits for an event and place the player directly in to a full event.

If a player has been selected as a partner by someone else, the partner name will show and the default on the selection menu for that event will be **Yes** instead of **No**.

Choose the events for this player and hit the green **Next** button to continue.

If a partner is needed for any event, this screen will come up after you choose the player events.

In this case, a partner is needed for two of the events. For Women's Doubles, a partner was pre-selected, so her information is shown and a partner search is not required. Click the blue **Edit** button to change that partner.

A contact button will displayed on the tournament event player list next to the name of anyone who needs a partner.

For other events that require a partner, check **I HAVE** if the player has named a partner or **I NEED** if the player is registering without a named partner. Click the green button to find the named partner. Why search first? If the person already exists in our system, the player selection process is faster if you look for them first. If the player is not already in the system, you will be able to enter them manually.

This box will appear to allow you to search for the partner.

Notice that it lists the gender, skill level and age qualifications needed for a match. Type the partner last name and click the blue search icon.

Search for Your Partner

Mixed Doubles Skill: (Any) Age: (65 And Above)

Partner must be:

Male Skill: Any Age: 65 And Above

Search by **Last Name**

The search results will then be shown.

Area Code

Phone

Save Partner Info

If the partner is not found, you can add the partner manually.

Click the blue **Enter Partner Manually** button to get this screen. Type the player's first name, last name and email address. If the tournament requires it, you will also have to include the player's phone number.

This does not enter the partner into the tournament or add them to the PickleballBrackets.com database of players. It only names a partner. The partner's email address will be used to contact them and let them know that they have been selected. Whether a partner is matched up as part of a search or entered manually, they still have to register on their own for the tournament.

- Attendee Menu** – This is a scroll down menu that shows all of the options for maintaining player registrations. (shown as two images) Use the blue vertical scroll bar to move up and down the menu.

- ✿ Edit a player registration to add or change their events or partners. To change an event, select the new event and delete the old event if necessary. To change a partner, click on the "Edit" button when you get to the partner selection page.

Attendee Menu Options:

- **Edit Registration** – Change any part of the registration record for this player.

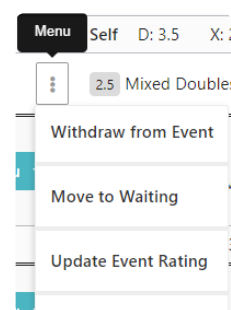

✿ If you **Edit a Registration**, be sure to continue to the end of the process to save your changes. Changes are not made until the printed receipt shows on the screen.

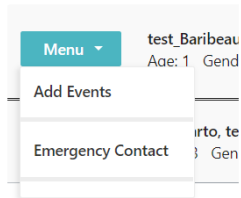

- **Payment History** – View the payment history for this player.
- **Record Payment/Refund/Discount** – Will show any of these options depending on the payment status of the player.
- **Messages** – Show a list of all message that have been sent to the player.
- ***Send Email*** – Send an individual email to this player.
- **Send Text** – Send an individual text message to this player. (only available if text messaging is turned on for the tournament.
- **Give Refund (Stripe Only Option)**
- **View Receipt** – View the most current receipt for this player.
- **Update All Ratings** – Will update all of the ratings for this player for all of the events that the player is currently registered for. The rating used is based on the tournament setup option.
- **Emergency Contact** – View the emergency contact information for this player.

! If registration fees were collected through PayPal, the refund is issued through the PayPal account and will be automatically recorded here. If registration fees were collected through Stripe, refunds are issued here using the “Give Refund” option. Selecting “Record Refund”, allows you to record a refund that was issued outside of the program. This does not actually issue a refund to the player.

2. **Withdraw** – Click here to withdraw a player from the tournament.
3. **Ratings** – This shows the current ratings for this player. Self, WPR (World Pickleball Rating) and PBR (PickleballBrackets Rating) are always shown. Ratings of other sanctioning bodies are shown based on the tournament sanction status and settings. The current selected default rating selection is highlighted in green.
4. **Player Event Menu** – The menu shows the options for updating this event for this player.

- **Withdraw From Event** – Will withdraw the player from this event only. If this is the only event the player is registered for, they will also be withdrawn from the tournament.
- **Move to/from Waiting** – Will move the player onto or off of the waiting list for this event.
- **Update Event Rating** – Will update all of the ratings for this player for this event **only**. The rating used is based on the tournament setup option.

- Withdrawn Player Menu – This menu shows the event options for a withdrawn player.
- Add Events
- Emergency Contact

5. **The Rating for this Player in This Event**
6. **The Name of the Event**
7. **The Partner and their Rating in This Event**
8. **The Date that the Player Registered for this Event** – If the player is currently on a waiting list, the waiting list date will also show.
9. **Withdrawn Info** – This shows the date and time that the player withdrew and the name of the person who withdrew them (either one of the tournament directors or the player themselves) If the player has user defined selections that were not deleted upon withdrawal, the word “Nonregistered” will appear with a gray background.
10. **Current Payment Status** – PD – Amount Paid, DC – Discount, RR – Refund, Owe – Amount Owed (Shown in red if a payment is due. Will be shown as a negative number if a refund is due.)

Refunds are shown for all players who withdraw from the tournament or from an event that has a fee. The decision to issue a refund is always based on the individual tournament policies.

4.2.12.5. Using the Simulator

The Simulator allows tournament directors to plan the daily schedule and to estimate maximum capacity for each event based on court availability. It can be run at any time during registration and will give an accurate visual display of court utilization for both the actual number of registered players and teams as well as future projections.

4.2.12.5.1. Simulator Options – Round Robin

The screenshot shows the 'Simulator Options' page for a Round Robin event. At the top, there's a blue header with the PB logo, '001.a DEMO Simulator Options', a 'My Stuff' button, and a 'HELP' link. Below the header is a navigation bar with buttons: 'Save this Day', 'View Schedule', 'Start Time Settings', 'Print Start Times', and 'Copy Settings to Live Events'. A note states: 'This page allows you to configure test scenarios for your event setups. The settings on this page will NOT override the original event settings. All results are estimated and may vary from actual tournament play.' The 'Event Date' is set to 'Fri Dec 09, 2022'. A blue bar indicates 'Fri Dec 09, 2022 9:00 AM'. The main form is titled 'Mens Doubles Skill: (3.5) Age: (Any)'. It includes sections for 'Court Assignment Type' (Designated, Next Available), 'Bracket Format' (Round-Robin), 'Start Time' (9:00 AM), 'Round Robin' (20), 'Winner' (50), 'Bronze' (25), 'Gold / Silver' (50), and 'Include?' (YES). There are also options for '# Teams to Test' (12), '# Courts Needed' (4), '# Round Robins' (Single), '# Pools' (2 pools of 6 - Total Playing Matches: [30]), and '# Teams to Medal Bracket' (4). At the bottom, there are options for 'Medal elimination bracket?' (Single, Double) and 'Custom Medal Round Option' (NO custom settings, 1st and 2nd seed play for Gold/Silver and 3rd and 4th seed play for Bronze, No bronze medal match). An 'Update LIVE Event?' switch is set to NO.

Simulator Options and How they Work – Round Robin

1. **Save this Day** – This button is used to save your changes.
2. **View Schedule** – View the generated planner with this button. To open the planner in a new window, hold the Ctrl key down while clicking the button.
3. **Start Time Settings** – Actual start times calculated by the Simulator may differ from the times shown on this screen due to time and court number restrictions. Click here to update the Simulator and Event listing with the calculated times. (the next section of the manual explains the update process)

! Simulator settings, including all start times, are used to verify events and to create the final Daily Planner schedule. Do not skip this step unless you are sure that your calculated schedule matches your planned Simulator schedule.

4. **Print Start Times** – Print a copy of the start times as shown on the simulator schedule.
5. **Copy Settings to Live Events** – Click here to save your planner settings to the event record. This will save the time, maximum number of players, court type and number and playoff format (if any).
Settings will only be saved for events that have been saved with the Update Live Event switch turned on. (No. 21 below)
6. **Event Date** – If your tournament runs on multiple days, select the date for the snapshot planner here. Each day must be planned separately.
7. **Location** – If your tournament is being held in multiple locations, select the location for the snapshot planner here. Each location must be planned separately.
8. **Court Assignment Type** – The program can assign the next available court as the event progresses or the tournament director can assign blocks of courts to specific events. Your choice here will determine how the program will calculate the schedule.

9. **Bracket Format** – You can specify Round Robin, Single Elimination or Double Elimination. Some of the options shown will change for different formats. This screen shows Round Robin options. Single Elimination and Double Elimination will be shown on the following pages.
10. **Start Time** – What time do you anticipate starting this event? You can leave the same morning start time for all events and the planner will schedule them starting with the largest event. Or you can designate a start time and the planner will start the event at that time or at the next available open time.
11. **Estimated Time for Each Match** – This is critical for successful planning. Use a reasonable estimate based on the scoring format, size of the facility (players may need more time to get on court in a large facility), and whether or not matches have referees. Don't forget to build in time for warm up and time outs.
12. **Include?** – Select Yes to include the event when you run the planner. Select No to exclude that event.
13. **Registered Teams** – This shows the actual number of teams currently registered for the event. Both – in a doubles or mixed doubles event, the number of teams where both players are fully registered. Only One – the number of teams with only one registered player. WL Both – Waiting list teams with both players registered. WL Only One – Waiting list teams with only one registered player.
14. **Teams to Test** – You can use the actual number of teams listed above or increase or decrease the number to test the scheduling impact of the number of teams combined with the format you have chosen. This is a powerful tool for estimating event capacity based on the number of courts and maximum time available for the tournament.
15. **Number of Courts Needed** – For a round robin event, this is the number of courts needed for each round of play. Ideally you would want enough courts for no more than one bye per round. You can specify fewer courts here and the planner will use only that number to schedule the event. **For Next Available scheduling, this number will default to 1 since the Simulator controls how courts are assigned.**
16. **Rounds** – For smaller brackets, you may want the teams to play each other more than once. Select the number of rounds here.
17. **Number of Playing Pools** – Large round robin events can be split into playing pools.
18. **Teams to Medal Round** – If you want the top teams to advance to a playoff round following round robin play, you can specify the number of teams to advance here. A minimum of three teams is required. If there is more than one pool, this number is the total number of players to advance from all pools.
19. **Medal Elimination Bracket Type** – Your elimination bracket can be configured as either single or double elimination.
20. **Custom Medal Round Option** – Choices will depend on the number of teams advancing from each pool and the type of medal round being played.
21. **Update Live Event** – Set this to Yes to automatically update the event parameters for this event based on these saved planner settings when you click on the Copy Settings to Live Events button (No. 3 Above)

The Simulator can be run at any time. It's results are not visible to the public.

This page allows the Tournament director to automatically update either the Event record or the Simulator or both with the actual times that were calculated by the simulator.

! Simulator calculated times may not match the times that were used to plan the schedule. This can happen if there are not enough courts or time slots available to start events at the planned time. In those cases, the simulator will move the start time to a later time.

1. This column shows the start time that the Simulator calculated for each event.
2. This column shows the start time that is currently listed on the event record. Click on the copy icon here to transfer the all of the calculated times to the event records.
3. This column shows the start times from the Simulator. Click on the copy icon here to transfer all of the calculated times to the Simulator. This will allow the TD to update the event record later with all of the correct parameters from the Simulator, including the calculated start times.

! The event record is used to verify events, create draws and produce the final daily planner. To speed up this process and assure accuracy, event records should always be updated from the calculated Simulator schedule as the final step in the scheduling process. (See numbers 3 and 20 on the previous page).

Be sure to save this page when done.

Update LIVE Event?

☐ NO

Single Elimination events have fewer options than round robin events. You can specify different time estimates for regular games (Winner) and medal matches, if you are planning a different game format for the medal matches. Ideally, you should plan for enough courts to play all of the first round games at the same time.

Update LIVE Event?
☐ NO

Double Elimination adds a choice of formats. If you do not allow losers to play back into the winners bracket, the event will be shortened by three matches and the best the winner of the losers bracket can get is a Bronze medal. Another option is to award the Bronze medal from the winners bracket, shortening the bracket by 4 matches.

4.2.12.5.5. Viewing the Simulator

When you click on the **View Schedule** button after you save all of your options, this is what you will see. It is a graphic representation of the day showing each of the matches that are scheduled. Notice that, in this case, court 1 is blocked out since it was specified as “not available” from 8:00 AM to 10:00 AM.

When you are satisfied with your schedule, you may choose to update that day’s event records to reflect the actual start times and format parameters shown by the planner.

- ✿ If you are testing multiple scheduling scenarios, you can have one browser window open for setting up your schedule parameters and a second window open for view them. If you do that, you do not need to click on the **View Schedule** button each time you save the day. Simply switch from the planning window to the viewing window and reload the page to see the latest version of the schedule.

4.2.13. Preparing the Tournament to Run

After Registration Closes

Once registration closes, there are usually multiple steps needed to prepare the tournament to run. The next section of this manual outlines those steps.

4.2.13.1. Moving Players and Teams

Moving Players and Teams

! If an event has age group split settings, those settings should be used to manage the size of playing brackets as long as the events have not been generated. **DO NOT MOVE PLAYERS OR MERGE TEAMS** for events that have age group split settings.

There are often events that have to be either combined or split in order to create appropriately sized playing brackets. There are two methods for combining brackets.

- Moving Players
- Merging Events

! If you plan to award medals based on the event that the players originally registered for, you should Merge Brackets. If medals will be awarded based on the results of the newly combined event, you may use either method.

* If you choose to move players, be sure to turn off notifications for the tournament before any moves if you don't want players to be immediately notified about changes.

Moving Players – To move players, first [create the event](#) you want to move them to if it does not already exist. Once the event is created, you may use the Move Players In option on the Event Setup Screen to select the players to move. Click [Here](#) for directions.

Once all players have been moved, be sure to turn notifications back on. [Click Here for directions.](#)

4.2.13.2. Merging Events to Create Playing Brackets

Merging Events – Merging events will move all players from two or more events into a new one. The old events will be hidden on your event list and will no longer display on the public site. This option can be used to merge any event with any other similar event (mixed doubles, men's or women's singles or doubles) **Use this to merge different skill levels into one playing bracket.**

! Merging events should take place after registration closes. If an event was set up with age splits for registration, the events must be generated from the age splits before they can be merged.

! If you add a team to a merged event, the system will not be able to identify any original event for that team. If you later unmerge that event for any reason, they will be left in the merged event and will have to be moved manually. The merging process keeps track of the original event to facilitate the awarding of multiple sets of medals. Additional medals cannot be awarded for any team that was added to a merged event.

To Merge Events:

- Scroll down to one of the events to be merged and click on the copy icon.

*** Events may be unmerged by editing the newly merged event and selecting the **Unmerge Events** option on the left side menu bar.**

4.2.13.3. Setting up and Managing Courts

In order to use the Simulator to or the Court Day Planner, you must first configure your courts. There are three court configuration steps.

1. **Managing the Location Courts** – Used to create the courts for each tournament location. Each court is assigned a unique QR code. Use the Print All Courts button to print those codes which may be used during the tournament to automatically assign matches.
2. **Managing Event Court Counts and Start Times** – Used to assign the number of courts needed for an event and the start time.
3. **Assigning Events to a Location and Courts** – Used to place events on specific courts.

This screen includes multiple options for managing your courts.

- The Tournament Menu** – Use this to move between different tournament management functions.
- Your Management Menu** – This allows you to switch between managing tournaments, leagues, clinics and organizations.
- Print Page** – Click here to print the current page..
- Generate Planner** – Use this to generate a complete schedule for each day of your tournament after you verify each event.
- Save** – Save all changes.
- Send Start Time Emails** – Click here to send start time emails and text to all players once the final schedule is created.
- Events to Show** – Select to show all events or only those events with registrations.
- Location Title** – Location titles are set up on the main tournament setup screen. If there is more than one location for this tournament, use the drop down menu to switch.
- Registrations** – The number of players registered for the event.

Page 417 of 707

10. **Teams** – The number of full and partial teams registered for the event.
11. **Pools** – For Round Robin events, the number of pools that have been created for the event.
12. **Matches** – The total number of matches. This is calculated when events are verified.
13. **Needed Courts** -Use this drop down menu to select the number of courts you wish to allocate to this event.
14. **Excluded Courts** – The default is to specify all courts for each event. Use this button to exclude certain courts from this event.

Available Courts 

By default an event is set to play on all courts.
 There are times when you want an event to only play on a certain set of courts. This may be because these are higher profile matches or not as high a profile matches.

6	<input checked="" type="checkbox"/> Yes

15. **Start Time** – This is the specified start time for the event taken from the event record. You may change it here.

4.2.13.3.2.2. Run the Simulator

The simulator should be run prior to posting start times and sending start time emails. Be sure to update all events and copy all parameters from the Simulator to the event record.

Click [Here](#) for Simulator directions.

4.2.13.3.3. Special Procedures for Preparing Qualifying Events

The next pages of this manual will explain how to prepare the Main Draw, Qualifying event, Consolation event and Bonus Draw to run. There are two sets of directions, one for Scenario 1 and a second for Scenario 2.

Click [Here](#) for a description of the two scenarios.

4.2.13.3.3.1. Preparing Scenario 1 Qualifying Events

Select Live Console from the Tournament Management Menu.

* NOTE: Events without teams will not show on the live console although they will show in the One Step Verify page (the next step in this process). So when you start the process there are no teams in the Qualifier, Consolation, or Bonus Draw events. That means they don't show in the live console. But when you go to the One Step Verify page they will show in the select box at the top.

1. Click One Step Verify
2. Select the Qualifier Event
3. Two events should show, the Qualifier event on the left, with no teams, and the Main Draw on the right.

Single & Double Elimination Events Only

	Lemonder, Jack Sign Up: 2.75 Self: 2.5 PBR: 2.75 WPR: -- UTPR: --	Team: 2.75	6	↓	→	←	6	↓	Team: 2.75		Guidi, Madden Sign Up: 2.75 Self: 2.5 PBR: 2.75 WPR: -- UTPR: --	

- When the page loads, above the main draw list, click the TBD select box and add the number of TBDs you need to the Main Draw. TBD teams are placeholders. Adding them here allows the TD to verify the event and generate a planner with the correct number of teams for the bracket.
- Sort the 2 lists the way you want the teams to be seeded.

NOTE: Teams will automatically be sorted by their team rating (unless this tournament is being run by an association that has a point system and that point system is integrated into our platform by Pickleball Inc)

- Click the green Save Team Lists button. The two events now have the correct number of teams and are ready to be verified.

The screenshot shows the Pickleball Brackets software interface. At the top right, there is a section for "Add TBD Players" with a dropdown menu set to "4" and a "Save TBD" button. Below this, it says "To be determined." and "Save team list before saving TBD." The main area is divided into two columns of player lists, each with a "Team:" label and a "Sign Up:" field. The left column lists players: Eberneese, Franklin (Team: 3.75), Bariletti, Damion (Team: 3.25), Kain, Zac (Team: 3.25), Chapin, Braydon (Team: 2.75), Hadburger, Greg (Team: 2.75), and Lemonder, Jack (Team: 2.75). The right column lists players: Giebfried, Vincent (Team: 3.75), Ingram, Hassmen (Team: 3.75), Jackson, Fosterman (Team: 3.75), Beecher, Andy (Team: 3.25), Dubois, Jarrett (Team: 3.25), Guidi, Madden (Team: 2.75), 41, TBD (Team: 3.25), 42, TBD (Team: 3.25), 43, TBD (Team: 3.25), and 44, TBD (Team: 3.25). In the center, there are ten numbered boxes (1-10) with arrows pointing left and right, indicating movement between the two player lists.

9. Verify the events using the normal verifying process or by clicking the Auto Verify button to initiate the [One Step Verify](#) process.
10. Although not required, you can select the Consolation (Points Draw) from the select box at the top and add the number of TBDs you'll use for this bracket. You can do the same for the Bonus Draw. This will allow you to run the daily planner. **Events must be verified to be included in the daily planner.**

! TBDs are not required for Main Draw, Consolation (Points Draw), or Bonus Draw events. Pickleball Brackets will automatically place the correct teams into these events based on the settings and automatically verify the events. TBDs are usually created for these events only so the correct bracket sizes can be used for the Daily Planner and so the public can see the brackets with TBDs in them.

Click [Here](#) for Directions for Running Qualifying Events.

4.2.13.4. Sending Custom Messages

PickleballBrackets.com has a built in, fully customizable, messaging system that allows Tournament Directors to create messages that can be sent to players based on their registration status and/or their event selection.

Click [Here](#) for complete Messaging System directions.

4.2.13.5. Finalizing Start Times

Finalizing Start Times

Most large tournaments and many small tournaments do not finalize the start times for events until all registrations are in and final event rosters are complete. PickleballBrackets.com provides multiple methods for communicating the final schedule to players. These include:

- Posting actual start times to the online tournament event listing.
- Posting the start times on the main tournament page
- Sending automated start time emails and texts to all players
- [Sending custom messages](#), including any tournament information you wish to communicate to all players.

The next few sections of this manual will detail each of these processes.

To show the start time on the Player by Event Listing on the tournament web site, you need to edit these two items in the event record.

1. **The Time of the Event** – Make sure that it shows the actual time you plan to start.
2. **The Display Time Type** – Use the drop down menu to change this to Show Time.

As you change each event, a Cancel Change button will appear and the Green Save Button will update with the number of events you have edited. Click on the Green button when done to save all of your changes.

The event header will now show the actual start time:

Mens Doubles		
Aug 15, 2022 8:00 AM	Mens Doubles Skill: (3.0 Only) Age: (Any)	
Max Teams: 5	Registered: 1	Waiting List: 0

4.2.13.5.2. Posting Start Times on the Main Tournament Page

! To post start times on the main tournament page, you need to edit the time of the event in the event record. See the previous page in this document for directions.

Once all of the times are changed, edit the **Tournament Settings** page to be sure that start times are being pulled from the **Event Record**, turn on the **Post Start Times Now** button and then save your changes.

? Start Times Pulled From ☐ Daily Planner ☒ Event Record

? Post Start Times Now ☒ Yes

* Start times may also be pulled from the Daily Planner. Complete directions for generating the Daily Planner will be covered later in this manual.

4.2.13.5.3. Sending Automated Start Time Emails and Texts

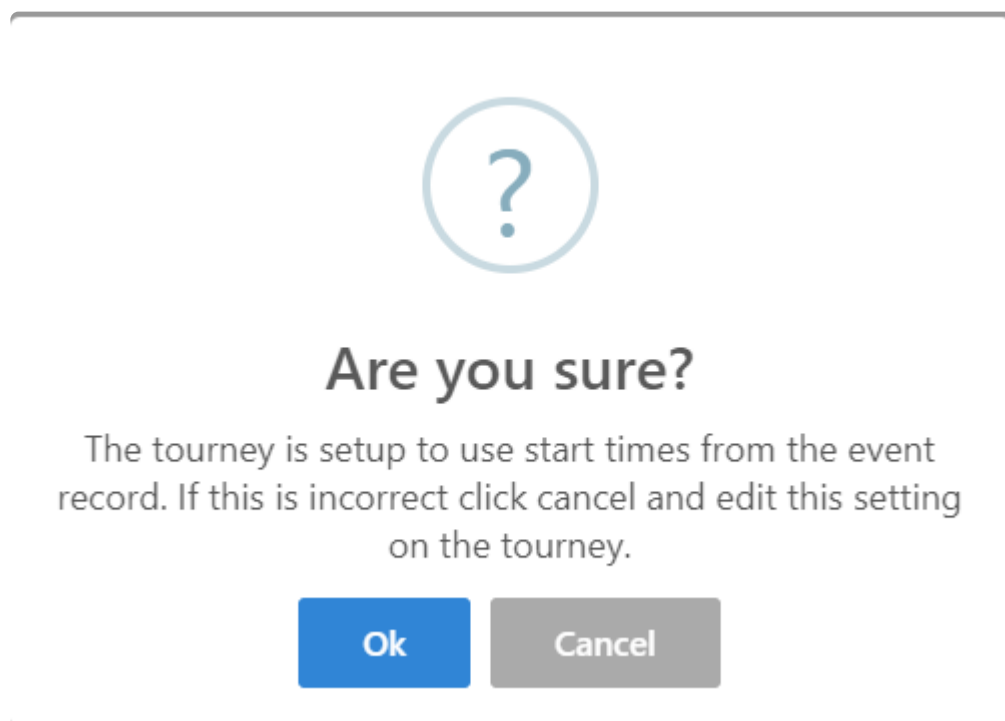

Click the  icon where shown on the form for more information about that field.

Save

Send Start Time Emails

Once the start times for events are finalized, you can have the system send global emails and text notifications to players. All players will receive an email. Players who opted in to text messages when setting up their profile will also receive a text. This is done from the Manage Event Court Counts and Start Times Screen. Click on the Send Start Time emails button. That will bring up the following screen:

This tournament is set to pull start times from the event record. Click OK to confirm that source and send

the notifications.

Start times may also be pulled from the Daily Planner if all events have been verified. Complete directions for generating the Daily Planner will be covered later in this manual.

4.2.13.5.4. Start Times in a Custom Message

The Messaging System can be used to alert players about event start times if desired.

Click [Here](#) for complete Messaging System directions.

4.2.13.6. Verifying Events

Once registration is finalized, all events need to be verified before the tournament can be run. Event verification will complete the following tasks:

1. Finalize the teams in each event.
2. Seed the teams.
3. Establish the playing format for the event including all of its parameters.
4. Publish the complete playing bracket matchups online for public viewing. Brackets can be viewed by clicking the **Draws and Results** option on the tournament details menu.

Players must be logged in to their PickleballBrackets.com account in order to view results.

Draws & Results

Access the Verify Events option from the tournament slide in menu by selecting Live Console.

Swap Team				
Remove Team				

1. From the Options menu on the left you may:

- **Swap a Player** – the player to be swapped in must have a pickleballbrackets.com account.
- **Remove a Team** – This can be done here or during the first step of the verification process. Removed teams will be removed from the event on the attendee list. If players on the team are only registered for that one event, they will be withdrawn from the tournament.
- **Text Players** – If texting is turned on for the tournament, select this option to send texts to players in the event.

Swapping a player from this page **DOES NOT** apply any validation to the players gender, skill, age, number of events registered for, or any other validation that is standard on the registration process.

1

Select a player you want to swap out:

<input type="radio"/>	Keep, Bob	M	3.5	61
<input type="radio"/>	Lancerman, Kevin	M	3.0	41
<input type="radio"/>	Lawrence, Brendon	M	3.5	49
<input type="radio"/>	Lazar, Enzo	M	3.5	71
<input type="radio"/>	Racter, Waylon	M	3.0	49
<input type="radio"/>	rasberry, raspberry	M	3.5	73
<input type="radio"/>	silver, silver	M	3.5	73
<input type="radio"/>	Student, Student	M	2.5	43
<input type="radio"/>	test Rarto, test William	M	3.0	74

2

Search and select the player you want to swap in:

Search

Remove the "swapped in" player from their current partner if they are already matched with someone in THIS SAME EVENT?

☒ Yes

This event has already started and **16 matches have been played.** What match do you want to start the "swapped in" player on?

17

2. From the Documents icon, you may print a list of all of the players by team.

4.2.13.6.1.2.1. Texting Players

If Texting is turned on, tournament directors have the ability to text players from the Live Console. Selecting the “Text Players” option on the menu will bring up the following screen.

Womens Doubles Skill: (3.5 And Under) Age: (50 And Above)

Go Back

Absolutely no content pertaining to CBD, Alcohol, Marijuana, or any substance what so ever.

In addition, there is to be absolutely no advertising used with this text service.

ALL messages are to be related to the tournament ONLY.

ANY violation will be an immediate termination of your tournament.

1	<input type="checkbox"/>	ALL

This page allows the tournament director to verify the teams that will play in the event. It also includes information about the event that would be helpful in deciding which teams to verify.

1. This displays the name of the event and the default format that was selected during event setup. The format may be changed during a when verifying the event settings during step three of this process.
2. This shows the registration fees, if any, that are still due for this event.
3. This shows the number of complete teams that are currently registered.
4. This shows the number of incomplete teams that are currently registered. Incomplete teams will **not** be included in the event.
5. This shows the team member names. Incomplete teams, if any, show only one name and are highlighted in red. The trash can icon next to the team name allows the tournament director to delete a team from this page without returning to their original registration record.

6. This shows any registration fee due to the tournament by a particular player

Click the Save button to confirm all changes and the following screen will appear.

Are you sure?

This will CREATE 6 teams and EXCLUDE 0 teams.

This WILL delete all recorded games played for this event!

Furthermore all proceeding verification steps WILL be reset and need to be completed prior to this event going live.

Continue

Cancel

The screen will appear after each step in the verification process, allowing the tournament director to cancel changes and start over if necessary.

6 Teams in this event

- This event has 6 teams in it. You can reduce court time by splitting them into pools. Below are the available pool splits for 6 teams.
- You can choose to split them into smaller pools or leave this event as it is.
- PLEASE NOTE that pool play changes the format of this event to round robin.
- If you choose to use pool play the medal format is configured on the next step of the verification process.

Bracket Format

☐ Single Elim. Bracket - - Total Playing Matches: [6]

☒ Double Elim. Bracket - - Total Playing Matches: [11]

☐ Round-Robin - - Total Playing Matches: [15]

A straight round robin event is configured so that every player or team will play every other player.

1. **Number of Rounds** – The default for this is 1. For small groups, you may want to set up the event so that each player or team plays the others more than once. You can change that here.
2. **Medal Round Robin with Elimination Bracket** – Select NO to play a straight round robin event with no elimination bracket.
3. **Score Sheet Printing a Court Assignment Type**
 - Print Next Available Matches Automatically – Select YES to force the computer to print the score sheets automatically as they become available. Select NO if you will be printing all of the score sheets in advance.
 - Print Next Available Matches Round by Round – If you are printing score sheets automatically, do you want them printed in order, round by round? Or do you want to allow printing of any available match in any round?
 - Court Assignment Type – This setting controls how the daily planner assigns courts for this event once verification is completed. Designated courts will use the settings from your settings under **Manage Event Court Counts and Start Times** on the tournament management menu. Next Available will allow the Daily Planner to create the court schedule.

Court Assignment Type settings should be the same as your simulator settings in order to duplicate that schedule.

4. **Round Robin Score Sheet Type** – A simple score sheet will print the names of the teams with spaces to enter final scores and player initials. Games with referees should use an official score sheet which conforms to the IFP format.
5. **Round Robin Game Parameters** – Use this section to specify the playing format for your matches.

Page 455 of 707

A round robin event with pools is configured by splitting the players or teams into two or more pools or playing groups. Every player or team will play every other one in their pool. A designated number of the top players or teams in each pool will move on to a playoff event. In this case, the playoff is configured as single elimination.

1. **Number of Rounds** – The default for this is 1. For small groups, you may want to set up the event so that each player or team plays the others more than once. You can change that here.
2. **Medal Round Robin with Elimination Bracket**
 - **Single Elimination** – Select **Yes**, play single elimination bracket medal rounds to automatically advance the top players or teams in each pool to a playoff. You must advance at least three to a playoff round
 - **Custom Medal Round Options** – If you choose a single elimination playoff option, there are four choices available.
 - Normal – First place vs. fourth place and second place vs. third place in the first round. Winners play for gold and silver, losers play for bronze. Two rounds of two matches.
 - Third seed automatically gets bronze and first and second play for gold/silver. One round of one match
 - First and second play for gold/silver and third and fourth play for bronze. One round of two matches.
 - No Bronze Medal match.

✿ Option two is possible if you advance only three teams to the playoff round. This would only be feasible with three pools and would mean that the first place winner in one of the pools would automatically be assigned to third place overall based strictly on pool play results.

3. Double Elimination

 Custom Bracket Settings

☒ No custom settings

☐ Prevent losers from going back into winners bracket. Shorten bracket by 3 matches

☐ Bronze from losers of semi-finals in winner bracket. Shorten bracket by 4 matches

- **No Custom Settings** – The winner of the losers bracket will play the winner of the winners bracket for Gold.
 - **Prevent** – The winner of the losers bracket will automatically receive a bronze medal.
 - **Bronze from Loser of Semi-Finals in the Winners Bracket**
4. **Medal Round Options** – Use the drop down menus here to specify the scoring rules for the single elimination medal round. The scoring rules control the verification of all scores entered during the event and the format of the printed score sheets. Select Official or Simple score sheets for the medal round here.
 5. **Options for Printing Score Sheet.**

- **Print Next Available Matches Automatically** – Select YES to force the computer to print the score sheets automatically as they become available. Select NO if you will be printing all of the score sheets in advance.
 - **Print Next Available Matches Round by Round** – If you are printing score sheets automatically, do you want them printed in order, round by round? Or do you want to allow printing of any available match in any round?
 - **Print Medal Bracket Next Available Matches Automatically** – will print medal match score sheets automatically starting with the second round. **First round medal match score sheets must be printed manually.**
6. **Court Assignment Type** – This setting controls how the daily planner assigns courts for this event once verification is completed. Designated courts will use the settings from your settings under **Manage Event Court Counts and Start Times** on the tournament management menu. Next Available will allow the Daily Planner to create the court schedule.
7. **Event Scoring Rules** – Use these options to set the score sheet type and scoring rules for pool play and the number of players or teams from each pool that will advance to the playoff round. The scoring rules control the verification of all scores entered during the event and the format of the printed score sheets. The estimated minutes per match will be used to generate the daily time schedule.

It is possible to have different configurations for pools of different sizes. This is helpful when one pool is smaller than another and you wish to allow longer matches for that group.

The next step in the verification process is to confirm seedings.

PickleballBrackets.com automatically creates seeding based on the combined team or, for singles and skinny singles, the individual player rating. When setting up the event, Tournament Directors choose the priority of which rating to use..

Players have doubles, mixed doubles, singles and skinny singles ratings.

Seedings are based on the rating that corresponds with the event.

1. **The PickleballBrackets.com rating** – This is a calculated rating derived from the results of all tournament matches listed on PickleballBrackets.com that a player has participated in.
2. **World Pickleball rating** – This is a calculated rating based on tournaments listed on PickleballTournaments.com
3. **Self-Rating** – All seedings will be based on the player's self rating. Tournament ratings are ignored.

If the tournament is sanctioned by any organization, the rating priority will always use that sanctioning body's rating as the primary rating on the priority list. For example, USA Pickleball sanctioned events will use the UTPR before looking at a self rating.

Tournament Directors have complete control over changes to event seedings.

4.2.13.6.1.6.1. Change Seedings

To change seedings, click on the Sort Item button. It will change color and read Sorting Item. Use the Blue Up and Down Arrow Buttons on the right to move the team.

The next step in the verification process is to confirm first round matchups. PickleballBrackets.com automatically creates first round matchups based on the seedings confirmed in the previous step. All successive matchups flow from the first round. There may be times when a Tournament Director might want to modify the first round matchups. For example, in a large tournament, you may wish to separate players from the same club in the first round. The first round matchup screen shows the player club name to assist with that adjustment. To change first round matchups, you need to change the seed for the team. Click the seed number for the team you would like to change.

4.2.13.6.1.7.1. Change First Round Matchups

To change first round matchups, click on the seed number for one of the teams you would like to change. From the drop down menu, select the seed number of the team in the position to which you would like to move them.

4.2.13.7. Final Event Preparation

The screenshot shows the PB Live Console interface. At the top, there's a blue header with the PB logo, '001.a DEMO LIVE CONSOLE', a menu icon, 'My Stuff', and 'Generate Planner'. On the right, there's a 'HELP' link and a user icon. Below the header, a status bar shows 'Verify 4', 'Waiting 6', 'Running 14', and 'Completed 2'. There are buttons for 'QR Reader', 'Court Desk', 'One Step Verify', 'Blank Score Sheets', and 'Assign Refs After Play'. Below this, there's a 'Location' dropdown set to 'All'. Under 'Bracket Format', there are checkboxes for 'Single Elim. Bracket', 'Double Elim. Bracket', and 'Round-Robin'. Under 'Player Group', there are checkboxes for 'Mens', 'Womens', 'Mixed', and 'Coed'. Under 'Format', there are checkboxes for 'Doubles', 'Singles', 'Doubles Blind Draw', 'Doubles Scramble', and 'Skinny Singles'. Below these options is a table with event details.

	Date	Title		# Tms	# Crt	Matches		
						Total	Played	Remain
Sun 10/23/2022								
Options 	10/23/2022 8:00 AM	Womens Doubles Skill: (3.5 And Under) Age: (50 And Above) Double Elim. Bracket, Womens, Doubles, Skill: 3.5 And Under, Age: 50 And Above Convention Center Lower Level		5 8	4 0	7 0	7 0	10 7

Once verification of an event is completed, it will be moved from the verify queue to the waiting queue. Click on Waiting at the top of the Live Console screen to move to the Waiting queue.

1. The Event Queues for the Tournament – Click to select the Waiting Queue
2. The Menu for Waiting Queue events – Click to show all of the options available before starting events. These options will be fully explained on the next page.
3. Print Score Sheets – This option allows the tournament director to print score sheets for the entire event. For round robin events, team names will appear on all of the score sheets. For double or single elimination events, the names will appear on the first round matches only.

Single or double elimination events can be configured to automatically print score sheets for the next available court once play begins.

4. Print Roll Call – Prints a list of all players in the event by team.
5. Not Checked In – The number of players who have not yet checked in for the event.
6. Teams – The number of teams in the event.
7. Crt # – Number of courts allocated to this event if using designated/assigned courts.
8. Matches – The total number of matches in this event.
9. Matches Played- The total number of matches that have been played.
10. Matches Remaining – The total number of matches remaining..

4.2.13.7.1. Waiting Queue Options

Start Matches w/o Text Notice

Start Matches & Send Text Notice

Text Players

Mark as Not Printed

Review Verification

Swap Player

Remove Team

Change Score Formats & Settings

Start Over / Unverify

One Step Verify

Before starting an event, the following options are available.

- Start Matches w/o Text Notice- Moves the event from the Waiting Queue to the Running Queue without sending a text message to players.
- Start Matches and Send Text Notice- Moves the event from the Waiting Queue to the Running Queue and notify players via text message..
- [Text Players](#) – Brings up a screen to send a custom text notice to all or selected players in the event.
- Mark as Not Printed – If score sheets have been printed for this event, and you wish to change to Next Available as your printing method, you must mark all score sheets as not printed.
- Review Verification – Allows the Tournament Director to view the final verification parameters and either confirm them or start over.
- Swap Player – Brings up the Swap Player screen allowing the tournament director to swap any player for any other player in the Pickleballbrackets.com database.
- Remove Team – Allows the Tournament Director to remove a team from the event. This restarts the

verification process.

- Change Score Formats and Settings – Allows the Tournament Director to change settings for this event without re-verifying.
- Start Over/Unverify – Restart the verification process.
- One Step Verify – Re-verify the event in one step using all existing parameters. (Only available for single and double elimination events.)

4.2.13.8. Generating the Planner

The screenshot shows the PB LIVE CONSOLE interface. At the top, there's a blue header with the PB logo, '001.a DEMO LIVE CONSOLE', a menu icon, 'My Stuff', and a 'Generate Planner' button. On the right, there's a 'HELP' link and a user icon. Below the header, there's a status bar with 'Verify 4', 'Waiting 6', 'Running 14', and 'Completed 2'. There are also buttons for 'QR Reader', 'Court Desk', 'One Step Verify', 'Blank Score Sheets', and 'Assign Refs After Play'. Below the status bar, there's a 'Location' dropdown set to 'All'. Underneath, there are checkboxes for 'Bracket Format' (Single Elim. Bracket, Double Elim. Bracket, Round-Robin), 'Player Group' (Mens, Womens, Mixed, Coed), and 'Format' (Doubles, Singles, Doubles Blind Draw, Doubles Scramble, Skinny Singles). At the bottom, there's a table showing tournament events.

	Date	Title	✓	# Tms	# Crt	Matches		
						Total	Played	Remain
Sun 10/23/2022								
	Sun 10/23/2022 8:00 AM	Womens Doubles Skill: (3.5 And Under) Age: (50 And Above) Double Elim. Bracket, Womens, Doubles, Skill: 3.5 And Under, Age: 50 And Above Convention Center Lower Level	 	 	 	 	 	

Once events are verified you can generate a detailed planner for the tournament. It uses the parameters of each verified event as well as any court usage restrictions that may have been specified. The planner is similar to the snapshot planner used to create your schedule with two important differences.

1. It will list the matches in every event, including team names, rather than just match numbers. For round robin events, it will show all team names. For single or double elimination, it will show first round team names.
2. It has an on-time tracking function that gives a visual display of how well the tournament is progressing compared to the projected schedule.
3. A visual display of on deck teams and all teams that are available to play is only available if the planner has been generated.

Click the **Generate Planner** button at the top of the screen shown above to start the process.

001.a DEMO
Generate Daily Planner
My Stuff ▾

Click "Generate" below to to create the daily planner for each date.

Reasons an event would not be added to the planner:

- Events previously added/updated to the planner WITH scores recorded will stay in the planner and NOT change after "Generate" button is clicked again.
- Events not previously added to the planner WITH scores recorded.

	¹ Event Date	² Not Verified	³ Verified	⁴ Events In Planner
Generate	1/9/2023	0	0	0
Generate	1/21/2022	0	1	0
Generate	3/20/2024	0	0	0

1. **The Date** – The planner list will show each date of the tournament on a separate line.
2. **Not Verified** – The count of events on that day that have not yet been verified.
3. **Verified** – The count of events on that day that have been verified.
4. **Events in Planner** – The count of events that have already been added to the planner.

Click on the Generate button next to your selected date.

The planner can be generated at any time and will include all verified events. Newly verified events will be added to the planner each time it is generated. Events that are already running and have scores recorded will not be changed.

The planner can be viewed and regenerated at any time by selecting **Daily Planner** from the management menu.

Unless specific courts have been reserved for specific events, the planner assigns matches to any available court. Actual court assignments for the tournament are made at the time matches are played by the Tournament Director. Court assignment procedures are covered in the [Running the Tournament](#) section of this guide.

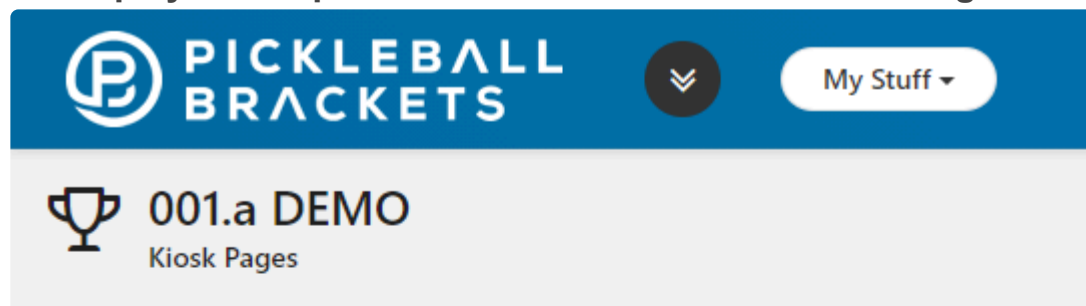

Page 481 of 707

4.2.14. Running the Tournament

This section of the user guide details every step to be taken on the day of the tournament to insure a successful event.

4.2.14.1. Kiosk Pages

Kiosk Pages are tournament information pages and utilities that can be set up to be displayed independent of the tournament director login.

 Daily planner

 Scores & Standings

 Checkin Desk

 Checkin (Self)

 Court Assignments

 Court Assignments (On Deck)

1. **Scores and Standings** – A public display of event details. Set this up on a monitor or tablet that players may use to search all events.
2. **Check in Desk** – Used by tournament staff to check players in for each event.
3. **Self Check In** – Can be set up to allow players to check themselves in. This is helpful for tournaments with no formal check in desk or for players who are being checked in for a second tournament event.
4. **Court Assignments** – Show current court assignments.

 Only matches with a specific court assignment will show. Round robin matches that have been assigned to a group of courts for their entire event will not show here.

5. **Court Assignments (On Deck)** – This will show the teams who are on deck. Again, round robin matches are excluded from this list if they are assigned to a specific group of courts.

4.2.14.1.1. Scores and Standings

This page displays results of all events for this tournament. Click [HERE](#) to view sample display formats for different types of events. Events are updated with live scores and the screen is refreshed every 10 seconds.

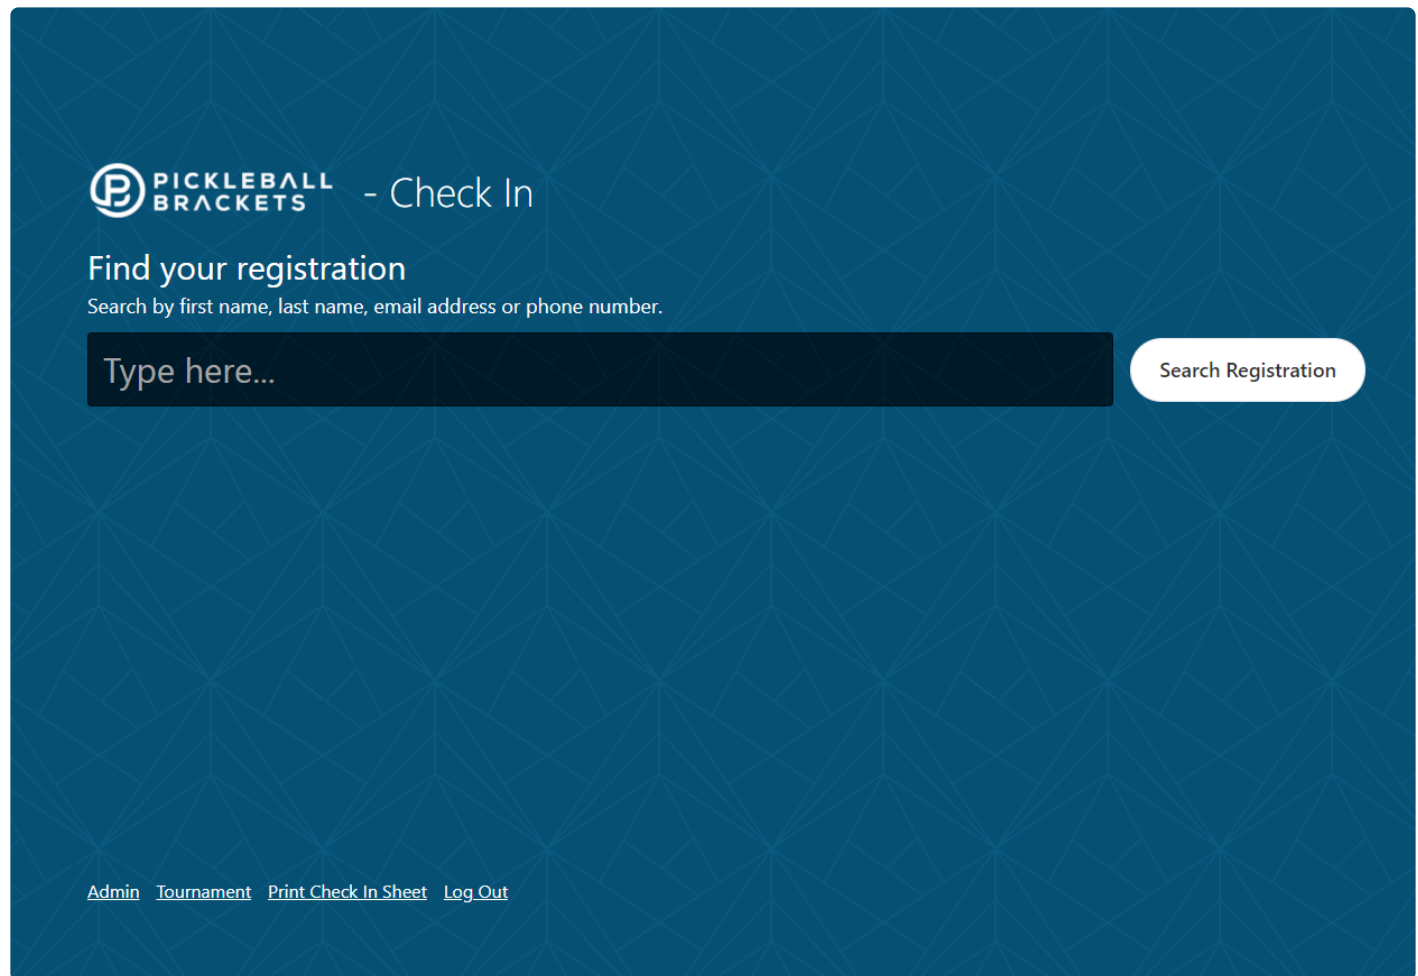

4.2.14.2. Player Check In

There are two options for player check in for a tournament.

- **Welcome Desk Check In** – Use this for tournament staff members to check players in. This option is important when attendance for every player needs to be verified and/or items such as t-shirts or meal tickets have to be distributed.
- **Self Check in** – Use this for players to check themselves in for an event.

4.2.14.2.1. Welcome Desk Check In

Click on Welcome Desk Check In, and then the Check In button, to bring up this screen.

Save Check In

From Here You May:

1. Verify or enter a Cell Phone number.
2. Verify or Enter the Cell Phone carrier.
3. Confirm if the player would like to receive in game text messages of results and/or announcements.
4. Check in for an event.

Players may be checked in for all tournament events or only the current event.

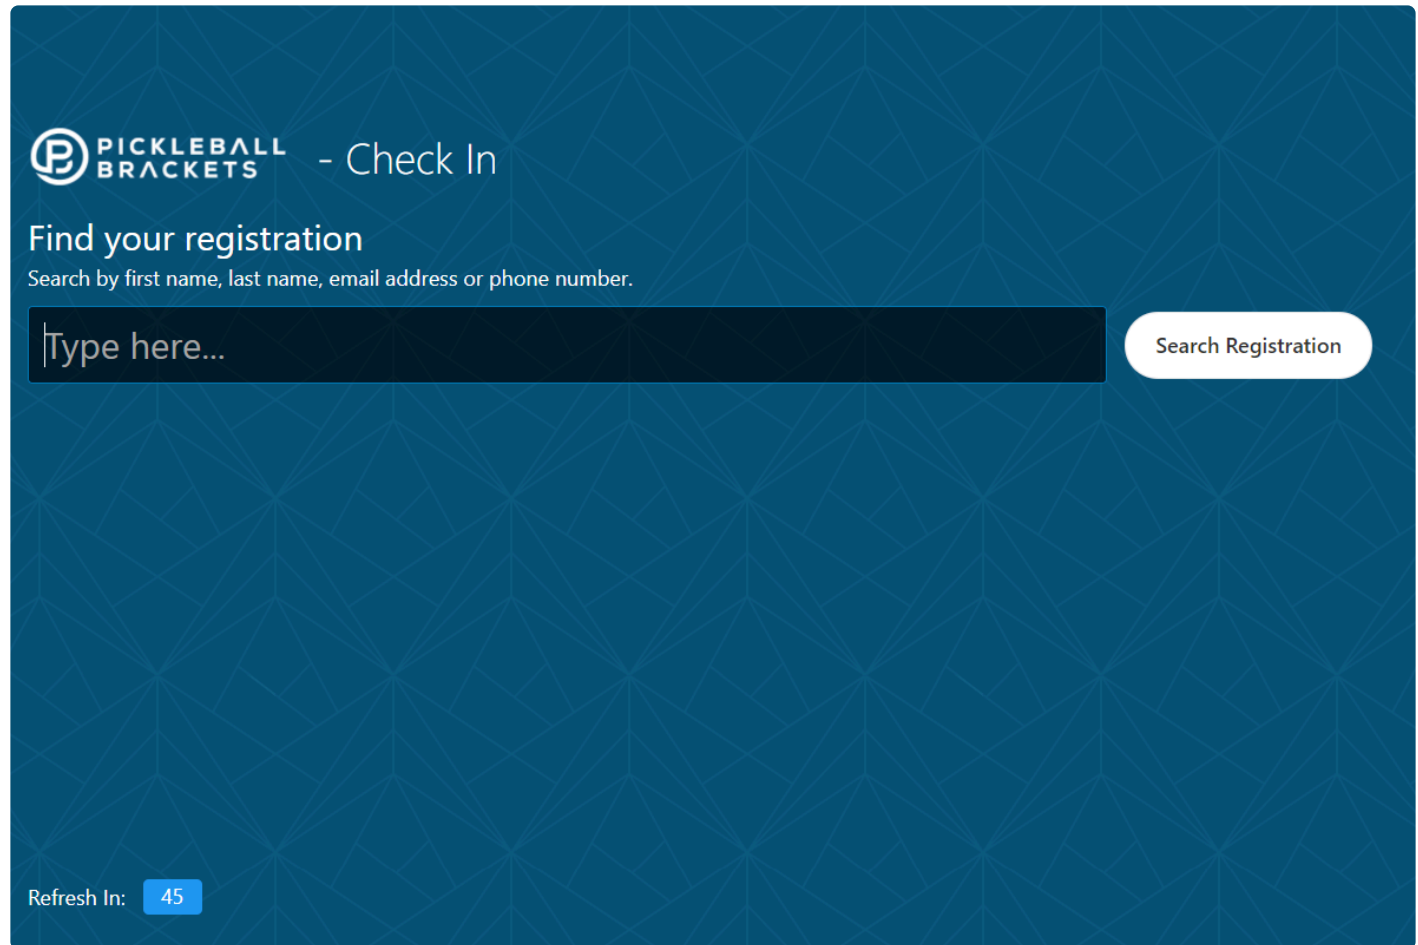

5. If there are any check in items such as t-shirts or meal tickets to be distributed, this screen will display a verification option for pickup.

Be sure to click on the green Save Check In button to complete the player check in.

4.2.14.2.2. Self Check In

Click on Self Check In, and then the Check In button, to bring up this screen.

PICKLEBALL BRACKETS - Check In

Find your registration

Search by first name, last name, email address or phone number.

Type here...

Search Registration

Refresh In: 45

! Self Check In checks a player in for **all of their events** and cannot be used in combination with the regular check in desk. If a player is already checked in for some events through the check in desk, they will not be able to check in for additional events using the Self Check In.

Once the player types in their name and clicks on the Search Registration button, they will see one of the two following screens.

1. If they owe any money for registration, they will be directed to the Tournament desk.

7. **Print Score Sheets** – Use this to reprint score sheets for the entire event. Individual score sheets for specific games may be printed by clicking on the Event Name and Link option 9 below.
8. **Print Roll Call** – Print a list of teams in the event.
9. **Event Name and Link** – Click here to enter scores, print score sheets or view the detailed progress of the event.
10. **Start** – The time that the event started.
11. **Printed No Court** – The number of score sheets that have been printer but are not assigned to a court.
12. **To Do** – The number of matches remaining in the event that have not been played.
13. **On Court** – The number of pending matches that already have a court assignment.
14. **Comp.** – The number of completed matches.
15. **Total** – All matches for this event.

4.2.14.5.1. Special Procedures for Running Qualifying Events

When you complete a qualifying event, teams may be moved to another event based on the event settings for that event.

The process is the same for both Qualifying Scenario One and Qualifying Scenario Two.

1. When the qualifier is over, click the big red button and the Main Draw and Consolation Events (Points Draw) will be populated. These will be in the Waiting Queue on the Live Console.
2. Start and run these events.
3. When you finish the matches in the Main Draw that are needed for the Bonus draw (if you have set one up) the system will automatically populate the Bonus Draw and it will be in the waiting queue.

NOTE: there is no big red button for the process of populating the Bonus Draw. It is automatic.

4. The system will automatically enter the correct number of team to the Points or Bonus Draw brackets. You do not have to go back and change the default or planned number of teams for these brackets.

Deleting Teams and Swapping Players from events using Qualifier setup

1. If you've already created the brackets, or the Consolation (Points), Main, or Bonus draws were already populated and you wanted to remove a team you can do so by going to the live console, clicking One Step Verify, select the bracket from the select box, click the trashcan next to the team. This WILL auto re-verify the bracket.
2. If you need to swap a player you can do so anytime. Before, during, or after the bracket has started.

4.2.14.5.2. Printing Score Sheets

Match score sheets may be printed by three different methods:

1. [Individually by Match](#)
2. [By event for all Matches](#)
3. [Automatically for the Next Available Match](#)

4.2.14.5.2.1. Individual Match Sheets

To Print Individual Match Sheets

1. Select the Event from the Live Console running queue by clicking on the name of the event.

Scroll down to the match you wish to print and click on either the Official or Simple button to print the score sheet.

4.2.14.5.2.2. Printing Multiple Score Sheets

Prior to an event, you may print all of the score sheets or score sheets for the start of events designated as “Next Available”. From the waiting queue, click on

Print Score Sheets icon.

Available choices for score sheet printing are:

1. **Print first round matches ONLY** – choose this for round robin events that are being assigned using the “Next Available” printing option.
2. **Print ALL unplayed matches that have both teams** – For a round robin event, this will print all score sheets except those for any playoff rounds. For a single or double elimination event, this will print score sheets for all matches that have named teams.

✿ Use this for all single and double elimination events.

! If you print these score sheets from the waiting queue for any event that is designated to print “Next Available”, be sure to mark them as printed to prevent them from being reprinted when the event starts.

3. **Print ALL unplayed matches (including matches without teams).** – For round robin events, playoff matches will be printed without names. For double or single elimination events, names will only be printed for already assigned matches.
4. **Print Sheet Size** – The half sheet option will print one score sheet per page. The full sheet option will print two score sheets on a page.

✿ The type of score sheet, either official or simple, is specified when the event is verified.

Print Event Matches

- ☐ Print first round matches ONLY.
- ☐ Print ALL unplayed matches that have both teams.
- ☐ Print ALL unplayed matches (including matches without teams).

☐ Half Sheets

Print sheet size

☐ Full Sheets

Half sheets printed each match on a separate sheet. One per 8.5 X 5.5 area.

Full sheets print 2 matches on an 8.5 X 11 sheet of paper.

Print

4.2.14.5.2.3. Next Available Match Score Sheets

Events can be configured to print score sheets for the next available match automatically. In that case, when scores are entered, a pop up will appear for printing a score sheet if a match is available to be played. If the tournament is using the print spooler, the score sheets will be sent directly to the printer.

Available choices for score sheet printing are:

1. **Print first round matches ONLY** – choose this to print the initial score sheets for round robin events that are being assigned using the “Next Available” printing option.
2. **Print ALL unplayed matches that have both teams** – choose this to print the initial score sheets for a single or double elimination event. This will print score sheets for all matches that have named teams.

The option to Print Next Available Matches Automatically is set during the verification process.

4.2.14.5.2.4. Mark as Printed

If you choose to print only some of the score sheets, you have the option of marking them as printed. Choose “Yes” to assure that any you print here are not reprinted when the system takes over printing using the “Next Available” option. Choosing this option will place the matches in the match waiting for a court queue.

- * If you are using the print spooler, the system will print the next available score sheets automatically once the event starts. If the initial score sheets have already been printed and marked as printed, they will not be reprinted. The system will take over printing after the first scores are entered. If the initial scores sheets have **not** been printed, they will immediately be sent to the print spooler when the event is started.

Print Event Matches

- ☐ Print first round matches ONLY.
- ☒ Print ALL unplayed matches that have both teams.
- ☐ Print ALL unplayed matches (including matches without teams).

☐ Yes

Mark as Printed

☐ No

Each match on **these initial printed** score sheet that have both teams will be marked as printed.

☐ Half Sheets

Print sheet size

☐ Full Sheets

Half sheets printed each match on a separate sheet. One per 8.5 X 5.5 area.

Full sheets print 2 matches on an 8.5 X 11 sheet of paper.

Save Scores 11

1. **Match number for this event.**
2. **Cancel Match** – Use this to cancel a match completely. Cancelled matches are not included in the final standings.
3. **Court Assignment** – Allows the user to assign this match to any court.
4. **Nxt. 1 Crt.** – Allows the user to assign and match in the Game Waiting as the next up (on deck) for any court. Select the court here.

5. **Assn. Nxt 1.** – Select the game here.
6. **Nxt. 2 Crt.** – Allows the user to assign and match in the Game Waiting as the second next up (double on deck) for any court. Select the court here.
7. **Assn. Nxt 2.** – Select the game here.

✿ The score sheet can be formatted to either display or not display the court assignment options. Those settings can be found under “Edit Tourney” on the Management Menu.

8. **Referee** – Allows the user to assign a referee to the match.
9. **Assign and Start** – Click this to confirm all assignments and start the match. Starting a match allows it to be displayed on the Court Assignments kiosk display.

✿ If a court is assigned, players will receive a text message letting them know which court to go to. If a referee is assigned, the referee will also receive a text.

10. **Score Format** – Controls the acceptable entry of scores for this match.

! Matches saved with scores that do not conform to the designated score format, display in yellow on the event results screen but will still count. This allows the TD to adjust formats for a match in progress without reconfiguring the entire event.

11. **Team or Player Score** – G1 refers to the first game. If the match is configured for more than one game, there will be spaces to enter all scores, ie. G1, G2, G3
12. **Forfeit** – Click here if the team has forfeited. Score will automatically be entered for forfeited matches.
13. **Winning Team** – The system will automatically select the winning team based on the scores that have been entered. Change that, if necessary, by clicking on the X under the name of the winning team.

! Matches saved without designating the winning team are shown in red on the event results screen and are not recorded. Edit the match record to record the winning team.

14. **Click the green Save the Scores button.**

Scores may be entered for any event from the live console running screen.

Click on the name of the event.

- **Round Robin Events:**

- **Single or Double Elimination Events:**

4.2.14.6.2. Using a QR Code Reader

A QR Code is a recommended device for the management of large tournaments. It enables the following capabilities.

1. A quick search for matches for score entry.
2. An automated method for assigning the next available court and an available referee.

Click on the QR Reader button on the Live Console Screen.

4.2.14.6.2.1. QR Code Reader Score Entry

With the QR Code reader screen displayed, scan the QR code on the completed match score sheet. The score entry form for that match will appear. Enter the score and save it.

Get Score Card

Instructions

1. In any sequential order scan the QR code for the score card, court, and/or referee. *The digital score card will ONLY display when the QR code for the score card is scanned although the previous scans will be remembered.*
2. Scan or select the court and/or referee and click "Assign & Start" to assign a court and/or a referee to the match. *Text messages will go out to players and the referee alerting them of this assignment.*
3. To save scores for a match enter them in the correct game under each team (G1, G2, G3). Select the winner by clicking the "X" under the scores (this should change the "X" to green). Then click Save Scores. *Text messages will go to players with match results.*
4. If "Print Next Available Matches Automatically" has been set to "Yes" on the event record settings: After saving scores with a winner selected the page will display a print dialog box with new score sheets for the next matches needing to be played and ready for print.

If after scanning the score card QR the digital score card does not display please click on the blue "QR Reader" button, let the page load, and and try again.

If the referee was not listed when the court was assigned, you can assign the referee when the score is entered.

If the score is not saved, you will have to click on the blue QR Reader button before scanning the next score sheet.

You may also manually enter the game Score ID number on this screen if you don't have a QR Reader

4.2.14.6.2.2. QR Reader Court and Referee Assignment

The QR code reader may be used to assign courts and referees for tournaments using the “Next Available Court” method for assigning courts.

4.2.14.6.3. Court Desk

The Court Desk may be used to manage running events that have score sheets printed and matches in the Game Queue.

The screenshot shows the 'Court Desk' interface. At the top, there's a header with the 'pb' logo, '001.a DEMO COURT DESK', and navigation links like 'Jump to Event' and 'My Stuff'. Below this, the 'Court Desk' section includes a 'Refresh' button and a venue dropdown menu set to 'Convention Center Lower Level'. A 'Score ID' field and a 'Get Score Card' button are also present. A search bar labeled 'Type here to filter list' is available. A summary bar shows match statistics: 'To Do: 55', 'On Court: 3', 'Completed: 19', 'Total: 77', and 'In Queue: 1'. Below this is a table with two main sections. The left section has columns for 'Crt', 'Event', 'Match', 'Teams', and 'Start'. It lists match 1 as '2 / 3 all to 11 by 2 Womens Doubles Skill: SAPC Test' on court 4, starting at 7:54 AM. The right section has columns for 'Crt', 'Event', 'Match', 'Teams', and 'Start', listing match 5 as '1 to 11 by 2 Coed Doubles Scramble Skill: (3.0 And Under) Age: (Any) JP' on court 3, starting at 8:09 AM. At the bottom, there's a '1 Matches in Queue' section with a 'Select One' dropdown and a 'Manually' button. A row of numbered buttons (1-11) is at the very bottom.

1. **Refresh** – Click to show the most recent court desk matches.
2. **Venue** – Select the venue.
3. **Score ID** – May be used to manually retrieve a score card for any match.
4. **Filter List** – For large tournament, use this to narrow down the list of event names that are shown on the screen
5. **Court Assignment Key**
 - Greyed out – More than 10 minutes on the court
 - Yellow – On the court past the estimated match time.
 - To Do – Number of matches remaining in the running queue
 - On Court – Number of matches assigned to courts.
 - Completed – Number of matches in the completed queue.
 - Total – Total number of matches for the events in the running queue.
 - In Queue – Matches in the Game Queue
6. **Match on Court** – Details include the time on court. (Greyed out to indicate more than 10 minutes.
7. **Match on Court** – Less than 10 minutes.
8. **Refresh** – Click to refresh the Game Queue
9. **Select** – Drop Down menu for selecting matches to assign to courts. Matches are listed in order of the time they entered the Game Queue
10. **Manually** – Used to assign a game to a court that is not currently in the Game Queue
11. **Court Numbers** – Select the Court Number after selecting the match in order to assign it to a court.

Once a game is assigned to a court, click on the game to enter a score. After the score is entered, the game will automatically be removed from the court and new

score sheets may print.

To remove a match from a court and put it back into the Game Queue, click on the game and use the Court drop down menu to select “Move Back to Queue” then click on the blue “Assign and Start” button.

4.2.14.7. Finalizing Scores and Completing an Event

No matter which method is used for score input, when all of the matches are complete, scores and standings must be finalized to complete an event. The main event screen will appear with a red button at the top to complete the event.

If this event has additional playoff rounds, the TD will be prompted to complete the preliminary round and generate score sheets for the the next round.

 **Complete & Generate Next Round**

If this event is done, the TD will be prompted to complete and lock the event. Completed and locked events will display on the results screen of the main tournament page.

 **Complete and Lock**

Completed events will be moved to the Completed queue. Click on the Completed tab to view those events.

! One week after the event ends, it will be permanently locked by PickleballBrackets.com and player ratings will be recalculated. TD's **MUST** make any score and/or medal updates before then.

Options for Completed Events – The completed events options menu has the following choices.

1. **Unlock all Scores** – This option will move the event back into the running queue and allow the Tournament Director to edit scores.
2. **Start Over** – This option will move the event back to the verify queue.
3. **Zero All Scores** – This option will move the event back into the running queue with all scores zeroed out.
4. **No Medals Awarded** – This option will delete the assignment of any medals for this event.

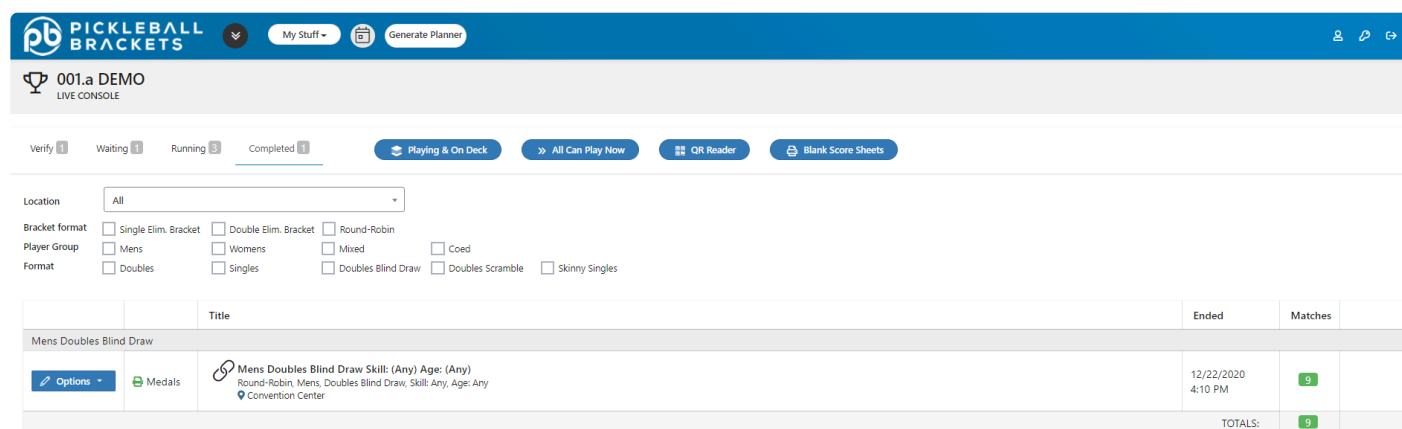

4.2.14.7.1. Medal Assignments

There are three options available for medal assignments depending upon how events are configured.

1. [Automatic](#)
2. [No Medals](#)
3. [Designated Medals for Merged Events](#)

4.2.14.7.1.1. Automatic Medal Assignments

Gold, Silver and Bronze Medals are automatically assigned for completed events and show on the results page for the tournament. To print a list of the medals, click the Print Medals button  Medals on the completed event. If the 5 year or 10 year medal switch is turned on for the event, the system will also automatically award additional medals for age group winners within the event. Those winners will be listed at the bottom of the report.

The screenshot shows the '001.a DEMO LIVE CONSOLE' interface. At the top, there's a navigation bar with 'PICKLEBALL BRACKETS' logo, a dropdown menu, 'My Stuff', and 'Generate Planner'. Below this, a status bar shows 'Verify 1', 'Waiting 1', 'Running 2', and 'Completed 1'. There are buttons for 'Playing & On Deck', 'All Can Play Now', 'QR Reader', and 'Blank Score Sheets'. A filter section includes 'Location' (All), 'Bracket format' (Single Elim. Bracket, Double Elim. Bracket, Round-Robin), 'Player Group' (Mens, Womens, Mixed, Coed), and 'Format' (Doubles, Singles, Doubles Blind Draw, Doubles Scramble, Skinny Singles). The main table lists events with columns for Title, Ended, and Matches. The event 'Mens Doubles Blind Draw' is highlighted, showing details: 'Mens Doubles Blind Draw Skill: (Any) Age: (Any)' and 'Round-Robin, Mens, Doubles Blind Draw, Skill: Any, Age: Any' at the 'Convention Center'. The event ended on '12/22/2020 4:10 PM' with 9 matches. A 'TOTALS' row shows 9 matches.

A medal report similar to this will display for printing.

The medal report is titled '001.a DEMO' and lists winners for the 'Mens Doubles Blind Draw Skill: (Any) Age: (Any)' event. The winners are listed with their names and scores, grouped by medal type.

Medal	Winner	Score
GOLD	Mason Toscano	+1 234 342-3432
GOLD	zulu zulu	+1 111 (111) 222-3333

4.2.14.7.1.3. Designated Medals for Merged Events

For merged events you have the ability to assign medals based on the original events in addition to the medals that are automatically assigned for the overall event. This is useful in situations where you had to merge different age or skill level events in order to create a playing bracket but still need to award medals according to the original age or skill level breakdown.

1. From the Live Console completed queue, click on the event and then the Final Standing button at the top. Click on Manually Assign Additional Medal under the player or team name to bring up the medal selection menu. The top portion of the screen shows the original event for the team. In the lower portion, select the original event from the drop down menu and then select the medal to be awarded and click the Assign Medal button.

Assign Medal to Another Event

4.2.14.7.1.4. Creating Separate Medal Playoff Rounds for Combined Events

Instead of awarding medals separately within a combined event, separate playoff events can be created to be played after the combined event is completed. Here are the steps for that.

1. When registration closes, merge the events and set the combined event to not award medals.
2. When that is done, create a separate medal event for each of the age/skill groups that were combined in that event. The medal event can be round robin, single or double elimination.
3. Turn on the Active button at the top.
4. Turn on the Custom title and name it as the medal round for that group.
5. Turn on the Register Same Player Group Override button.
6. Verify that the event cost is set to \$0.
7. Select the Combined event from the event list under Link to Parent Event.

-  Link to Parent Event
-  Allow 'Need a Partner'
-  Register Same 'Player Group' & 'Format' Combo Override

None ▲

None ▲

Junior Boys Doubles

Junior Boys Singles

Junior Girls Doubles

Junior Girls Singles

Junior Mixed Doubles

Mens Doubles AGE

 This step is important to link the events with each other and to prevent the player from being charged an additional user fee for the playoff.

8. Turn off notifications and add all of the players from that skill age group to the medal round event.

Be sure to add the players individually to the new medal round event from the attendee screen. **DO NOT MOVE THEM IN.**

Instead of creating a new event for each medal round, you can copy the original event. If you do that, **BE SURE TO CHECK ALL OF THE ABOVE SETTINGS.**

9. Turn off the Active button at the top for each of the playoff events so they do not show to the public.

Once the combined event is played, activate and verify the new medal events for each group making sure to delete any teams that may not have qualified for the medal round. Seed the players according to their finish in the combined event.

Run the medal events and award medals upon completion.

4.2.14.7.2. Printing a Medal Report

4.2.14.7.3. Final Standings – Overall Description

Final Standings

Double Elimination

1. Rank teams Gold, Silver, Bronze, 4th
2. Who got to the further round in the winner and loser brackets
 - If a team got a first round bye AND lost the first match we do not count them as getting to “round 2” because we don’t want to show them as getting to round 2 from game play.
3. Number of match wins in the winner’s bracket
4. Number of match wins in the losers bracket
5. Match point differential percentage
6. All remaining ties will be marked as a tie for that standing

Single Elimination

1. Rank teams Gold, Silver, Bronze, 4th
2. Who got to the further round
 - If a team got a first round bye AND lost the first match we do not count them as earning “round 2”
3. Number of match wins
4. Match point differential percentage
5. All remaining ties will be marked as a tie for that standing

Round Robin

1. If there is a playoff medal round AFTER the round robin play then rank all teams that made it to the playoff medal round first and then the teams that did not make the playoff medal round. See Double and Single Elimination above.
2. Match win percentage
 - We use percentage because this could be a multi pool round robin. If pools are uneven then using a win percentage evens comparison and calculates correctly for even or uneven pools.
3. If there is only 1 pool for round robin play the next factor would be head to head record of the involved teams.
 - If there are multiple pools then we do not calculate head to head on final standings because 3 teams

could be tied, 2 teams were in the same pool and one of the teams would get a head to head win but the 3rd team would not have any head to head wins or losses because their team was not in the pool the other 2 played in.

4. Point differential percentage

- We use percentage because this could be a multi pool round robin. If pools are uneven then using a point differential percentage evens the comparison and calculates correctly for even or uneven pools.

5. All remaining ties will be marked as a tie for that standing

A complete description of the ranking logic for Round Robin events with multiple pools and a playoff is on the next page.

Additional Medals

This is calculated based on the ORIGINAL age bracket a team signed for. If a team has 2 players aged 60-64 and purposely sign up for a bracket with age 50-54 they will not get listed for additional medals in 60-64.

Furthermore this is also calculated based on the ORIGINAL skill bracket a team signed for. If a team has 2 players with a skill of 3.5 and purposely sign up for a 4.0 bracket they will not get listed for additional medals in 3.5.

Stats are calculated the same as the above descriptions except they are based on 5 or 10 year age splits (depending on the tournament setting for this event)

Manual Medal Assignments

For Merged Events, Tournament Directors have the option of assigning medals manually upon completion of the event instead of using the automatic five and ten year assignments. In that case, turn off the five and ten year assignment of medals in the event record and use the procedure outlined in the user manual to Manually Assign additional medals.

4.2.14.7.4. Final Rankings for Round Robin Events with Pools and Playoffs

Final Rankings for Round Robin Events With Pools and a Playoff

h2. Round Robin to Medal Round

Each pool is ranking based on the following

1. Wins
2. Head to Head
3. Point Differential within entire bracket
4. Point Differential within just the head to head
5. Point Differential against the next highest team

Multiple Pools

1. After the internal pool ranking is completed we then take teams and rank them for the playoff medal round
2. Example:
 - **If there are 3 pools of 5 and the top 3 teams from each pool are moving to the playoff medal round the teams would be ranked accordingly**

1. All the #1s will be ranked 1,2,3
2. All the #2s will be ranked 4,5,6
3. All the #3s will be ranked 7,8,9
4. All the #4s will be ranked 10,11,12
5. All the #5s will be ranked 13,14,15

- **Then to rank all the #1s, #2s and so on.**

1. Win %
We use percentage because this could be a multi pool round robin. If pools are uneven then using a win percentage evens comparison and calculates correctly for even or uneven pools.
2. Point Differential %
We use percentage because this could be a multi pool round robin. If pools are uneven then using a point differential percentage evens the comparison and calculates correctly for even or uneven pools.

4.2.14.7.5. Making Changes to a Completed Tournament

Making Changes to a Completed Tournament

! Tournaments are automatically locked 5 days after the final event is completed or two weeks after the date of any event that was not completed. Up until that date, scores, brackets, awards and formats may be adjusted from the Live Console.

A useful tool for tournament directors is the ability to visualize, in real time, the progress of the tournament, compared to the planned schedule. This requires that the planner be generated for the tournament. The initial planner for each tournament day and location will show all matches planned for the day.

Page 532 of 707

As scores are entered and the tournament progresses, the planner will mute the completed matches. This gives a visual representation of the tournament progress and enables a comparison between the planned schedule and the actual time of day.

To efficiently use this tool, open a separate window for viewing the planner. Switch to that window and refresh the screen each time you wish to view the tournament progress.

4.2.15. Copying a Previous Tournament

Quickly Set Up a New Tournament by Copying a Completed Tournament

1. Log In to your PickleballBrackets.com account.
2. Select My Tournaments
3. Click on the Managing Button
4. Find the tournament you wish to copy and select it.
5. From the Dashboard, select the black menu button near the top of the screen.
6. On the menu, select View Tourney.

7. Near the top of the screen, next to the Basic Info heading, click on the Copy Tourney link.
8. Rename and save the copy.

Dates for the tournament and all events will be advanced by one year. Edit the new tournament to change all the details and add, delete or modify events.

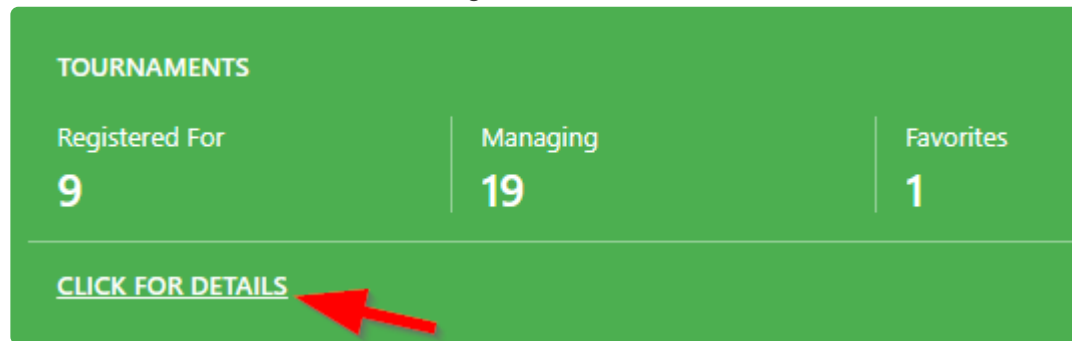

Once an event is copied, you have 5 days to pay the setup fee for the new tournament before it is deleted from the system.

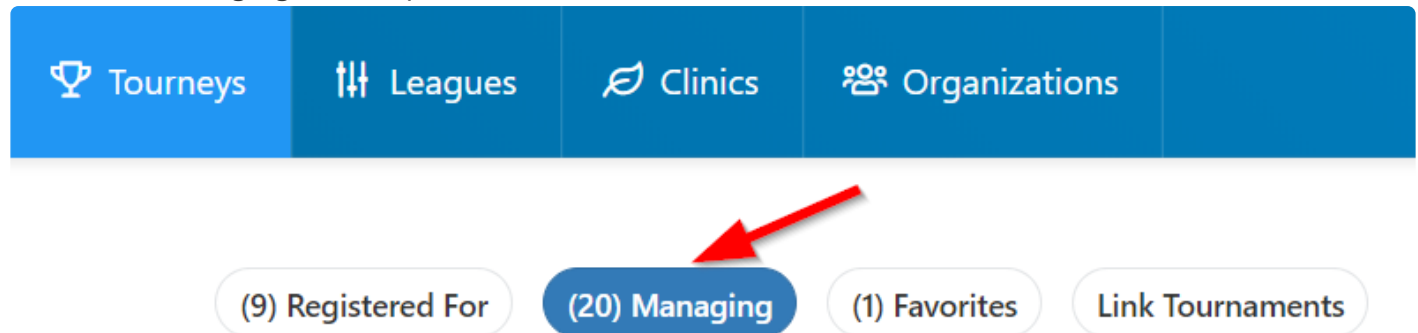

4.2.16. The Messaging System

PickleballBrackets.com has a built in, fully customizable, messaging system that allows Tournament Directors to create messages that can be sent to players based on their registration status and/or their event selection.

1. Log in to your Pickleballbrackets.com account.
2. On the top right of the screen, hover over your name and then click on **My Stuff**.
3. Click on **Click for Details** in the green tournament box.

4. Click on **Managing** at the top of the screen.

5. Scroll down to the tournament you would like to edit and click on it.
6. Select **Messages** from the menu

Main Message Screen

Global messages are referred to as Campaigns since they can be utilized for marketing as well as information purposes. From this page you may:

- Add a new Campaign
- Edit a Campaign that you are currently developing.
- Archive an old Campaign.
- Copy a completed Campaign to serve as a template for a new one.

 To view a completed campaign, you must copy it first.

Add a Campaign

Two options are available if you choose to add a brand new Campaign.

- You may add a blank campaign and create all of the campaign parameters and format from scratch.
- You may select a campaign from the drop down menu. This will generate a campaign template featuring two items:
 - A default selection criteria that will direct the message to a specified category of players.
 - A sample message that may be modified as needed.

Whether you choose to start with a template or start blank, you may still change your selection criteria later.

Message Filters

1. **Get Recipient Count** – Click this button to see the number of players who will receive this message based on the current, active filter.
2. **URL** -Click to copy the tournament URL. Paste this into your browser to view the tournament on PickleballBrackets.com. This allows you to view all tournament information even if it is not currently active.
3. **Send Test** – Type an email address here and click the yellow button to send a test copy of the campaign message to anyone.
4. **Ready to Send as Schedule** – Switch this to Yes when you are ready to send your campaign message.

* Messages are prepared and queued one hour prior to the scheduled send time. You may edit the campaign up until that time. If your send time is within one hour of the time you save the message, queueing begins immediately. You cannot change messages that are already in the queue.

5. **Filters/Email Templates** – Use these buttons to select what to work on.

Filters – This is the filter page. Filters control who will receive the message.

Email Template – The format and message. Working with the email template will be covered in the next section of this manual.

6. **Campaign Title** – Give this campaign a title that has meaning for you. For example, a message about available lodging might be titled “Hotel Partners.”
7. **Reply to Email** – This is the email address that players may respond to.
8. **From Name** – The responsible person sending the email or authorizing it to be sent.
9. **Type** – There are a number of built in filters that can be selected here. Use the drop down menu to limit the Campaign to a selected group of players.
10. **Date and Time to Send** – Messages scheduled to send less than an hour from the current time, will be queued immediately.
11. **Registration Date** – Use a date range to limit the campaign to only those who registered before, after or between specific dates.
12. **Gender** – Use this if you wish to send the message only to Men or Women. The default is to send to all players.
13. **Select Events** – Check your event choices below if you wish to send your message only to players in specific events. If no events are check, the message will be sent to players in every event.

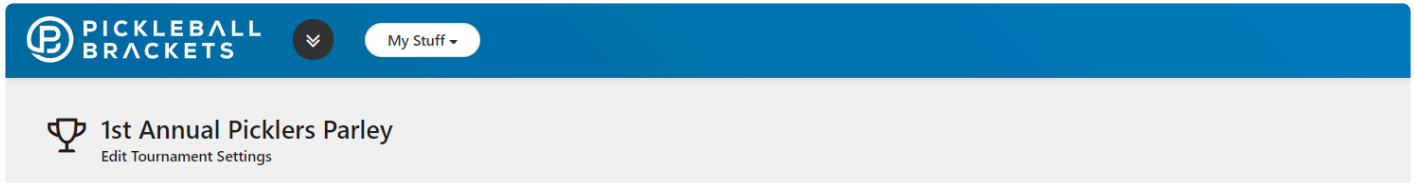

! Don't forget to Save your changes!

4.2.16.4. Message Templates

Message Filters

Your choice of **Message Filter** when you add your campaign will determine the template that the system will create for you to start with.

1. **Start Blank** – This choice creates a blank document that you will be able to format in a manner similar to any word processor.

Template Features

1. **Subject** – The default subject for this template is the Account Title, which is the name of the tournament. You may remove that or add to it as you'd like. Click on the snippet selector to add any of the pre-defined subject snippets or type directly into the subject box to create your own subject.
2. **Column Format** – The body of the message is contained within a large column or box whose outline is defined by the dotted line borders. Click on the top corner of the box to move it or change its size. Columns are part of tables, in this case, a table with only one column. Clicking on the table button,  ▼, will bring up the table wizard, allowing you complete editing ability for the table including all cells, rows and columns.

3. **Images** – Click here for complete directions for adding or replacing an image.
4. **Snippets** – Snippets are enclosed by brackets and can be added to any part of the message. Use the

snippet selector button

to add a snippet. Snippets can be formatted the same way as any other texts.

5. **Hyperlinks** – Click here for complete directions for adding or replacing hyperlinks.

4.2.16.4.3.1. Images

250 X 193

Images may be placed anywhere in a blank document or within a defined cell. The default message format contains a cell for an image. To place your tournament logo in the cell, click on the cell and then click on the image editing button.

The easiest way to control the placement of an image in a blank document is to create a cell to contain the image.

4.2.16.4.3.1.1. Image Upload

If you have previously uploaded any images for use in messages, they will appear in the middle column of this screen. To use one of those images, click on it and it will appear in the far right hand image editing column.

To upload a new image, click on the upload button:  which will bring up this window:

UPLOAD

Select

☐ Overwrite if file exists?

Max file size allowed: 95.37 MB

File extensions allowed: *.gif, *.xbm, *.xpm, *.png, *.ief, *.jpg, *.jpe, *.jpeg, *.tiff, *.tif, *.rgb, *.g3f, *.xwd, *.pict, *.ppm, *.pgm, *.pbm, *.pnm, *.bmp, *.ras, *.pcd, *.cgm, *.mil, *.cal, *.fif, *.dsf, *.cmx, *.wi, *.dwg, *.dxf, *.svf

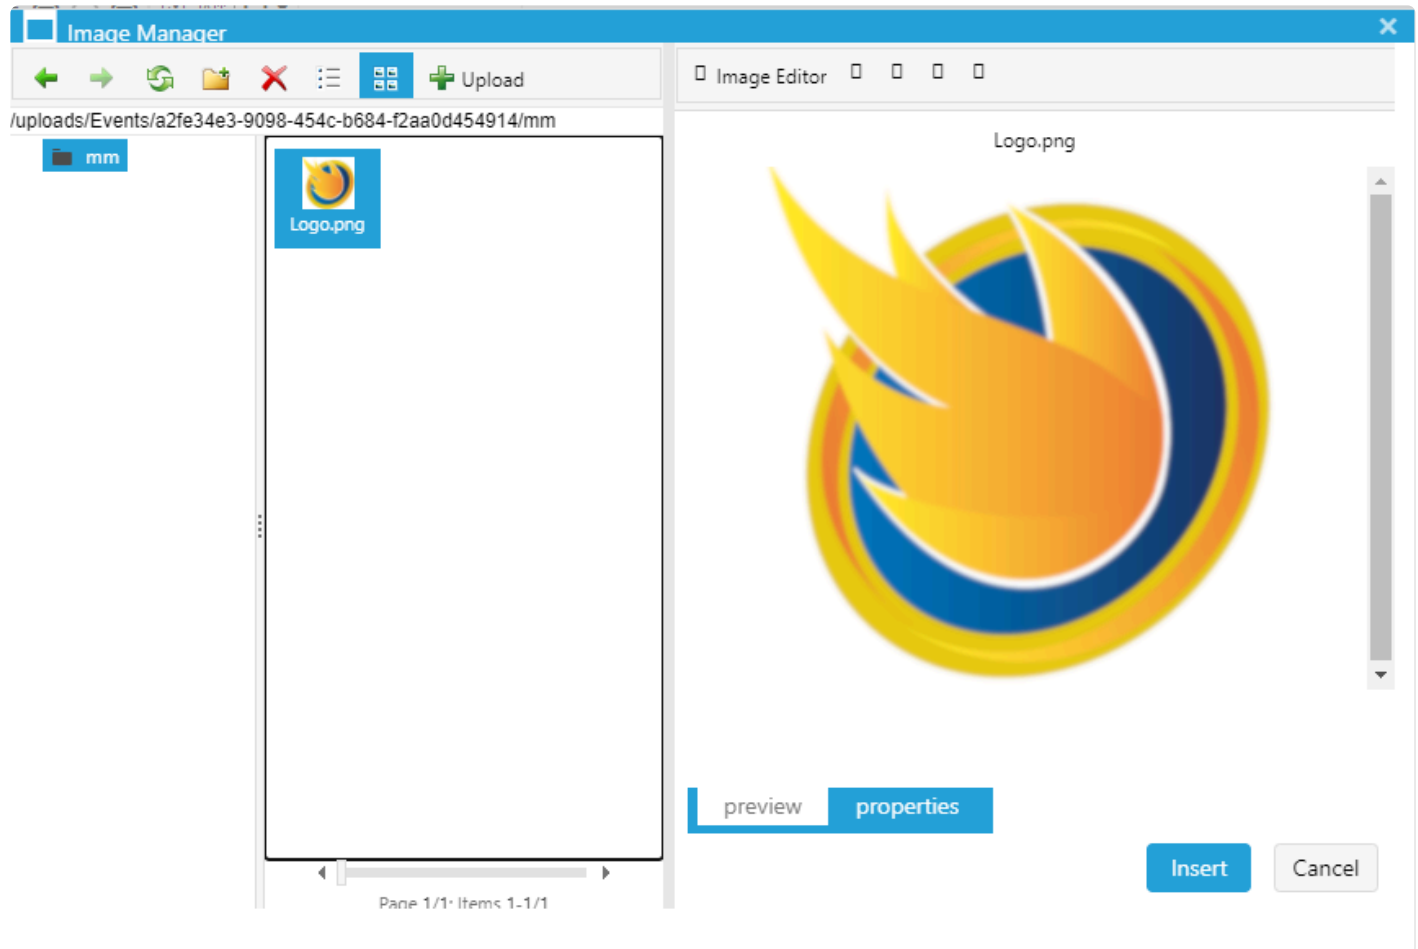

Upload

Click the **Select Button** to choose an image file from your computer to upload.

✿ Uploaded images are limited to 95.37 MB

4.2.16.4.3.1.2. Image Editing

A preview of the image will appear.

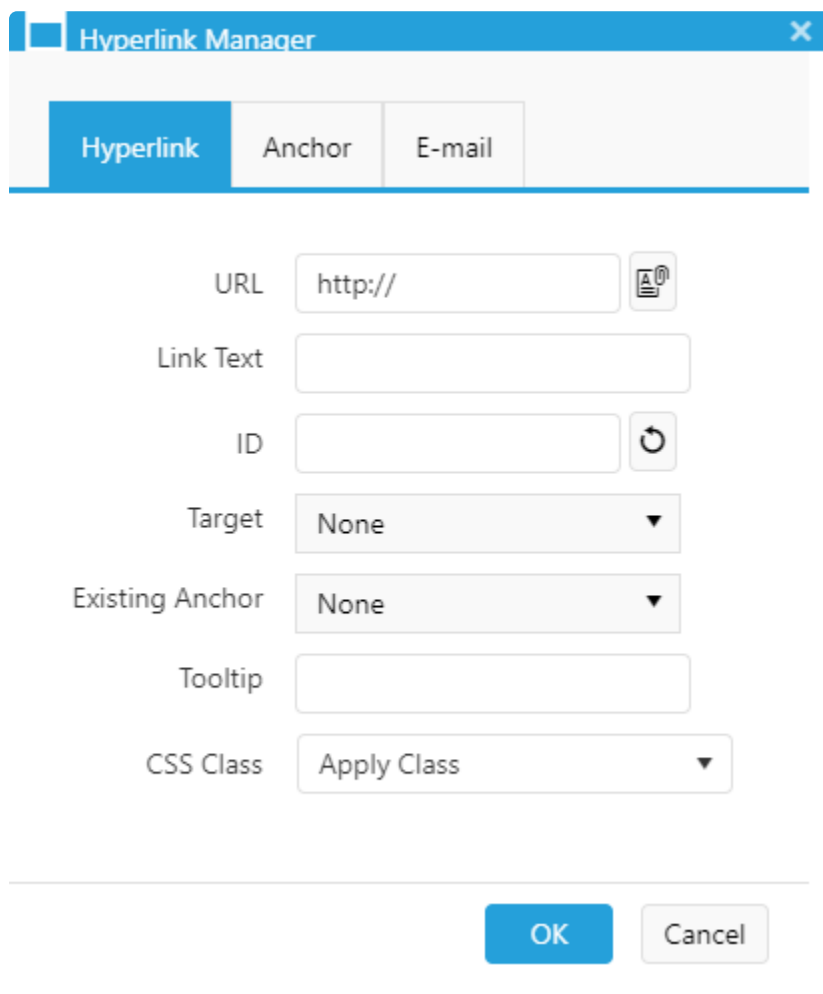

Click the Insert button to place the image in your message.

✿ Once the image is placed in the message, you may stretch or shrink it to any size.

4.2.16.4.3.2. Hyperlinks

Click on this button to Add, Edit or Delete a Hyperlink: 

This screen will appear.

Hyperlink

1. URL – Type or copy and paste the address of the destination webpage here. Note the document manager button:  Click on it to create a hyperlink to an uploaded document instead of a webpage.

 Click [here](#) for Document Manager directions.

2. Link Text – Type the specific text you wish to associate with the hyperlink.
3. ID
4. Target – Use the drop down menu to select a target. Typically a link will open in the same browser

window or a new browser window.

5. Existing Anchor
6. Tooltip
7. CSS Class

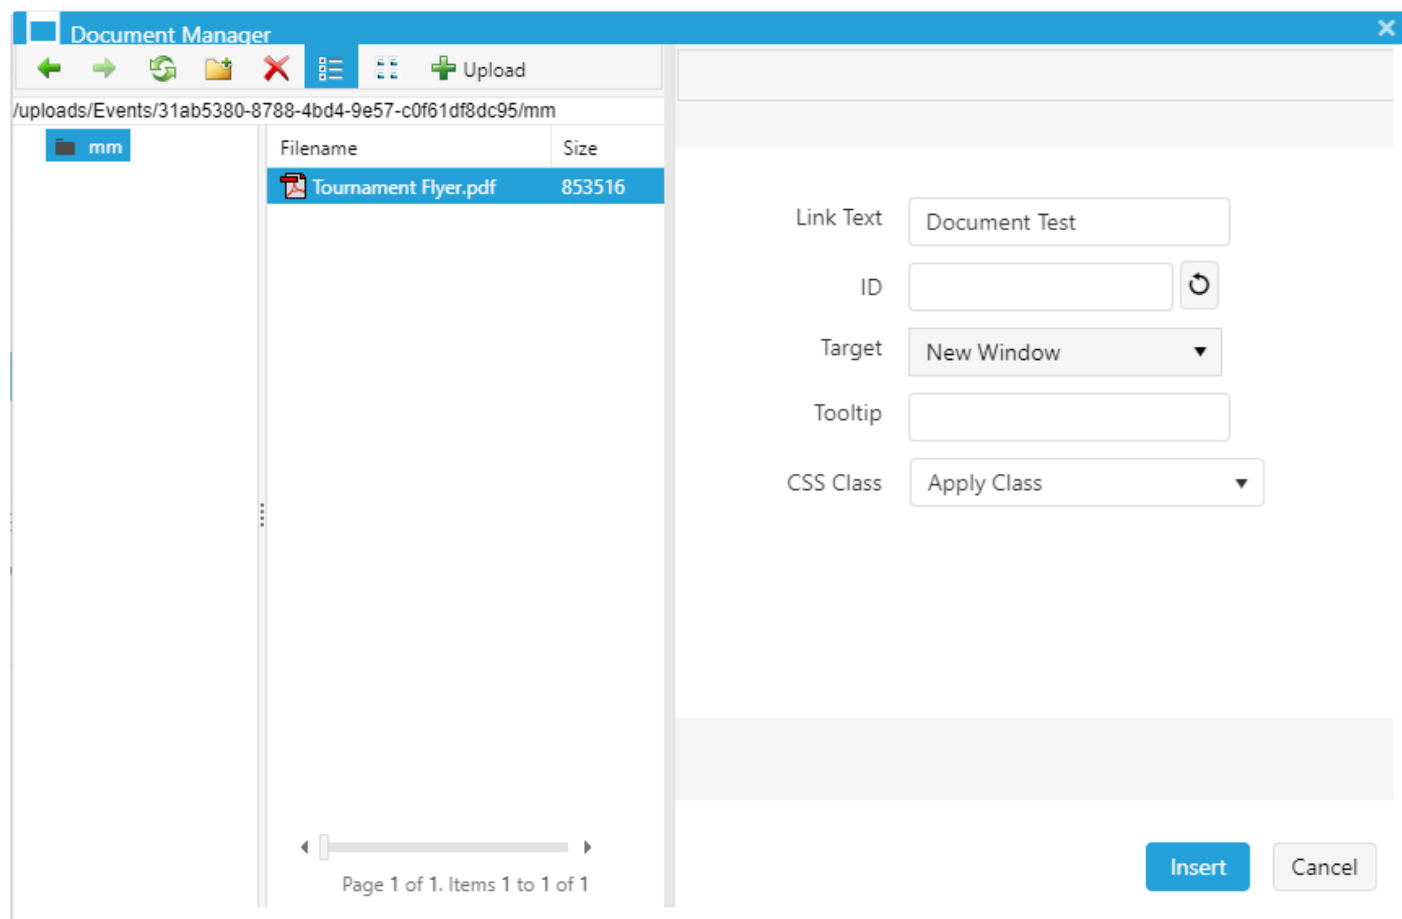

Anchor

Email

4.2.16.4.3.3. Documents

To add a document to your message, click on the Document button: 

If you have previously uploaded any documents for use in messages, they will appear in the middle column of this screen. To use one of those documents, click on it and a link menu will appear in the far right hand column.

Filename	Size
Tournament Flyer.pdf	853516

Link Text:

✿ All Tournaments and Leagues operate under the auspices of a Club but many do not require Club membership to participate.

5.1. How to Sign Up With a League

This is the main PickleballBrackets.com League screen. You will see it when you click on the Leagues link at the top of the home screen. All league searches and signups are initiated from this screen. Leagues are listed alphabetically. Find a League by scrolling down, or using the search box to locate a League by name or location.

Each League will have a Button that shows its registration status:

-  – The View button indicates that a league is active but not currently accepting registrations.
-  – The Price button indicates that a league is open for registration. The price may reflect a full session price or a daily price depending upon how the League is configured.
-  – The Register button indicates that there is no fee for this league but players must be a club member to join.
-  – The Completed button indicates that the league is over but the results are still visible to the public.

Click on the League name to join.

Many Club Leagues do not allow online registration and require members to register through the club. Those leagues will show a “No Online Registration” message when they are selected.

5.2. Opt In

The Opt in process is used by players or the league manager to manage attendance for a specific game day.

5.2.1. Regular Ladder League

When a regular ladder league session is set up, the league manager specifies the opt in date and time range for each game day.

About Opt Ins

1. League managers set the maximum number of players who can opt in for a game day. They can also enable the waiting list. If opt ins are full for the day, players can go on the waiting list and will be automatically opted in if an opening comes up.
2. The opt in time period is established by a date range. League managers may allow players to opt in for all game days as soon as they sign up for a session or limit the opt in date range to just the week or only a few days prior to the game day.
3. League managers can also opt in players for the game day themselves, depending on who actually attends.
4. Players must be opted in to be included in a game day playing group.

Players can opt themselves in or out from their phones or their computer by logging in to their pickleballbrackets.com account, selecting Leagues, My League Schedule, the name of the league and the Game Day button.

CLICK TO OPT IN

5

1. Indicates a past game day that the player already participated in.
2. Indicates that opt in is locked and the player is in. Only a league manager can opt a player out after the game day opt in is locked.
3. Indicates that the game day is full and the player is out.
4. Indicates that the player is not in but the opt in period has not yet started.
5. Indicates that the player is out but may still opt in for the game day.

Click to Opt in and the display will turn green.

5.2.2. Flex League

When players join a flex league, they are automatically opted in to all game sessions. They can opt out by using the same opt out procedure as for a regular ladder league until the opt in deadline for the next game day.

Flex league players receive automatic email reminders of the opt in/out status the week before their game session.

Flex League Match Play – Once the groups are set, players can opt themselves out for the week from any group of 5 or more players if they are unable to attend. The other players in the group may opt them out if they do not show up. This will re-configure the group and allow the matches to take place. Flex leagues also have the ability to add a generic sub in cases where there is a group of 4 and one of the players does not show up.

This opt out process for flex leagues is designed to manage last minute changes within a playing group. It cannot re-configure the entire game day. **If a player opts out of the current game day, they cannot opt back in.**

To remove a player from a group of 5 or 6:

- i. Log in to your PickleballBrackets.com account.
- ii. Select Leagues at the top of the screen on a computer or from the Menu Button on a phone and click on the My League Schedule button.
- iii. Click on the starting date of the week and select Groups.
- iv. Find the person who is not playing and opt him or her out.
- v. This will delete the player and create a new playing group.

To Sub in a player to a group of 4 if one or more players does not show up:

- i. Subs can be anyone. They don't have to be a player who is registered for the league.
- ii. You must get your own sub. The league director cannot provide names of subs.
- iii. Log in to your PickleballBrackets.com account.
- iv. Select Leagues at the top of the screen on a computer or from the Menu Button on a phone and click on the My League Schedule button.
- v. Click on the Go To Matches button.
- vi. Click the Sub Player button for each game that you would like to sub a player. It will allow you to choose the player you are taking out of the game.
- vii. Scores for subs do not count toward ladder standings.
- viii. If a sub is not available and the group is unable to play, the matches will automatically be cancelled at

the end of the week.

5.3. How to Create and Manage a League

This is the main PickleballBrackets.com League screen. You will see it when you click on the Leagues link at the top of the home screen. All league searches and signups are initiated from this screen. Leagues are listed alphabetically.

Women's Novice 2021 Spring League	MAR 20 2021 - MAY 1 2021	START: 4:30 PM	15 players	Cincinnati, Ohio 45249, United States

This section of the manual will cover all of the step needed to:

1. Create a League
2. Manage Registrations
3. Communicate with Players
4. Run the League

5.3.1. Creating a New League

New leagues can be:

1. Added by an authorized manager of an organization
2. Copied from a previous league by an authorized Primary League Director

If you do not have an established organization in PickleballBrackets.com, you can use the Contact Link at the top of the PickleballBrackets.com main page to request that an organization be set up for you.

Create a new league by:

- Logging in to your account
- Clicking on your name in the upper right of the screen
- Selecting My Stuff
- Clicking on League
- Clicking on the Create a NEW League button

Create a NEW League

5.3.2. League Structure

League Structure

Before creating a league it is important to understand the ongoing structure of the league system. Although a seasonal league can be set up as a one time event running for a fixed number of game days, most leagues are ongoing. They will often consist of continuing sessions such as fall, winter, spring, etc. Each season would be set up as a new session of the existing league and in the following fall, a new league would **not** be created but a new session of the existing league would be added.

The advantages of this league structure are:

1. Player standings can be easily preserved during the transition from one session to another
2. Using the online registration system, existing players can be given a special pre-registration time period for the new session.
3. If the league director is managing all registrations, existing players can be quickly added to the new session while maintaining their league ranking.

Using this structure, the league name should reflect the eligibility of players to join rather than the season of the league.

For example:

- A league that is open to all players in a club could be named **The District One Coed All Levels League**
- A similar men's league could be named **The District One Men's All Levels League**
- Restricting the league by skill level would require a name such as **The District One Men's 3.0-3.5 League**

Each limitation on registration requires that a new league be created but easily allows the addition of new sessions to maintain the ongoing nature of the league.

5.3.3. Setting Up the League

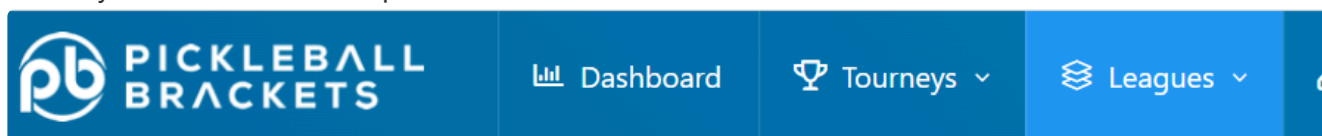

Follow these steps to create a new league.

✿ You must be listed as a manager for your organization in order to create a league.

1. Log in to your PickleballBrackets.com account.
2. Click on the Leagues link at the top of the page.
3. Click on the Create New League button.

 Create a NEW League

4. Select your club from the drop down menu and click on the Next button.

001 DEMO Pickleball Association

League Title

35 Character Limit

Website

Online Store URL

Type

Ladder

Players / Teams move up and down the rankings each week based on their stats. Each week players / teams are divided into groups based on their ranking in the ladder

Traditional League

Teams (players if the format is singles) are scheduled to play every other team in the league at least once during the session.

1. Status: The initial status of a new league should be active. Once league play is completed, you can change the status to closed.

2. **League Title:** Give your league a title. Remember that this is the overall league title, not a title that describes one session of the league.
3. **Website URL:** If your organization has a website, insert the URL here and a button will be created on the League page with a link to the site.
4. **Online Store URL:** If your organization has an online store, insert the URL here and a button will be created on the League page with a link to the site.
5. **Type:** Select the type of League you wish to run.

Ladder leagues rank players by their results and change the playing groups each week. In a Traditional league, the teams (or players if it is a singles league) will play each of the other teams in the league once over a number of weeks. The number of matches played will depend on the number of teams signed up for the league.

5.3.3.2. Basic Info Page 2

Player Type

1

Scramble

Players sign up individually. Each week players are put into groups and partner with each of the other players in their group. So each match is played with a different partner in their group.

2

Partner

Players sign up with a partner and stays with that partner for all matches played throughout the session.

3

Team (COMING SOON)

A captain picks their team prior to the session starting. The team can have 4 or 6 players on it based on the directors settings. Each week one team plays another team. For example each team must have one of each: 3.0, 3.5, 4.0, 4.5+ or any combination based on how the league director sets up the league. During a given week one of the teams is considered the "home team" and the other is considered the "away team". A specified number of matches will be set for each day. The away team picks their lineup for each match. The home team then selects their matchup for the same matches. Teams can be made up of men's, women's, mix, or coed.

4

Player Group

Mens

Men Only

Womens

Women Only

Mixed

One Male Only & One Female Only

Coed

Any Combination of Gender Can Play. NOTE: Players will enter into this bracket with their Doubles Skill NOT their Mixed Doubles Skill.

1. Scramble: Select this if you wish players to sign up individually. Groups and partners will be created

each game day based on the ladder positions of the players who opt in..

2. Partner: The operation of a partner league is similar to the scramble ladder league except that it is a team of two players that moves up and down the ladder together rather than individual players. They will always play together as a team and be ranked on the ladder as a team.
3. Team: This feature is in development.
4. Player Group: This is where you can limit the signup by gender group.

Mixed only refers to Partner leagues. There is no current ability to create a mixed doubles scramble league.

**Coed**

Any Combination of Gender Can Play. NOTE: Players will enter into this bracket with their Doubles Skill NOT their Mixed Doubles Skill.

Format

**Doubles** 2**Singles****Skinny Singles**

Allow Player Score Entry

**Yes****No**

This gives players the ability to enter their own scores into the system once the director starts play. NOTE: Players can ONLY enter scores to games they are playing in. Players CANNOT enter score in other games.

Additional league parameters.

1. Choose your player group here. The mixed option is only available for Team Leagues and Partner Leagues. If a doubles scramble league is open to both men and women, choose Coed.
2. Choose your league format here.

3. Players will be able to enter their own match scores if you select Yes here.

Allowing players to enter their own scores can save time for the league manager. Players can do that from their phone and only one person from the playing group needs to enter the scores for each match.

1. Click here to add your league logo. This can be the same as your club logo.

File types accepted are: 'png', 'jpg', and 'jpeg'.

The uploaded logo must meet the minimum size of:

Width: 600 pixels.

Height: 315 pixels.

The image **MUST** completely fill the specified area.

NOTE: This is **NOT** an editing software. This upload tool simply allows you to upload and resize your logo to fit our constraints. You may need to use an image editing software prior to uploading to get your desired results. These sections of the manual explain how to use image editing software to change the size of a logo:

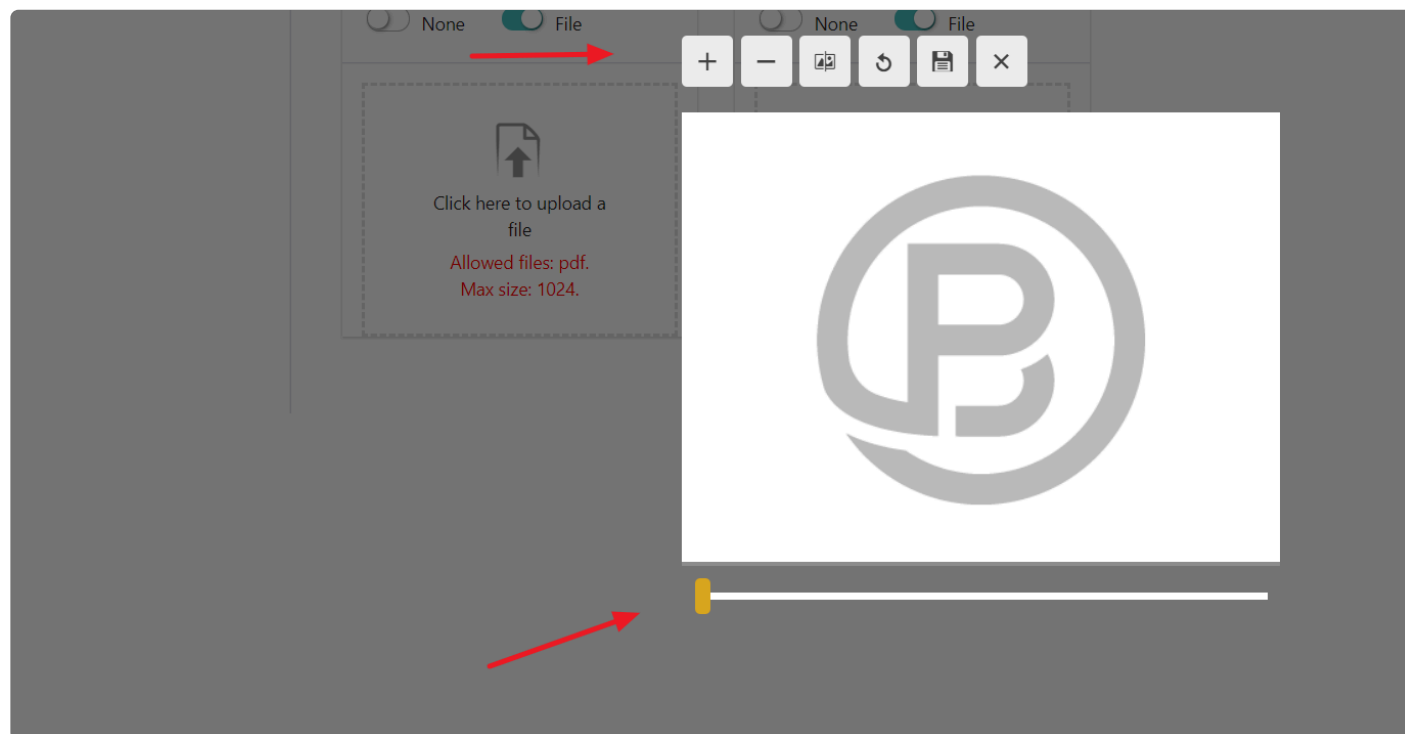

[How to Add a Logo That is Too Large](#)

[How to Add a Logo That is Too Small](#)

- Click on the Logo Upload box.
- Either double click on your image or click on your image and select open.

✿ Your image should not be too much larger than the minimum size. You will be able to crop it to fit but images that are too large may overlap the logo space even after cropping.

Once you upload your image you will see the cropping tool.

Buttons across the top allow you to:

- Zoom In
- Zoom Out
- Auto Resize
- Reset back to the Original Size
- Save the Image
- Cancel the Upload

The slide bar below the image may also be used to zoom in and out.

1. Click on the primary contact button and search for a primary contact. That person must have a player account. The same process can be used to add a second league contact person.

5.3.3.7. League Checkout Options

Choose Checkout Options

The organization or club can set up Stripe or PayPal accounts to accept online registration fees. If they have done that, the league director or manager will be able to specify that as one of the tournament Checkout Options. They also have the option of collecting mail in or onsite payments. If more than one Checkout Option is specified, players will be able to select their preferred payment method.

2. Checkout Options

The Association "**001 DEMO Pickleball Association**" has 1 payment gateway setup to collect fees.

You can activate this below as an option to pay during registration checkout.

The feature to collect payment via onsite or by mail can also be activated below.

Select all that apply.

1. **Session Players** – A list of all the players registered in the current session as they are ranked on the ladder.
2. **All Sessions** – This will list all of the league sessions and allow the league manager to edit those sessions.
3. **All Session Game Days** – This will list the game days for the current league session and allow the

league manager opt players in or out, enter scores and manage play on the game day.

4. **Edit League** – This allows the league manager to view and edit the league setup parameters.
5. **League Players** – This shows a listing of all the current league players with their current payment history.
6. **Dashboard** – (coming soon)
7. **Edit Current Session** – Allows the league manager to modify details for the current league session.
8. **Edit Current Schedule** – Allows the league manager to edit the game day schedule for the current session.
9. **Add a Session** – Select this menu option to add a new session to the current league.
10. **Messages** – Select this option to send messages to the current session players.
11. **Blank Score Sheets** – Select this option to print blank score sheets in any scoring format.

5.3.4. League Sessions

Each League is made up of Sessions. Sessions are groups of game days that can run multiple weeks. Some sessions are only six to eight weeks long. Others run a year or more. The league manager determines the length of the session, often based on a billing period for the league or seasons of the year (fall, winter, spring and summer). Most of the specific parameters of a league are set up within the session. This includes such items as:

1. Age/Skill Limitation
2. Maximum Number of Teams/Players for the session
3. Maximum Number of Teams/Players for the game day
4. Count Games Toward Club Ratings
5. Use Flex Play
6. Signup / Payment Type
7. Allow non-club members to play OR restrict play to only club member.
8. New Player Starting Point
9. Registration Details
10. Registration Dates
11. Date for age calculation
12. Online registration ability: Y/N
13. Registration Fees
14. Ranking Type

Some parameters must be set at the beginning of the session. Others can be changed during the session according to the needs of the league.

The most significant benefit of a league with continuous sessions is the ability to maintain player rankings when moving from one session to the next.

5.3.4.1. Adding New League Sessions

To add sessions to any league, log in to your pickleballbrackets.com account, click on **My Leagues** and select the league you are managing. The league menu will show on the right side of the screen. Select **Add a Session**.

League sessions are consecutive. Session 2 follows Session 1, etc. Do not create a new session for a different group of players. For that, you need to create a completely different League.

League Session setup will take you through a series of steps to configure the session.

1. **Fee Plan** – This is the current fee for a league in US Dollars.
2. **Visible Status** – Do you want this league to be shown on the public website? This works together with the “**Show Public Date**” that specifies **when** it will be shown.
3. **Current Status** – The league is not live until the league director turns this on. That should be done only when the setup is complete and registrations may start.
4. **Complete and Lock** – Turn this on to end the session.
5. **Count Games Toward Club Ratings** – If turned on, games played during this league will count toward club ratings for games where all players in a particular game are club members. If a league is using club ratings to rank players on a ladder, this must be turned on, otherwise it is optional.

There is an additional fee to calculate club ratings. Check the **Pricing** tab at the top of the PickleballBrackets.com homepage for the current fee.

1. **Activate Player Text** – If text messages are active for a league, players will receive a message after

each game that shows the score that has been entered. League managers will also be able to send a general text message to all of the opted in players on a particular game day.

2. **Default Location** – Select the playing location for this session. Locations are listed in the Club record.
3. **Session Number** – Select the session number for this league. If this is not the first session of the league, the league director will be given an opportunity later in the setup process to import all of the players from the previous session.
4. **Skill Level** – This will restrict registration for the session to a particular skill level. Skill levels will be evaluated based on the rating choices specified in option 6, below.
5. **Age** – This will restrict registration for the session to a particular age group.
6. **Rating Choice** – This specifies the order of selection of the rating to be used for determining the eligibility for session sign up. The choices are PickleballBrackets.com Tournament Rating, Club Rating and Self Rating. These will be evaluated in order of selection. If a player does not have a Pickleballbrackets.com rating or a Club Rating, and either of those are selected as the first or second priority, the system will default to using their self rating.

5.3.4.1.3. Session Page 3

Use Flex Play 1

☐ Yes

Players pick a day, time, and place where they can all meet and play. The only stipulation is all scores have to be submitted by "Match To Date" specified by the director (in the schedule).

☒ No

Traditional style where all players in the league meet at a specific place at a specific time slot.

Signup / Payment Type 2

☒ Each Game Day

(Open League)
Each day the league is played the participants sign-up (and pay if applicable). Signup could be through the application or onsite, whichever the director specified.
It is "open" to players entering anytime during the session.

☐ At Session Signup

(Closed League)
Prior to the session starting, participants sign-up (and pay if applicable) for the entire session.
It is "closed" to entry after the session starts.

Max Players for this Session

1. **Use Flex Play** – With a Flex League, players will receive and email at the beginning of their current playing week that lists the members of their group. It is their responsibility to arrange play at any time or place of their choosing during that week. All scores **must** be entered, either by the players themselves, or by the league manager, prior to the deadline set for that week. Any matches with no scores will be automatically canceled.
2. **Sign Up / Payment Type** – Do players have to sign up for the entire session or can they pay for each game day individually? Flex Leagues require a Session sign up.
3. **Max Players for this Session** – This can be unlimited or restricted to only a certain number of players based on the number of courts available. Flex Leagues can usually be unlimited in size. The blue number shows the current count of registered players.

✿ A suggested max for a traditional league would be five or six times the number of courts available. If every session player opted in for a particular game day, there would then only be one or two byes for each game that day. Typically, not every player will opt in for every game day.

The settings on this page set all of the parameters for the online registration process.

If the League Manager is entering players into the session, the age limit deadline will apply if the session is limited to a certain age range. League managers are not restricted to any registration deadlines.

1. **Allow Non-Member Sign-up** – Turn this off to restrict entry to only those players listed as members of your PickleballBrackets.com Club
2. **Cost** – Enter the session cost here. You can specify different costs for club members and non-members.
3. **New Players Start** – If you are adding new players to a session that already has players from a previous session or that has started but is still accepting registrations, where do you want them to be placed on the ladder?
4. **Show to Public** – When do you want this session to be shown on the public website? The session must be set to visible for it to show.
5. **Use Waiting List** – Each session has a maximum number of registered players and a maximum number of players who can opt in for a particular game day. If the maximum number for the game day is met some session players were not able to get in, do you want to establish a waiting list that will automatically opt players in if there is a dropout for that day?
6. **Use Online Registration** – Set this to Yes if you want players to register themselves. If the League manager will be registering players, and collecting registration fees outside of PickleballBrackets.com, set this to No.
7. **Current Players Early Signup Date** – Allows players from an earlier session to sign up before the general public. *This only applies to online registration.*
8. **New Players Open Spot Signup** – What is the date that new players will be able to start registering. *This only applies to online registration.*
9. **Age Limit Deadline** – If this session is only open to a certain age range, what date will be used to calculate the player's age?

Scramble Seeding Within Group for Matches
No
2
After groups are created scramble the players within the group. This prevents the same matchups week after week if the same players end up in the same groups repeatedly.

Ranking Type
3

☐ Club Rating
Club rating system will determine the ranking of player after games are played each game day.

☒ Percentage of Points (POP)
% Earned to Possible, Match Wins. (If there is a tie after these 2 factors are calculated then the higher ranked player the previous week takes precedence.)

☐ Up Down
After the all games are completed, X number of Players move up to a higher or down to a lower group.

☐ Custom
Set custom point values for winning, losing, and playing

The following pages list the parameters that control the operation of the session including how players are matched up each game day, how they move up and down the ladder, the points played based on the number of players and the columns that are show on the main player page.

1. **Serve and End** – The system can designate the player who chooses serve and end for each game, giving it to the highest seed. Turn this off to allow players to choose.
2. **Scramble Seeding Within Group For Matches** – This instructs the system to use different seedings each week to vary the player matchups within a group. This will prevent the same players from being matched up together every week if they are in the same group. *This only applies to groups of 5 or more. If this is selected, the League Manager will not be able to manually move players from one group to another.*
3. **Ranking Type** – This determines how players can move up or down on the ladder. The following pages include detailed explanations of each choice.

5.3.4.1.5.1. Traditional Leagues

Traditional Leagues are those that take place over a set period of time. The format is round robin and each team or person, if it is a singles league, will play each other once over the time period. Setup options for a traditional league are restricted to those necessary for round robin events involving two teams or players.

The Ranking Type follows current IFP guidelines and score formats are limited to only those that apply to two teams (or players for a singles league).

Ranking Type

☒ Wins, H2H, PD%

(This Ranking Type is used for the type "League" ONLY)

Total matches won

First tie-breaker: head-to-head matches won.

Second tie-breaker: point differential of all games played.

(e.g., Team A won Match 1 11-8, 11-4, so they would have a point differential of +10.

Team A then wins the second match 11-9, 2-11, 11-6.

For this round, they would have a point 50 differential of -2.

This would give them a total for the day of +8.)

Third tie-breaker: head-to-head point differential.

Fourth tie-breaker: point differential against next-highest team. (e.g., If the teams are tied for second, use point differentials against the first-place team.)

Changes to score formats DOES NOT impact games days where players have already opted in.

Things to Know:

1. Since a traditional league is scheduled as a round robin, the league director should allow enough game days in the schedule for all registered teams to play each other once for a single round robin format. If there are not enough game days in the schedule, some teams will not be scheduled to play each other.
2. More than one game day can be scheduled for a week in order to assure that there are enough game days in the schedule for all teams to play each other.
3. Scores may be entered in any order and games do not have to be played on the actual date listed. This allows games to be played and scores entered at any time. Entered scores may be edited up to 24 hours after they are initially entered.

- There is no opt in period for game days. All teams are scheduled to play. However, subs may be designated for missing players.
- Traditional league standings are displayed in ladder format and are adjusted after every game that is played.

4	alpha alpha  Jason TEST2	0	0	0	0	0	0

Ladder Leagues are set up in a Scramble format where each individual player or team plays at least one round against the others in their game day playing group. There are four methods for ranking players on the ladder.

They are:

- Page 617 of 707

3. Up Down
4. Custom

✿ Parameters for each type are specified during the session setup. Managers may also manually move players up and down the ladder using the arrows next to their names if they wish to override the parameters.

5.3.4.1.5.2.1. Percentage of Points (POP)

Percentage of Points (POP) Ranking Type

1. This is calculated as a percentage based on points earned divided by the total possible points
2. A tie is broken by Match Wins
3. If there is a tie after these 2 factors are calculated then the higher ranked player the previous week takes precedence.
4. Leagues can limit the up or down movement of a player each week by a fixed percentage of the size of the ladder.
5. If the league imposes a missed game penalty, then that penalty is imposed after the POP is calculated and that will determine the player rank on the ladder.

If there are missed game penalties or up down limits for the league, be sure to show those columns on the ladder ranking display.

5.3.4.1.5.2.1.1. Two Round POP

If there are two rounds of play, the first round can be treated as an Up Down round where the League Director specifies the number of players in each group to move up or down.

Up Down Count
(For 2nd round)

1 Player ▼

Games days are split into 2 rounds.

The 1st round Players play everyone in their group once and then the top and bottom X number of players move up and down.

The 2nd round Players are matched up again and play another set of games with the new players moved into their group from above and below.

Example: The bottom 2 from group three move to group four and the top 2 from group three move to group two.

AFTER the second round is completed ranking will be calculated based on the Ranking Type selected.

5.3.4.1.5.2.1.2. Group Bonus Points

The League Director can award bonus points to players in a group based on the difficulty of play. Those points are added to the POP score after all calculations take place. Points can be entered up to two decimal places.

CancelSave »

Game Day Difficulty Bonus Points

Group 1

Give additional points to groups based on their difficulty.

Days Grace

2 ▼

Subtracted From Total (per missed)

0 ▼

Max Movement Rule

Uimt ▼

1. Apply penalties for missed game days by first selecting the grace period (how many consecutive days can be missed without a penalty) and then selecting the penalty to be applied for subsequent missed game days.
2. Limit movement up and down the ladder by percentage of the size of the ladder. This can be used prevent a new player who enters the league and wins every game on the first day from moving directly to the top with a score of 100%. It also prevents extreme movements down the ladder by players who have a particularly bad outing.

5.3.4.1.5.2.2. Club Rating Ranking Type

Club Ratings

The Pickleball Brackets rating system will calculate all club ratings of player in the league after games are played each day. Players will be ranked by their club ratings after their new rating is calculated.

1. This ranking type requires that players be listed as active club members.
2. There is an additional fee for the system to calculate club ratings. Click [HERE](#) to view fees.
3. Ratings are only calculated for games where all players are club members.
4. The club can specify how coed matches are treated. They will either be ignored or counted toward the players doubles club rating. This setting is contained in the Club record and can only be changed by the Club Manager.

5.3.4.1.5.2.2.1. Score and Groups Size Defaults

Groups are configured each Game Day based on the number of players who have opted in. The League must specify, in advance, the preferred group sizes and the default scoring format for each size group. Groups can be configured for up to 9 players for a single or double round.

5.3.4.1.5.2.3. Up Down

Cancel

Save >>

☒ Up Down

After the all games are completed, X number of Players move up to a higher or down to a lower group.

Number of Up Down Rounds

How many Up Down round per game day. After each round players move up and down groups. Not available for Flex Play.

1 ▼

Total Players Moving

This is the total number of players to move up & the total number of players to move down

1 ▼

Days Grace

The total amount of missed days before a penalty is applied

2 ▼

Number of Miss Game Days in Row to Penalize

How many game days in a row do you want to penalize a player?

Ex: if the penalty is 3 rank spots and a player misses 2 game days in a row they would be penalized 6 spots.

If they come back the following game day it resets but if they missed 3 game days in a row they would not be penalized for the 3rd game day in a row.

If they miss another game day after that the penalty starts over.

Don't Penalize ▼

Miss Game Day Rank Penalty

The total number of rank positions a player will move as a penalty

Don't Penalize ▼

Up Down (Also known as King of the Court)

1. **Director can choose the setting for 1 or 2 players/teams to move up and down.**
2. **Single or double round robin available**
 - a. Single
 - i. After all games are played top X number of players move up a group and the bottom X number of players move down. Players are reseeded based on their movement and ready for the next game day
 - b. Double
 - i. After all games are played top X number of players move up a group and the bottom X number of players move down. Players are reseeded based on their movement and the next round starts with players in new groups.
 - ii. After all games are played top X number of players move up a group and the bottom X number of players move down. Players are reseeded based on their movement and ready for the next game day
3. **Factors that determine the movement up and down groups**
 - a. Total game wins for that game day (or round if you are doing a double round robin format)
 - b. First tie-breaker: head-to-head games won. Who beat who more times when opposite one another.
 - c. Second tie-breaker: point differential percentage of all games played. (((Total Points Earned –

$\text{Total Points Against} / (\text{Total Possible Points}) * 100$

- d. Third tie-breaker: the higher seed prior to starting gets the resulting higher seed

Total Possible Points is based on the group they played in. Some groups may play 3 games and others may play 4 or 5 games. Their Possible Points would be higher than the person that played in a smaller group and had less possible points. The difference in group size is why we use "Point Differential Percentage" and not "Point Differential"

This format also allows the League Director to impose penalties for missed game days.

5.3.4.1.5.2.4. Custom

Custom Leagues allow the League Director to award points based on performance each game day. Total points accumulated are then used to rank players on the ladder.

Up Down Count
(For 2nd round)

Don't Use ▼

Games days are split into 2 rounds.
 The 1st round Players play everyone in their group once and then the top and bottom X number of players move up and down.
 The 2nd round Players are matched up again and play another set of games with the new players moved into their group from above and below.
 Example: The bottom 2 from group three move to group four and the top 2 from group three move to group two.
 AFTER the second round is completed ranking will be calculated based on the Ranking Type selected.

The League Director can specify points for the following factors:

1. Points for playing a game
2. Points for winning a game
3. Points lost for losing a game
4. Points for winning a match
5. Points lost for losing a match
6. Points for winning a straight match
7. Points lost for losing a straight match

The system totals the points and players are ranked from highest points to lowest points.
If there is a tie after calculations, then the higher ranked player the previous week takes precedence.

✿ When moving players up or down for the next week, players who were absent may be bumped down a group.

If there are two rounds of play, the first round can be treated as an Up Down round where the League Director specifies the number of players in each group to move up or down. Points are awarded for the second round.

The League Director may also choose to add extra difficulty points based on the rank of the player group.

5.3.4.1.8. Session Page 8

You have the ability here to specify the first and second size group size that you prefer for the session and the game format for each possible group size. All of these choices will depend on the number of courts that you have available and the maximum number of opt ins you permit for each game day. The system will always use a format that includes every opted in player. It will first attempt to use your preferred group size settings.

If you have only a limited number of courts, you should set your first preferred group size large enough to allow groups that will accommodate every opted in player on the courts that you have available. You should also set the maximum number of opted in players for each game day to a number that will fit on the available courts.

1. Select the day(s) of the week that the league will play.
2. Select the start time.
3. Select the number of weeks.
4. Select the maximum number of players allowed to opt in for a game day. This can be less than the maximum number of players in the league. If you wish to activate the waiting list option, turn that option on in your session settings, set this to the max number of players you can handle and **then** create the waiting list final automatic movement time period in Number 8 below.
5. Select the first game date.
6. Select the amount of time prior to each game day that players can begin to opt in. Players **must** opt themselves in if they want to play on any game day.
7. Select the end of the opt in time period.
8. Select the final time period that waiting list players can be automatically added to the game day. For example, if you want to assure that waiting list players have enough time to change any plans and arrive on time to play, you might want to set this time to at least a few hours prior to the start of each game day.

Set the maximum number of opt in players to guarantee court space and time for your playing groups.

Any session player who tries to opt in after the maximum is reached, will be prompted to sign up on the waiting list.

Options 1 through 4 are available to session players on the league web page. Option 5 may be viewed by players. All other options are only available to the league manager.

5.3.4.2. Two Player Team Ladder Leagues

Ladder Leagues can be set up for two player teams. They can be coed, mixed or doubles. All of the setup options for single player ladder leagues can be applied to two player team leagues.

Both partners MUST register independently.

Players needing to register are identified with a ghost icon next to their name.

Incomplete teams will NOT be included in game days.

Save	Rank		Previous	E/P Diff %	Penalty	E/P Diff % - Penalty	Earned	Against	Possible	Wins	Losses	# Played	# Missed	Miss Cur	Game Day			
	1	alpha alpha alabama alabama	1	84.7619 %	0.0000	84.7619 %	89	68	105	4	3	2	0	N		↕	🚫	
↑ ↓	2	Andy Beecher Wyatt Leonard-barton	2	79.0476 %	0.0000	79.0476 %	83	82	105	4	3	2	0	N		↕	🚫	
↑ ↓	3	Mason Toscano Zac Kain	3	79.0476 %	0.0000	79.0476 %	83	67	105	5	2	2	0	N		↕	🚫	
↑ ↓	4	Larry Goldsmith Vincent Giebfried	4	72.5000 %	0.0000	72.5000 %	87	111	120	2	6	2	0	N		↕	🚫	
↑ ↓	5	Franklin Eberneese silver silver	5	66.6667 %	0.0000	66.6667 %	70	84	105	3	4	2	0	N		↕	🚫	
↑	6	Joel Topstan Joseph Looner	6	0.00 %	0.00	0.00 %	0	0	0	0	0	0	2	Y		↕	🚫	🗑️

These additional restrictions apply:

1. The system will verify partner eligibility based on the composition of the team required, eg. coed, mixed or doubles.
2. Only one of the two partners must opt in for each game day.
3. If the ranking type is by Club Rating, positions on the ladder will be determined by the combined, weighted club ratings of the two players. Team ratings are calculated as a 65%/35% ratio favoring the weaker player.

5.3.4.3. Running the League Session

The next sections of this manual will describe how to run your league session and how the standings wil show to the public

5.3.4.3.1. Adding Players

Players can be added to a session by the league manager directly or through the online registration process.

5.3.4.3.1.1. Online Registration

If the Session is configured to allow online registration, players may select the league from the main league listing and register themselves for the current session.

- ✿ Eligibility for online registration is governed by the parameters established in the session settings. These include, registration date restrictions, player limits, club or non-club eligibility rules and session skill, age and gender restrictions.

5.3.4.3.1.2. League Manager Entry

Players may be added to a session directly by the league manager. Anyone who is added to a session is automatically added to the league if they are not a current league member.

To add a player to a session, log in to your pickleballbrackets.com account, select My Stuff, Leagues and then managing. Click on the League you wish to add the new player to.

1. **Lock Opt Ins** – This will create the playing groups.
2. **Groups Tab** – Click here to see and edit the groups.
3. **Group Size Options** – The program will default to preferred group size established during the session setup. Other group sizes are available that the League Manager may choose from this drop down menu.
4. **Scoring Format** – This will depend on the size of the group and the scoring formats established during the session setup.
5. **Groups Adjustments** – Use the up or down arrows to move players to another group.

Moving a player up or down on this page does not move their position on the ladder. It only changes the players with whom they will compete with on the current game day.

If group adjustments are made, be sure to click on the Save button to confirm any changes.

- ✿ If the league allows players to enter their own scores, only one player in the group must record the scores. If texting is turned on, the other group players will receive a text message showing the score.

5.3.4.3.2.1.5. Completing the Game Day

Completing the Game Day

Once all of the scores are entered, the league manager must complete the game day. That will update the ladder standings. If the ladder standings are based on club ratings, the update will take place the following day since club ratings are calculated overnight. There is also a Start Over button that allows all of the game day scores to be zeroed out.

Ranking calculations are redone starting with the first day of the session every time a Game Day is completed.

Roll backs cannot be done for game days if the next game day has already been started.

5.3.4.3.2.2. Flex League Game Day

Game Days for a Flex League are managed by the players. They decide when and where to play after receiving an email listing the players in their group.

5.3.4.3.2.2.1. RSVPs

Players in a Flex League are automatically opted in to every game day when they join the league. They may opt out according to the schedule assigned by the League Director. The League Director may also opt players out from the RSVP screen up until the time that the group emails are sent out to the players.

5.3.4.3.2.2. Groups

Groups are assigned in the same manner as a regular ladder league. Players must make their own arrangements to play.

1. For a group of 5 or more, if a player does not show up, the remaining players may opt him/her out and the group will then be re-arranged and a new schedule of games will be created.
2. For a group of 4, if a player does not show up, the remaining players can recruit a sub to replace him/her. One of the players can select the sub button for each of the games that the person would have played. This allows the matches to be played. The sub gets no credit for any games.
3. If there are only 3 players available, the matches cannot be played and will automatically be canceled at the end of the week.

5.3.4.3.2.2.3. Matches

Enter scores for a Flex League in the same manner as for a regular ladder league.

✿ Flex League games that have no scores are automatically canceled at the end of the week.

5.3.4.3.2.2.4. Completing the Game Day

Flex League Game Days complete automatically at the end of the week. The Ladder Rankings are then calculated and emails with groups for the following week are sent.

Score corrections for a Flex League must be made before the end of the week. **There is no ability to Roll Back the scores for a completed flex league week.** Ranking calculations are redone starting with the first day of the session every time a week is completed.

5.3.4.3.2.3. Traditional League Game Day

Traditional League – Players have 24 hours following a game day to enter results. Once all of the game days are complete, the league manager can complete the session.

5.3.5. Managing an Existing League

Once a League has been set up, it may be managed from the League Menu.

5.3.5.1. Deleting or Hiding a League Player or Adjusting Rankings

Players may be deleted or hidden from a session using either of the two following processes:

1. Players who joined but did not play any league games may be deleted from the Session Players List on the League Management Menu by clicking on the trash can at the end of the row next to their name.
2. Players who have played on at least one game day, can be hidden but not deleted. Click on the hide icon at the end of the row next to their name. Hidden players will appear at the bottom of the management list but not on the public list. They can be restored at any time by the manager.

Adjusting Rankings

1. Managers may adjust rankings for a league at any time by using the up and down arrows next to the player's name and then saving the new rankings.
2. This is particularly recommended prior to the start of a new league if players are known to you. That will minimize wide swings in the rankings during the first few weeks of the session.

Adjusting rankings during a session does not override how players will be positioned on the ladder for subsequent games days of either a POP league or a league that is ranked by player ratings.

Senior players, age 50 and over, will have ratings and skill levels in three different categories. Click each button separately to view the ratings. Younger players will only have an overall rating and skill level.

1. Senior Rating – This shows a rating and skill level for all matches played where every player was age 50+
2. U50 Rating – This shows a rating and skill level for this player for matches where at least one of the players was under 50 years old.

3. Overall Rating – This shows the overall calculated rating and skill level for every match played by this player.

! Since ratings are calculated relative to the ratings of the other players in the matches, it is possible to have a Senior rating that is lower than the U50 rating or the Overall rating.

1. Current Rating – The rating in dark black is the current rating for this player. It is updated on the first day of every odd month.
2. Future Rating – This rating is calculated every day. It will reflect results from any tournament played since the calculation of the most recent current rating. On the first day of the next odd month, the future rating will become the current rating.

! Sign up for any tournament that requires validation against PickleballBrackets.com ratings will use the current rating at the time of registration.

Rankings

1. Rankings listed under the current 8 digit rating are within the skill level.
2. Rankings listed in the black box are within the event (all players).
3. Future rankings are within the skill level.

Click on the blue Player Stats drop down menu for these additional options:

1. Game Results
2. Tournaments
3. Graph

6.2.2. Game Results

This page shows every matched played in each tournament and the rating changes that occurred after each match.

1. **This is the most recent tournament.** Use the drop down menu to change tournaments.
2. **This is the rating category being show.** Click on the button to switch between Overall, Senior and U50.
3. **Rating changes are capped at .08 per match.** They cannot increase or decrease by more than that amount. This is done to limit the impact of one poor or excellent result.
4. **This is the predicted score and odds of winning for the higher rated team.**
5. **This is the actual score of the match.**
6. **The magnified area shows the rating change resulting from this match.** The top number is the start rating. The bottom number is the end rating. The number in the middle column between the two players is the team average. If the team is predicted to win, the number is green. If they are predicted to lose, the number is red.

Moving Players or Teams Into an Event

This screen allows you to easily move groups of players or teams into an event. When you select “Move Teams In” from the event setup screen, you will see a list of every player or team that is eligible for the event based on the event criteria. This includes any waiting list teams for the current event and any others who may be currently registered or on the waiting list for other events. Select the players or teams to be moved and click on the green Save button.

Click the  icon where shown on the form for more information about that field.
